Racing Research Researching Race Methodological Dilemmas In Critical Race Studies:

Racing Research, Researching Race France Winddance Twine, Jonathan Warren, 2000 This book is an examination of what it means to be conscious of race when one is doing research There are those who argue that just to acknowledge race is to perpetuate the biological myth of race But this book warns that is to confuse the biological with the social further arguing that the race of the researcher can be a significant factor in what information is revealed by interviewees and that this needs to be considered when planning a study or reviewing its results This book is the authors attempt to initiate a serious discussion of the potential ethical emotional analytical and methodological dilemmas generated by racial subjectivities racial ideologies and racial disparities in research c Book News Inc *Race-Ing Research, Researching Race* France Winddance Twine, Jonathan W. Warren, 1999 Ethnic Studies Research Timothy P. Fong, 2008 Ethnic Studies Research synthesizes and benchmarks ethnic studies methodologies as interdisciplinary modes of inquiry providing state of the art summary chapters on key methods and issues extensive bibliographies and promising new directions for the future The study of ethnic groups and race relations has always existed in academia primarily in the areas of sociology and anthropology However grassroots movements for ethnic studies programs and departments developed with very different agendas for the study of these groups It is surprising then that relatively few books devoted to these methods exist to document and promote this innovation among succeeding generations of graduate students as well as current academics and professional practitioners Ethnic Studies Research is a step toward ending that void Book jacket **Critical Issues in Anti-racist Research Methodologies**

George Jerry Sefa Dei, Gurpreet Singh Johal, 2005 Anti racism studies have blossomed over the years with scholarship and political work reinforcing each other to cement anti racist change But how do we understand anti racist research How is anti racist research methodology different from other methods of research investigation What are the principles of anti racism research This edited collection attempts to provide some answers by bringing together works that examine the perils and desires of anti racist research with a particular focus on the notion of difference and a serious consideration of the race gender class and sexuality intersections implications of educational research Anti-colonialism and Education George Jerry Sefa Dei, Arlo Kempf, 2006 There is a rich intellectual history to the development of anti colonial thought and practice In discussing the politics of knowledge production this collection borrows from and builds upon this intellectual tradition to offer understandings of the macro political processes and structures of education delivery e g social organization of knowledge culture pedagogy and resistant politics The contributors raise key issues regarding the contestation of knowledge as well as the role of cultural and social values in understanding the way power shapes everyday relations of politics and subjectivity In reframing anti colonial thought and practice this book reclaims the power of critical oppositional discourse and theory for educational transformation Anti Colonialism and Education The Politics of Resistance includes some the most current theorizing around anti colonial practice written specifically for this collection Each of the essays extends the terrain

of the discussion of what constitutes anti colonialism Among the many discursive highlights is the interrogation of the politics of embodied knowing the theoretical distinctions and connections between anti colonial thought and post colonial theory and the identification of the particular lessons of anti colonial theory for critical educational practice Essays explore such key issues as the challenge of articulating anti colonial thought as an epistemology of the colonized anchored in the indigenous sense of collective and common colonial consciousness the conceptualization of power configurations embedded in ideas cultures and histories of marginalized communities the understanding of indigeneity as pedagogical practice and the pursuit of agency resistance and subjective politics through anti colonial learning *The Politics of Alterity* Sarah

Mazouz,2022-11-08 Is France afraid of her others By looking back at the discourses and practices that have been formed over the last fifteen years Sarah Mazouz addresses French politics of alterity Drawing on an ethnographic survey conducted in both public administrations in charge of combating racial discrimination and in naturalisation offices in a large city in the Paris region she shows how immigration nation and racialisation are articulated in the social space Through the analysis of these two public offices Mazouz questions the processes of inclusion and exclusion within the national group itself and between the national and the foreigner In so doing she seeks to grasp the paradoxical relationship between the French Republic and her others and the plural logics producing national order *Insider Research on Migration and Mobility* Lejla Voloder,Liudmila Kirpitchenko,2016-05-23 With an increasing proportion of migration and mobility field studies being conducted by migrants and members of ethnic minorities in home contexts the implications of insider research are increasingly subject critical scrutiny Researchers who may share migration experiences or cultural ethnic linguistic or religious identities with their participants are exploring the means ethics and politics of mobilizing insider capital for the purpose of gaining access to and representing research participants Bringing together the latest international scholarship in the sociology and anthropology of migration this volume explores the complexities joys and frustrations of conducting insider research The book offers analyses of key methodological ethical and epistemological challenges faced by migration researchers as they question the ways in which they come to identify with their research topic or their participants Addressing questions of identity and categorization ethics and methodology epistemology and situated knowledge *Insider Research on Migration and Mobility* will appeal to scholars across the social sciences with interests in migration mobilities diaspora studies and ethnic and racial identities as well as those interested in qualitative research design and analysis

Geographies of Privilege France Winddance Twine,Bradley Gardener,2013-02-11 How are social inequalities experienced reproduced and challenged in local global and transnational spaces What role does the control of space play in distribution of crucial resources and forms of capital housing education pleasure leisure social relationships The case studies in *Geographies of Privilege* demonstrate how power operates and is activated within local national and global networks Twine and Gardener have put together a collection that analyzes how the centrality of spaces domestic institutional leisure

educational are central to the production maintenance and transformation of inequalities The collected readings show how power in the form of economic social symbolic and cultural capital is employed and experienced The volume s contributors take the reader to diverse sites including brothels blues clubs dance clubs elite schools detention centers advocacy organizations and public sidewalks in Canada Italy Spain United Arab Emirates Mozambique South Africa and the United States Geographies of Privilege is the perfect teaching tool for courses on social problems race class and gender in Geography Sociology and Anthropology

The Economies of Queer Inclusion S.M. Rodriguez,2018-12-11 The Anti Homosexuality dubbed Kill the Gays Bill of 2009 propelled Uganda to the forefront of global media In its initial manifestation the Bill threatened to penalize aggravated homosexuality with the death penalty The media attention earned by the proposed legislation opened avenues for transnational cooperation and communication between US based Human and LGBTI Rights organizations and kuchu or LGBTI Ugandans The Economies of Queer Inclusion focuses on this transnational relationship and the complications that arise when international currency and professionalization transform grassroots organizing This book excavates how transnational advocacy which aims to empower LGBTI rights activism actually restructures and in some cases limits local movements With interview and ethnographic data with activists in Kampala Uganda and New York City the research highlights how the introduction of international attention and funding causes organizations to restructure their movement goals and strategies in order to best attract desired partners The funder funded relationship causes both local discord and transnational divestment from alternative forms of organizing The research presents a compelling counter narrative that exposes that the development of this economy did not occur because of the Anti Homosexuality but rather inspired the legislation and then peaked in the five years following As an engaged ethnographic look into a social justice movement the text explores organizational structures and activist strategies in order to critique and strengthen future mobilization Accordingly the text applies various sociological and critical race theories to provide an incisive and in depth exploration of a powerful political moment

The Structure of Schooling Richard Arum,Irene R. Beattie,Karly Ford,2014-11-13 The Structure of Schooling Readings in the Sociology of Education by Richard Arum Irene Beattie and Karly Ford exposes students to examples of sociological research on schools with a focus on the school as community Now in its Third Edition this engaging reader has broadened its scope even more presenting additional readings in particular related to the sociology of higher education The book draws from classic and contemporary scholarship to examine current issues and diverse theoretical approaches to studying the effects of schooling on individuals and society In addition to covering traditional areas such as stratification and racial inequality the book also veers off the beaten path including readings on such contemporary topics as bullying school shootings school choice and teen social media use

Whitewashing the South Kristen M. Lavelle,2014-10-23 Whitewashing the South is a powerful exploration of how ordinary white southerners recall living through extraordinary racial times the Jim Crow era civil rights movement and the post civil rights era

highlighting tensions between memory and reality Author Kristen Lavelle draws on interviews with the oldest living generation of white southerners to uncover uncomfortable memories of our racial past The vivid interview excerpts show how these lifelong southerners reflect on race in the segregated South the civil rights era and more recent decades The book illustrates a number of complexities how these white southerners both acknowledged and downplayed Jim Crow racial oppression how they both appreciated desegregation and criticized the civil rights movement and how they both favorably assessed racial progress while resenting reminders of its unflattering past Chapters take readers on a real world look inside The Help and an exploration of the way the Greensboro sit ins and school desegregation have been remembered and forgotten Digging into difficult memories and emotions Whitewashing the South challenges our understandings of the realities of racial inequality

Situational Analysis Adele E. Clarke, Carrie Friese, Rachel S. Whiteness Interrupted Marcus Bell, 2021-06-28 In Whiteness Interrupted Marcus Bell presents a revealing portrait of white teachers in majority black schools in which he examines the limitations of understandings of how white racial identity is formed Through in depth interviews with dozens of white teachers from a racially segregated urban school district in Upstate New York Bell outlines how whiteness is constructed based on localized interactions and takes a different form in predominantly black spaces He finds that in response to racial stress in a difficult teaching environment white teachers conceptualized whiteness as a stigmatized category predicated on white victimization When discussing race outside majority black spaces Bell s subjects characterized American society as postracial in which race seldom affects outcomes Conversely in discussing their experiences within predominantly black spaces they rejected the idea of white privilege often angrily and instead focused on what they saw as the racial privilege of blackness Throughout Bell underscores the significance of white victimization narratives in black spaces and their repercussions as the United States becomes a majority minority society

Making Routes Gerda Heck, Eda Sevinin, Elena Habersky, Carlos Sandoval-García, 2024-04-09 A rich interdisciplinary study of the diversity and dynamics of the migrations of displaced peoples across the Global South By the end of 2022 the number of forcibly displaced people worldwide had reached a record high of 100 million the highest figure since the Second World War The Russian invasion of Ukraine and the Taliban political takeover in Afghanistan exacerbated an already protracted global refugee situation but climate related events also played a part in forcing millions of people to leave their homes in search of more habitable living areas Making Routes Mobility and

Whiteness and Racialized Ethnic Groups in the United States Sherrow O. Pinder, 2012-01-01 Whiteness and Racialized Ethnic Groups in the United States in order to account for the never ending discrimination toward racialized ethnic groups including First Nations blacks Chinese and Mexicans revisits the history of whiteness in the United States It shows the difference between remembering a history of human indignities and recreating one that composes its own textual memory More specifically it reformulates how the historically reliant positionality of whiteness as a part of the everyday practice and discourse of white supremacy would later become institutionalized Even though whiteness studies with the intention of exposing white privilege has entered the realm of academic research and is moving toward antiracist forms of whiteness or at least toward antiracist approaches for a different form of whiteness it is not equipped to relinquish the privilege that comes with normalized whiteness Hence in order to construct a post white identity whiteness would have to be denormalized and freed of it of its presumptive hegemony

Education as Freedom Noel S. Anderson, Haroon Kharem, 2009-01-16 Before the founding of the United States enslaved Africans advocated literacy as a method of emancipation During the Reconstruction period after the Civil War blacks were at the forefront of the debates on the establishment of public schools in the South In fact a wealth of ideas about the role of education in American freedom and progress emerged from African American civic political and religious communities and was informed by the complexity of the Black experience in America Education as Freedom African American Educational Thought and Activism is a groundbreaking edited text that documents and reexamines African

American empirical methodological and theoretical contributions to knowledge making teaching and learning and American education from the nineteenth through the twenty first century the most dynamic period of African American educational thought and activism African American thought and activism regarding education burgeoned from traditional academic disciplines such as philosophy and art mathematics and the natural sciences and history and psychology from the Black church as well as from grassroot political social cultural and educational activism with the desire to assess the stake of African Americans in modernity

Breaching the Colonial Contract Arlo Kempf, 2009-05-30 Almost a decade in Empire remains the 21st Century's dominant mode of cultural production and North America remains at the apex of the colonial imperative The contributors to this volume argue that far from being a post colonial world the struggle for independence of polity and culture is still alive and relevant The book brings together relevant examples of anti colonial discourse and struggle from across the US and Canada providing unique perspectives on resistance activism scholarship and pedagogy Anti colonialism is an evolving framework to which this book hopes to make a unique contribution with the range depth and analytical approach of the chapters it contains The emphasis on anti colonial resistance here is significant as it consistently reveals the personal commitment required for the undoing of domination as well as the ways in which people can collectively pursue radical politics in their aim of bringing about social justice The book examines a multitude of actions which could be termed anti colonial from student walkouts along the US Mexico border to interrogations of the relationship between indigenous and anti racist struggles in North America to analyses of the implications of anti colonialism for community unionism as well as disability rights struggles Chapters also look at the movement for Africentric schools in Toronto provide an annotated and comparative look at the myriad struggles for and by the Fourth World and Fourth World nations and analyze the creation of an anti colonial classroom in a Montreal university They also explore the colonial underpinnings of multicultural education in the US With contributions from leading thinkers such as Henry Giroux Ward Churchill and Peter McLaren as well as fresh perspectives from junior academics this book provides a diverse and varied survey of anti colonialism in the US and Canada It will be a thought provoking read for those working in a wide variety of disciplines from Sociology to Politics In daring and incisive ways Arlo Kempf's collection further positions anti colonialism as the necessary educational project for the colonizer and colonized within us all it reflectively re sets the radical education agenda with telling historical and current instances that are used by the book's authors to move constructively forward in critical ways

[Invisible Asians](#) Kim Park Nelson, 2016-03-18 The first Korean adoptees were powerful symbols of American superiority in the Cold War as Korean adoption continued adoptees visibility as Asians faded as they became a geopolitical success story all American children in loving white families In *Invisible Asians* Kim Park Nelson analyzes the processes by which Korean American adoptees have been rendered racially invisible and how that invisibility facilitates their treatment as exceptional subjects within the context of American race relations and in government policies

Invisible Asians draws on the life stories of more than sixty adult Korean adoptees in three locations Minnesota home to the largest concentration of Korean adoptees in the United States the Pacific Northwest where many of the first Korean adoptees were raised and Seoul home to hundreds of adult adoptees who have returned to South Korea to live and work Their experiences underpin a critical examination of research and policy making about transnational adoption from the 1950s to the present day Park Nelson connects the invisibility of Korean adoptees to the ambiguous racial positioning of Asian Americans in American culture and explores the implications of invisibility for Korean adoptees as they navigate race culture and nationality Raised in white families they are ideal racial subjects in support of the trope of colorblindness as a cure for racism in America and continue to enjoy the most privileged legal status in terms of immigration and naturalization of any immigrant group built on regulations created specifically to facilitate the transfer of foreign children to American families Invisible Asians offers an engaging account that makes an important contribution to our understanding of race in America and illuminates issues of power and identity in a globalized world *Playing Out of Bounds* Yuka Nakamura, 2019-08-22

Playing Out of Bounds investigates the North American Chinese Invitational Volleyball Tournament NACIVT an annual event that began in the 1930s in the streets of Manhattan and now attracts 1200 competitors from the U S and Canada Its two key features are the 9 man game where there are nine instead of the usual six volleyball players on the court and the fact that player eligibility is limited to 100% Chinese and Asian players as defined in the tournament rules These rules that limit competitors to specific ethno racial groups is justified by the discrimination that Chinese people faced when they were denied access to physical activity spaces and instead played in the alleyways and streets of Chinatowns Drawing on interviews participant observation and analysis of websites and tournament documents *Playing Out of Bounds* explores how participants understand and negotiate their sense of belonging within this community of volleyball players and how membership within and the boundaries of this community are continually being re defined This identity community building occurs within a context of anti Asian racism growing numbers of mixed race players and fluidity of what it means to be Canadian American Chinese and Asian **Feminism and Antiracism** France Winddance Twine, Kathleen M.
