Arun Kundnani, 2023-06-13 This scintillating intellectual and political history provides a new understanding of racism and a better way to fight it Liberals have been arguing for nearly a century that racism is fundamentally an individual problem of extremist beliefs Responding to Nazism thinkers like gay rights pioneer Magnus Hirschfeld and anthropologist Ruth Benedict called for teaching people especially poor people to be less prejudiced Here lies the origin of today's liberal antiracism from diversity training to Hollywood activism Meanwhile a more radical antiracism flowered in the Third World Anticolonial revolutionaries traced racism to the broad economic and political structures of modernity Thinkers like C L R James Claudia Jones and Frantz Fanon showed how racism was connected to colonialism and capitalism a perspective adopted even by Martin Luther King Today liberal antiracism has proven powerless against structural oppression As Arun Kundnani demonstrates white liberals can heroically confront their own whiteness all they want yet these structures remain This deeply researched and swift moving narrative history tells the story of the two antiracisms and their fates As neoliberalism reordered the world in the last decades of the twentieth century the case became clear fighting racism means striking at its capitalist roots **Antiracism** Alex Zamalin, 2019-03-19 An introduction

to antiracism a powerful tradition crucial for energizing American democracy On August 12 2017 in Charlottesville Virginia a rally of white nationalists and white supremacists culminated in the death of a woman murdered in the street Those events made clear that racism is alive and well in the United States of America However they also brought into sharp relief another American tradition antiracism While racists marched and chanted in the streets they were met and matched by even larger numbers of protesters calling for racism's end Racism is America's original and most enduring sin with well known historic and contemporary markers slavery lynching Jim Crow redlining mass incarceration police brutality But racism has always been challenged by an opposing political theory and practice Alex Zamalin's *Antiracism* tells the story of that opposition The most theoretically generative and politically valuable source of antiracist thought has been the black American intellectual tradition While other forms of racial oppression for example anti-Semitism Islamophobia and anti-Latino racism have been and continue to be present in American life antiblack racism has always been the primary focus of American antiracist movements From antislavery abolition to the antilynching movement black socialism to feminism the long Civil Rights movement to the contemporary Movement for Black Lives *Antiracism* examines the way the black antiracist tradition has thought about domination exclusion and power as well as freedom equality justice struggle and political hope in dark times *Antiracism* is an accessible introduction to the political theory of black American antiracism through a study of the major figures texts and political movements across US history Zamalin argues that antiracism is a powerful tradition that is crucial for energizing American democracy

Discourses of Antiracism in France Catherine Lloyd, 2018-10-26 First published in 1998 this book is an examination of antiracist discourses and practices in France It sets out to trace the development of post war French antiracism through the life of antiracist organizations setting this within a broader historical political and social context It breaks new ground in that it analyses antiracism as a body of ideas in its own right rather than as a mirror image of racism The author uses previously unpublished archival material from French organizations combined with observations from current events She argues that antiracist discourses and practices are structured around four main themes discrimination representation solidarity and hegemony While perceptions of discrimination have evolved into complex understandings of social exclusion the representational functions of antiracist groups were challenged by immigrant workers movements themselves Solidarity remained central to antiracist practices in different political contexts Underpinning these features lies a hegemonic social project through which antiracists have sought to promote a common sense through political and educational campaigns The author concludes that French antiracism although constantly changing and refocusing is now a pluralist transversal hegemonic movement and an important component of civil society

Against Racism Monica Moreno Figueroa, Peter Wade, 2022-03-22 Powerful narratives often describe Latin American nations as fundamentally mestizo These narratives have hampered the acknowledgment of racism in the region but recent multiculturalist reforms have increased recognition of Black and Indigenous identities and cultures Multiculturalism may focus on identity and visibility and address more casual and social forms of racism but can also distract attention from structural racism and racialized inequality and constrain larger antiracist initiatives Additionally multiple understandings of how racism and antiracism fit into projects of social transformation make racism a complex and multifaceted issue The essays in *Against Racism* examine actors in Brazil Colombia Ecuador and Mexico that move beyond recognition politics to address structural inequalities and material conflicts and build common ground with other marginalized groups The organizations in this study advocate an approach to deep social structural transformation that is inclusive fosters alliances and is inspired by a radical imagination
