Race, Money, and the American Welfare State Michael E. Brown, 2018-10-18 The American welfare state is often blamed for exacerbating social problems confronting African Americans while failing to improve their economic lot Michael K Brown contends that our welfare system has in fact denied them the social provision it gives white citizens while stigmatizing them as recipients of government benefits for low income citizens In his provocative history of America's safety net from its origins in the New Deal through much of its dismantling in the 1990s Brown explains how the forces of fiscal conservatism and racism combined to shape a welfare state in which blacks are disproportionately excluded from mainstream programs Brown describes how business and middle class opposition to taxes and spending limited the scope of the Social Security Act and work relief programs of the 1930s and the Great Society in the 1960s These decisions produced a welfare state that relies heavily on privately provided health and pension programs and cash benefits for the poor In a society characterized by pervasive racial discrimination this outcome Michael Brown makes clear has led to a racially stratified welfare system by denying African Americans work whites limited their access to private benefits as well as to social security and other forms of social insurance making welfare their main occupation In his conclusion Brown addresses the implications of his argument for both conservative and liberal critiques of the Great Society and for policies designed to remedy inner city poverty

Impacts of Racism on White Americans Raymond G. Hunt, Benjamin Bowser, 1996-03-26 What motivates white racism What effects does racism have on white Americans The Second Edition of this provocative book reveals that racism remains a pervasive force in American society and that its effects on whites are still misunderstood Combining the contributions of sociologists historians and economists this new edition contains updated chapters which take account of the developments in American society over the past 15 years The editors expand on the recommendations they presented in the First Edition demonstrating clearly the progress made and more significantly what remains to be achieved

The Political Roots of

Racial Tracking in American Criminal Justice Nina M. Moore, 2015-01-26 The race problem in the American criminal justice system persists because we enable it The tendency of liberals to point a finger at law enforcement racial conservatives the War on Drugs is misguided Black as well as white voters Democrat as much as Republican lawmakers President Obama as much as Reagan both Congress and the Supreme Court alike all are implicated We all are The Man Whether the problem is defined in terms of blacks overrepresentation in prisons or in terms of the disproportional use of deadly police force against blacks not enough of us demand that something be done The Political Roots of Racial Tracking in American Criminal Justice is the story of how the race problem in criminal justice is continually enabled in the national crime policy process and why

Race in France Herrick Chapman, Laura Levine Frader, 2004 Scholars across disciplines on both sides of the Atlantic have recently begun to open up as never before the scholarly study of race and racism in France These original essays bring together in one volume new work in history sociology anthropology political science and legal studies Each of the eleven articles presents fresh research on the tension between a republican tradition in France that has long denied the legitimacy of acknowledging racial difference and a lived reality in which racial prejudice shaped popular views about foreigners Jews immigrants and colonial people Several authors also examine efforts to combat racism since the 1970s *Race and the Making of American Liberalism* Carol A. Horton, 2005-09-08 *Race and the Making of American Liberalism* traces the roots of the contemporary crisis of progressive liberalism deep into the nation's racial past Horton argues that the contemporary conservative claim that the American liberal tradition has been rooted in a color blind conception of individual rights is inaccurate and misleading In contrast American liberalism has alternatively served both to support and oppose racial hierarchy as well as socioeconomic inequality more broadly Racial politics in the United States have repeatedly made it exceedingly difficult to establish powerful constituencies that understand socioeconomic equity as vital to American democracy and aspire to limit gross disparities of wealth power and status Revitalizing such equalitarian conceptions of American liberalism Horton suggests will require developing new forms of racial and class identity that support rather than sabotage this fundamental political commitment

Human Rights and Charity Law Kerry O'Halloran, 2016-03-10 The 60 or so nations that subscribe to the common law tradition had for centuries broadly accepted the same legal definitions of what constitutes a charity In recent years however a number of countries have embarked on charity law reform processes designed to strengthen the regulatory framework and to review and encode common law concepts A primary driver of reform was the need to modernise national charity law and ensure human rights compatibility In light of these reforms this book takes stock of how charity law is adapting to face the challenges presented by human rights The book identifies the key areas where human rights and charity law intersect and examines the importance of those areas the principles involved and their political significance It offers a comparative analysis of selected common law countries including England Wales Ireland US Canada Australia and New Zealand assessing the extent of national human rights and charity compatibility Kerry O'Halloran

also goes on to consider tensions arising from the intersection of human rights and charity law including the significance of cultural values and heritage the importance of proportionality and striking a balance between public and private interests in current society
