Beyond Ideology Ninian Smart, 1981 **Religious Transformation in Western Society (Routledge Revivals)** Harvie Ferguson, 2010-12 Originally published in 1992 this remarkable book challenges many of the assumptions governing the Sociology of Religion and the Sociology of Culture by arguing that Western religion is neither science nor morality it is the promise of happiness Learned and incisive it will be essential reading for students of religion culture and anyone interested in the character of Modernity

Religious Foundations of Western Civilization Jacob Neusner, 2006 Religious Foundations of Western Civilization **Church and State in Western Society** Edward J. Eberle, 2016-05-23 The role of religion as a contentious and motivating force in society

is examined here through the lens of the church state dynamic in countries with three very different approaches to this crucial relationship Focusing on the United Kingdom where there is official recognition of one religion by the state the United States where law imposes a separatism between religion and the state and Germany where there is cooperation between the church and state this book compares these three models It describes the components of each model illustrates their operation and uses case law to examine what each model might learn from the other Controversial and timely issues such as the refusal of medical treatment on religious grounds the wearing of Islamic headscarves and ritual animal slaughter are discussed with new insight providing a comprehensive review of varied approaches to law government and religious freedom

Changes in Religious and Spiritual Practices in Western Society Dr. Anthony B. Atwam (PhD), 2025-01-22 Adopting an interdisciplinary approach between the sociology of religion and practical theology this book examines the dynamic changes in religious and spiritual practices in the West from the 1960s From this examination the book demonstrates that westerners are becoming spiritually hungry and there is also a general thirst for righteousness When people demand faithfulness and loyalty in marriages relationships and at the workplace that is a thirst for righteousness Furthermore these changes are also leading to a paradigm shift in the West in religion and spirituality contexts we are moving from the Christian Age to a new era which some scholars claim to be the New Age In politics there is a potential shift in world dominance from the West to the East however there is some notable resistance from some quarters in America but Europe including Britain theologically seems to be following and championing events leading to its own demise In the context of world missions the centre of world Christianity is shifting from the West to the global south Africa in particular There is also a potential societal apocalypse despite our scientific endeavours and finally cosmologically the coming of God's kingdom is imminent The context in which these changes are occurring is the West Therefore this book is a great resource for policy makers students tutors Pastors the Church and people in Western nations The West is a mission field therefore this book is also a great resource for students institutions tutors missionaries and people in the global south Thus the discussion in the book contributes to our understanding of what is going on globally in the twenty first century Read this book to find out how these dynamic events affect you your family and society

differentials in fertility had not been very conspicuous Lorimer 1959 142 Handbooks and articles on population mainly of a statistical demographic nature took up the question of falling birth rates and its causes The bases for these studies were the routinely collected population statistics that made it possible to observe fertility trends for administrative regions By identifying administrative regions that differed in the timing and extent of the fertility decline researchers hoped to find explanations for the fertility transition Municipal statistical offices in larger cities such as Berlin Vienna Budapest and Amsterdam were able to obtain more diversified data than were generally collected by national agencies and offered social scientists the opportunity to carry out more intensive investigations of differential fertility that is of variations in fertility of socially defined subpopulations or categories defined by occupation or rural urban residence Somewhat later the national statistical agencies started to collect and publish comparable data at the national level University of Chicago Readings in Western Civilization, Volume 7 John W.
