Theology and Religious Studies in Higher Education Darlene L. Bird, Simon G. Smith, 2009-03-22 A collection of essays by
 some of today's leading academics on the sometimes contentious relationship between religious studies and theology The
Learned Practice of Religion in the Modern University Donald Wiebe, 2019-11-14 In these essays Donald Wiebe unveils a
 significant problem in the academic study of religion in colleges and universities in North America and Europe that studies
 almost always exhibit a religious bias To explore this issue Wiebe looks at the religious and moral agendas behind the study
 of religion showing that the boundaries between the objective study of religion and religious education as a tool for bettering
 society have become blurred As a result he argues religious studies departments have fostered an environment where
 religion has become a learned or scholarly practice rather than the object of academic scrutiny This book provides a critical
 history of the failure of 20th and 21st century scholars to follow through on the 19th century ideal of an objective scientific
 study of religious thought and behaviour Although emancipated from direct ecclesiastical control and to some extent from
 sectarian theologizing Wiebe argues that research and scholarship in the academic department of religious studies has failed
 to break free from religious constraints He shows that an objective scientific study of religious thought and practice is not
 only possible but the only appropriate approach to the study of religious phenomena *Theology in the Public Square* Gavin

D'Costa,2013-04-10 This imaginative study rethinks the nature of theology and its role in universities The author sketches out a fascinating project using examples from US and UK institutions whereby theology becomes a transformative force within universities Imagines what a Christian university in which all disciplines have been theologized would look like Feeds into discussions about the religious identity of denominationally linked colleges and universities Forms part of a wider attempt to imagine a vital public role for theology that enables it to serve both the Church and the wider community **Religious Studies**

Jacob Neusner,2004-10-18 This book is about social change as it is even now being revealed in the creation of a new field of learning in an unprecedented setting and for an as yet unknown cultural and intellectual purpose It is about how a field of learning moves from one kind of institution to another is practiced by new people women not only men and outsiders as well as insiders and for new purposes secular not only religious and in new ways Out of these minute particulars in our imagination we may reconstruct the whole of modern history the universe out of a grain of sand Perhaps no group in the past two hundred years of revolutionary change has moved so far so fast and in so many directions as the Jews from the Introduction **Interreligious Comparisons in Religious Studies and Theology**

Perry Schmidt-Leukel,Andreas Nehring,2016-07-14 Can religions be compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of the particular often took precedence over a comparative perspective Interreligious Comparisons in Religious Studies and Theology questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt

Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced *Journal of Asian and Asian American Theology*, 2001
