Samuel Cunard The North Atlantic:

Samuel Cunard and the North Atlantic Thomas William Edgar Roche, 1971 *Samuel Cunard* John Boileau, 2006-10-16
An illustrated biography of a Canadian who sparked a world transportation revolution In North America the name Cunard is synonymous with shipping This book traces the entrepreneurial rise of Samuel Cunard who for decades ruled a shipping empire on the North Atlantic By the time Cunard died in 1865 he had witnessed the emergence of steamships developed trade links with China and helped establish the Quebec and Halifax Steam Navigation Company He was a director of the Bank of British North America and bought huge tracts of land in PEI He won the transatlantic mail service contract between Britain and North America and built several of the most luxurious steamships of the day His ships helped Britain in the Crimean War and he became Sir Samuel Cunard for his support of the war effort The Cunard line which he founded was long a major force in the development of international travel This book combines the Cunard story with 150 colour and black and white visuals covering Cunard s life and the subsequent history of his company A fascinating and readable account of the brilliance and determination of one man who played an innovative role in world transportation history **Cunard and the North Atlantic 1840-1973** Francis E. Hyde, 1975-06-18 *Titanic* John Lang, 2023-06-14 By far the most thorough and well written investigative book on RMS Titanic s short life and tragic sinking that this reviewer has read fascinating Choice Reviews The sinking of the Titanic on her maiden voyage in April 1912 was one of the defining moments of the twentieth century Books and films about the disaster that befell the iconic liner are commonplace and it seems almost inconceivable that anything fresh can emerge But there is one angle that has not been covered and *Titanic* examines the events of April 1912 from that completely new perspective John Lang brings the standards of a twenty first century accident investigation to bear on the events of April 1912 using his expertise and his investigator s instinct to determine exactly what happened a century ago and what important lessons still need to be learned A fascinating account this book looks at the facts from a new perspective and uncovers some unexpected findings A worthwhile read Royal Naval Sailing Association Provides genuine insight into what almost certainly happened before during and after the ice sliced through the five compartments on the liner s starboard bow Viewpoint Lang with his experience of marine accident investigation has found an angle in examining events of April 1912 from the perspective of an MAIB officer His analysis is supported by detailed background material enabling the reader to understand the events of the collision and sinking more fully as he brings the standards of a 21st century investigation to bear on the events in determining exactly what happened and why Flash *Great Britain and Her World, 1750-1914* William Otto Henderson, 1975 *Ships for All Nations* Ian Johnston, 2015-10-30 A worthy tribute to the John Brown company and to British shipbuilding a joy to enthusiasts of the great ships of the past Australian Naval Institute The Clydebank shipyard built some of the most famous vessels in maritime history great transatlantic liners like Lusitania Queen Mary and QE2 and iconic warships like the battlecruiser Hood and Britain s last battleship HMS Vanguard Starting life as J G

Thomson in 1847 the business acquired its more famous persona when taken over in 1899 by the Sheffield based steelmaker John Brown Co which enhanced the yard s existing reputation for turning out first class products both naval and mercantile This book charts the fortunes of the company in terms of its business development its management and personnel as well as the great variety of ships it built during the century and a quarter of its existence It also tells a wider story of the rise to world domination of the British shipbuilding industry and its eventual decline and collapse in the post war decades as reflected in the experience of John Brown Written by an acknowledged authority on Clydeside shipbuilding the book was originally published in a limited edition in 2000 but this reprint is entirely new and revised although it retains all the original photographs from the yard s own unrivaled collection Essential to anyone s maritime collection Sea Breezes The profusely illustrated beautifully produced and very detailed story of John Brown Company Army Rumour Service **The Way of the Ship** Alex Roland,W. Jeffrey Bolster,Alexander Keyssar,2008 The Way of the Ship offers a global perspective and considers both oceanic shipping and domestics shipping along America s coasts and inland waterways with explanations of the forces that influenced the way of the ship The result is an eye opening authoritative look at American maritime history and the ways it helped shape the nation s history BOOK JACKET *Captain of the Carpathia* Eric L. Clements,2016-02-11 Responding to Titanic s distress calls in the early hours of 15 April 1912 Captain Arthur Rostron raced the Cunard liner Carpathia to the scene of the sinking rescued the seven hundred survivors of the world s most famous shipwreck and then carried them to safety at New York After twenty five years at sea the competence and compassion Rostron displayed during the rescue made him a hero on two continents and presaged his subsequent achievements During the First World War he participated in the invasion of Gallipoli and commanded Cunard s Mauretania as a hospital ship in the Mediterranean and a troop transport in the Atlantic As her longest serving master he commanded that legendary vessel in transatlantic passenger service through most of the 1920s Rostron retired in 1931 as the most esteemed master mariner of his era celebrated for the Titanic rescue decorated for his war service and knighted for his contributions to British seafaring This account uses newspaper reports company records government documents contemporary publications and memoirs to recount Rostron s seafaring life from his first voyage as an apprentice rounding Cape Horn in sail to his retirement forty four years later as commodore of the Cunard Line Set within the context of his times and featuring particulars of the ships in which he served and commanded this is the first comprehensive biography of Arthur Rostron before during and after his year as captain of the Carpathia Steam Titans William M. Fowler,2017-08-08 Winner of the Brewington Book Prize for Maritime History The story of the epic contest between shipping magnates Samuel Cunard and Edward Collins for mid 19th century control of the Atlantic Between 1815 and the American Civil War the greatest invention of the Industrial Revolution delivered a sea change in oceanic transportation Steam travel transformed the Atlantic into a pulsating highway dominated by ports in Liverpool and New York as steamships ferried people supplies money and information with astounding speed and regularity American raw materials

flowed eastward while goods capital people and technology crossed westward The Anglo American partnership fueled development worldwide it also gave rise to a particularly intense competition Steam Titans tells the story of a transatlantic fight to wrest control of the globe s most lucrative trade route Two men Samuel Cunard and Edward Knight Collins and two nations wielded the tools of technology finance and politics to compete for control of a commercial lifeline that spanned the North Atlantic The world watched carefully to see which would win Each competitor sent to sea the fastest biggest and most elegant ships in the world hoping to earn the distinction of being known as the only way to cross Historian William M Fowler brings to life the spectacle of this generation long struggle for supremacy during which New York rose to take her place among the greatest ports and cities of the world and recounts the tale of a competition that was the opening act in the drama of economic globalization still unfolding today

Atlantic Kingdom John A. Butler, 2002-10 Atlantic Kingdom pays tribute to the Americans who challenged Cunard the shipping company that held a monopoly on North Atlantic trade routes in the nineteenth century In an era when civilisation first grappled with large scale technology and creative industries promised a new standard of living competition for control over maritime trade was fierce Cornelius Vanderbilt and P T Barnum were among those who battled like mythical gods for control of their domains These titans of the Atlantic left behind them a wreckage of human lives lost ships and squandered fortunes in their failed bids for supremacy of the seas This book is a clear succinct lively and sure handed evocation of American maritime enterprise at its zenith
