Beyond Catastrophe Mark W. Clark, 2006-01-01 *Beyond Catastrophe* examines the post World War II leadership efforts of four major German intellectuals Karl Jaspers Thomas Mann Friedrich Meinecke and Bertolt Brecht Clark focuses on the symbolic practical and theoretical contributions of these men to post war cultural reconstruction and pays special attention to their key works of the period *The German Catastrophe Doctor Faustus The Question of German Guilt and Turandot* in which they addressed the key issues of the period including responsibility and guilt for the National Socialist regime German distinctiveness the possibility of a renewed humanism and the relationship of intellectuals to the broader society Addressing an important lacuna in twentieth century intellectual history *Beyond Catastrophe* will appeal to scholars of history and German studies

Modes of Faith Theodore Ziolkowski, 2008-11-15 In the decades surrounding World War I religious belief receded in the face of radical new ideas such as Marxism modern science Nietzschean philosophy and critical theology *Modes of Faith* addresses both this decline of religious belief and the new modes of secular faith that took religion's place in the minds of many writers and poets Theodore Ziolkowski here examines the motives for this embrace of the secular locating new modes of faith in art escapist travel socialism politicized myth and utopian visions James Joyce he reveals turned to art as an escape while Hermann Hesse made a pilgrimage to India in search of enlightenment Other writers such as Roger Martin du Gard and Thomas Mann sought temporary solace in communism or myth And H. G. Wells Ziolkowski argues took refuge in utopian dreams projected in another dimension altogether Rooted in innovative and careful comparative reading of the work of writers from France England Germany Italy and Russia *Modes of Faith* is a critical masterpiece by a distinguished literary scholar that offers an abundance of insight to anyone interested in the human compulsion to believe in forces that transcend the individual

The Differentiation of Modernism Larson Powell, 2013 *The Differentiation of Modernism* analyzes the phenomenon of intermediality in German radio plays film music and electronic music of the late modernist period 1945-1980 After 1945 the purist medium specificity of high modernism increasingly yielded to the mixed forms of intermediality Theodor Adorno dubbed this development a *Verfransung* or fraying of boundaries between the arts *The Differentiation of Modernism* analyzes this phenomenon in German electronic media arts of the late modernist period 1945-80 in radio plays film music and electronic music The first part of the book begins with a chapter on Adorno's theory of radio as an instrument of democratization going on to analyze the relationship of the Hörspiel or radio play to electronic music In the second part on film music a chapter on Adorno and Eisler's *Composing for the Film* sets the parameters for chapters on the film *Das Mädchen Rosemarie* 1957 and on the music films of Jean Marie Straub and Danièle Huillet The third part examines the music of Karlheinz Stockhausen and its relationship to radio abstract painting recording technology and theatrical happenings The book's central notion of the differentiation of culture suggests that late modernism unlike high modernism accepted the contingency of modern mass media driven society and sought to find new forms for it Larson Powell

 Ulrich Karl Preuss Freie Universität Berlin Politik, Wirtschaft und Gesellschaft in der DDR Günter Erbe, 2013-03-08 Dieser Band versteht sich als einführender Studententext in das Herrschafts- und Gesellschaftssystem der DDR Gedacht ist er als Material für die politische Bildungsarbeit Im Mittelpunkt der Darstellung steht daher das politische System daneben werden das Rechts-, Wirtschafts- und Bildungssystem behandelt Ein Überblick über die Bevölkerung und Sozialstruktur beschließt die Abhandlung Unter bewußter Vermeidung umfassender wissenschaftlich-theoretischer Deutungen der bisherigen Entwicklung und der weiteren Perspektiven der DDR werden für die einzelnen Bereiche Grundinformationen geboten Tabellen und Schaubilder dienen nicht nur der Illustration und der besseren Verständlichkeit Sie bieten vielmehr auch zusätzliche Informationen und laden insoweit zu eigener weiterführender Interpretation durch den Leser ein Jeder Abschnitt ist aus sich selbst verständlich allerdings hoffen wir daß von einem Interessenschwerpunkt ausgehend auch die angrenzenden Politikfelder beachtet werden Die behandelten Themenbereiche sind eine Auswahl die nicht das gesamte facettenreiche System der DDR zum Gegenstand hat Mit Recht kann darauf hingewiesen werden daß wichtige Bereiche fehlen z.B. Geschichte der SBZ/DDR und der deutschen Spaltung Ideologie Kulturpolitik Sozialpolitik Außenbeziehungen Wir meinen jedoch uns beschränken zu müssen um unserem Vorhaben gerecht zu werden einführende Grundinformationen zur innenpolitischen Situation der DDR zu geben Der Versuch Vollständigkeit anzustreben hätte zu einer nicht vertretbaren Ausw. unzulässig zu vereinfachen *Schriften zur Gesellschaftsphilosophie...* Franz von Baader, 1925 **Searching for a Leftist Constitutionalism** Ronald Car, 2024-07-12 Is there a viable leftist constitutionalism that we can juxtapose with liberal constitutionalism or is there really no alternative If the left is considered an a priori enemy of the principle of the rule of law the equal chance condition proves illusory Accordingly those asking for changes to social institutions will deem constitutionalism undemocratic Hence in our times of silent deconstitutionalization at the global level and rising populism and democratic backsliding at the national level this book offers a valuable opportunity to reconsider one of the founding principles of liberal constitutionalism the Rechtsstaat It re-examines the controversies that accompanied the affirmation of the concept in a long term perspective from 1848 to the post World War II constitutional debates Since 1848 the German left has challenged the dominant liberal view of legitimacy mainly by adopting Marx's critique of the ideology of law and the state Thus the left has had to challenge not only the established order but also the mainstream political and legal culture generated by the liberal discourse on rights In search of constitutional viability the left has oscillated between two tendencies On the one hand it has denounced the discourse on rights as an ideological smokescreen used by the ruling class to keep us from paying more attention to the actual level of democracy within the parties the governmental bodies and in everyday social relations On the other hand the left has attempted to adjust its platform to the mainstream idea of constitutional legitimacy by devising its own sozialer Rechtsstaat However the break even point has proven hard to find If the acceptance of

liberal principles was seen as less than wholehearted leftist constitutional proposals aroused suspicions of a coverup for an unconstitutional rule Unrechtsstaat On the other hand when the left has accepted liberal constitutional principles in full its potential to challenge the social status quo has ultimately proven to be disappointing The controversy culminated in a desperate and largely unknown attempt to devise a constitutional compromise between Liberalism and Socialism in East Berlin in the wake of the Cold War Although doomed to fail and devoid of democratic credibility the debates of the East German constitutional commission in 1948 offer important insights into a century of experiences trials and errors in constitution making seen from the leftist perspective Schriften der Internationalen Vereinigung für Gesetzlichen Arbeiterschutz

International Association for Labor Legislation,1909 *Franz von Baaders Schriften zur gesellschaftsphilosophie* Franz von Baader,Joseph von Baader,Joseph Ritter von Baader,1925 **On National Socialism** Talcott Parsons,2017-09-29 During the years between the publication of the first of his two major works The Structure of Social Action 1937 and the writing of his second The Social System 1951 Talcott Parsons was primarily engaged in political activity through the Office of Strategic Services in its efforts to bring about the defeat of the Third Reich and to set the stage for a democratic reconstruction of postwar Germany Beyond Parsons analytic skills the essays reveal a dedicated liberal scholar far removed from the stereotypes with which he came to be pilloried by later critics The essays in this collection are the by products of that special period of intense commitment They reflect a single dominant theme National Socialist Germany is seen as a tragically flawed social system but one requiring the same rigorous analysis Parsons brought to more normal and normative systems Since virulent authoritarianism and even more virulent anti Semitism were the dominant traits of that system as he saw it Parsons dedicated many pages to each aspect While he did not know the full horror of the Nazi war against the Jews he was able to develop a theoretical framework that continues to be a foundation stone for the analysis of national socialism Gerhardt s editorial labors in the Parsons archive at Harvard have yielded nothing less than a new book by the foremost American sociological theorist of his time This collection of both published and unpublished writings conveys Parsons cohesive intent To these otherwise fugitive and neglected essays Gerhardt contributes an introductory essay of her own in part biography in part intellectual and social history She discovered Parsons work on National Socialism while studying his sociology of the professions and his use of medical practice to demonstrate how social science could become an antidote for fascism and authoritarianism Uta Gerhardt is director of the Medical Sociology Unit at Justu *The Making of the German Post-War Economy* Christian L. Glossner,2010-02-28 The years following the end of World War II in Germany were a significant period of change and upheaval This book on the economic reconstruction of post war West Germany traces the development of economic and socio political ideas and their gradual absorption by mainstream politicians officials and the general public during the period of transition between 1945 and 1949 In the aftermath of World War II several German think tanks political parties and individuals gave impulse to and then shaped the development of a

viable socio political and economic model between the extremes of laissez faire capitalism and the collectivist planned economy In their endeavours to bring into effect their particular economic ideas often diametrically opposed to one another the parties of left and right stimulated not only academic and political debate but also public debate about the political and economic reconstruction of occupied post war Germany While all the various neo liberal approaches assigned to the people sovereign and decisive status in the institutional economic order and recognised the interdependence of politics economics and the public one particular school of economic thought outpaced the others in communicating a model of coordinated economic and social policy namely the Social Market Economy Christian Glossner here investigates whether or not it was primarily the subtlety of the political campaign for this model that led to its implementation by the then Economic Council and eventual validation by the German electorate The programmes published by the principal academic and political groups of the time and the practical day to day decisions of the first parliament in post war Germany are analysed with reference to popular preferences By examining both the formative involvement of German parties in post war reconstruction and the role of the public during the process of economic liberalisation this book provides explanations for why the Social Market Economy prevailed as the socio political and economic model for the Federal Republic of Germany It will be of interest to scholars of German economic and twentieth century history
