Secular City Secularization And Urbanization In Theological Perspective:

The Secular City Harvey Cox, 2013-09-08 Since its initial publication in 1965 *The Secular City* has been hailed as a classic for its nuanced exploration of the relationships among the rise of urban civilization the decline of hierarchical institutional religion and the place of the secular within society Now half a century later this international best seller remains as relevant as when it first appeared The book's arguments that secularity has a positive effect on institutions that the city can be a space where people of all faiths fulfill their potential and that God is present in both the secular and formal religious realms still resonate with readers of all backgrounds For this brand new edition Harvey Cox provides a substantial and updated introduction He reflects on the book's initial stunning success in an age of political and religious upheaval and makes the case for its enduring relevance at a time when the debates that *The Secular City* helped ignite have caught fire once again

Secularization, Desecularization, and Toleration Vyacheslav Karpov, Manfred Svensson, 2020-10-22

This book challenges the modern myth that tolerance grows as societies become less religious The myth inseparably links the progress of toleration to the secularization of modern society This volume scrutinizes this grand narrative theoretically and empirically and proposes alternative accounts of the varied relationships between diverse interpretations of religion and secularity and multiple secularizations desecularizations and forms of toleration The authors show how both secular and religious orthodoxies inform toleration and persecution and how secularizations and desecularizations engender repressive or pluralistic regimes Ultimately the book offers an agency focused perspective which links the variation in toleration and persecution to the actors of secularization and desecularization and their cultural programs *Kierkegaard's Influence on*

Theology: Anglophone and Scandinavian Protestant theology Jon Bartley Stewart, Tome II is dedicated to tracing Kierkegaard's influence in Anglophone and Scandinavian Protestant religious thought In Britain before World War I the few literati who were familiar with his work tended to assimilate Kierkegaard to the heroic individualism of Ibsen and Nietzsche In the United States knowledge of Kierkegaard was introduced by Scandinavian immigrants who brought with them a picture of the Dane as much more sympathetic to traditional Christianity The interpretation of Kierkegaard in Britain and America during the early and mid twentieth century generally reflected the sensibilities of the particular theological interpreter Anglican theologians tended to find Kierkegaard to be one sided in his critique of reason and culture while theologians hailing from the Reformed tradition often saw him as an insightful harbinger of neo orthodoxy The second part of Tome II is dedicated to the Kierkegaard reception in Scandinavian theology featuring articles on Norwegian and Swedish theologians influenced by Kierkegaard *Secularism & Secularity* Barry Alexander Kosmin, Ariela Keysar, 2007 *Bridging the Atlantic* Elisabeth

Glaser, Hermann Wellenreuther, 2002-01-24 Bridging the Atlantic discusses comparative developments in modern European and American history The case studies on British German and U S History since the eighteenth century assembled here seek to establish an integrated vision of Atlantic history The contributions by European and American historians challenge the concept of American exceptionalism and present a vivid example of the ongoing debate between American and European historians on the structure and nature of European American relations *The Charismatic City and the Public Resurgence of Religion* N. Wariboko, 2014-09-11 Two powerful and interrelated transnational cultural expressions mark our epoch Charismatic spirituality and global city This book demonstrates how these two forces can be used to inform ethical design of cities and their common social lives to best support human flourishing spirituality and social and ecological wellbeing of their residents Fundamentalism and Secularization Mourad Wahba, 2022-01-13 In Fundamentalism and Secularization Egyptian philosopher Mourad Wahba traces the historical origins of fundamentalism and secularization as ideas and practices in order to theorize their symbiotic relationship and how it is impacted by global capitalism and more recently postmodernism This gives voice to an argument from within the Islamic world that is very different to that given platform in the mainstream showing that fundamentalism does not arise normally and naturally from Islam but is a complex phenomenon linked to modernization and the development of capitalism in dependent countries that is tied to imperialism Wahba s central argument concerns the organic relationship between fundamentalism and parasitic capitalism Wahba is equally critical of religious fundamentalism and global capitalism which for him are obstructions to secularization and democracy While the three Abrahamic religions are examined when it comes to fundamentalism Wahba deconstructs Islamic fundamentalism in particular and in the process reconstructs an Islamic humanism Including a new preface by the author and translator Fundamentalism and Secularism provides invaluable insights into how Middle Eastern philosophies open up new lines of thought in thinking through contemporary crises **Exploring the Postsecular**, 2010-05-17 The re emergence of the religious in secular domains has led prominent scholars such as J rgen Habermas and Charles Taylor to speculate about a new postsecular age The alleged shift from the secular to the postsecular is most visible in the spheres of urban public space governance and civil society This volume addresses contemporary relations between religion politics and urban societies primarily from a theoretical perspective while also paying attention to empirical manifestations of the central conceptual ideas The primary focus is the relations between public religion deprivatization of religion and theorizations of modernity and modernities with the secondary and closely related focus on theorizing postsecular urbanism including the role of faith based organizations FBOs in cities Contributors include Justin Beaumont James A Beckford Luke Bretherton Paul Cloke Candice Dias Wilhelm Gr b Maaïke de Haardt Jason Hackworth Christoph Jedan Kim Knott Michiel Leezenberg Bernice Martin David Martin Gregor McLennan Arie L Molendijk Nihan zdemir S nmez Martijn Oosterbaan Andy F Sanders Anke Schuster and Hetty Zock *Is Europe Christian?* Olivier Roy, 2020-03-01 As Europe wrangles over questions of national identity nativism

and immigration Olivier Roy interrogates the place of Christianity foundation of Western identity Do secularism and Islam really pose threats to the continent s Christian values What will be the fate of Christianity in Europe Rather than repeating the familiar narrative of decline Roy challenges the significance of secularized Western nations reduction of Christianity to a purely cultural force relegated to issues such as abortion euthanasia and equal marriage He illustrates that globally quite the opposite has occurred Christianity is now universalized and detached from national identity Not only has it taken hold in the Global South generally in a more socially conservative form than in the West but it has also returned to Europe following immigration from former colonies Despite attempts within Europe to nationalize or even racialize it Christianity s future is global non European and immigrant as the continent s Churches well know This short but bracing book confirms Roy s reputation as one of the most acute observers of our times It represents a persuasive and novel vision of religion s place in national life today

Volume 10, Tome II: Kierkegaard's Influence on Theology Jon Stewart, 2016-12-05 Kierkegaard has always enjoyed a rich reception in the fields of theology and religious studies This reception might seem obvious given that he is one of the most important Christian writers of the nineteenth century but Kierkegaard was by no means a straightforward theologian in any traditional sense He had no enduring interest in some of the main fields of theology such as church history or biblical studies and he was strikingly silent on many key Christian dogmas Moreover he harbored a degree of animosity towards the university theologians and churchmen of his own day Despite this he has been a source of inspiration for numerous religious writers from different denominations and traditions Tome II is dedicated to tracing Kierkegaard s influence in Anglophone and Scandinavian Protestant religious thought Kierkegaard has been a provocative force in the English speaking world since the early twentieth century inspiring almost contradictory receptions In Britain before World War I the few literati who were familiar with his work tended to assimilate Kierkegaard to the heroic individualism of Ibsen and Nietzsche In the United States knowledge of Kierkegaard was introduced by Scandinavian immigrants who brought with them a picture of the Dane as much more sympathetic to traditional Christianity The interpretation of Kierkegaard in Britain and America during the early and mid twentieth century generally reflected the sensibilities of the particular theological interpreter Anglican theologians generally found Kierkegaard to be too one sided in his critique of reason and culture while theologians hailing from the Reformed tradition often saw him as an insightful harbinger of neo orthodoxy The second part of Tome II is dedicated to the Kierkegaard reception in Scandinavian theology featuring articles on Norwegian and Swedish theologians influenced by Kierkegaard

Spiritualizing the City Victoria Hegner, Peter Jan Margry, 2016-11-25 Urban spaces have always functioned as cradles and laboratories for religious movements and spiritualities The urban forms a central and nourishing agent for the creation of new religious expressions and continually negotiates new ways of being spiritual and establishing spiritual ideas and practices This book explores the intense and complex interplay between the post modern city and new religious and spiritual movement bringing the city and its annexes into the foreground of current research into religion It develops a new ethnography based analysis of the ways in which the pluralist experience of the urban inscribes itself into various religious practices and vice versa how do religiosity and spirituality appropriate and transform meanings of the urban It focuses on new religious expressions cosmologies and ways of life that go beyond established belief systems and religious understandings and explores new conceptions of the word urban in a world of increasingly extended urban environments The book examines how cities are both considered as sites and sources of spirituality where the globalization of religions takes place as well as the fact that globalization is linked closely to the process of localization The socio cultural and political uniqueness of the specific urban context are analyzed to present an innovative perspective on how the interplay between the urban spiritual and religious should be understood This book brings a timely new perspective and will be of interest to academics and students in geography sociology urban studies cultural studies and anthropology as well as for urban planners and policy makers
