Secular Relevance Of The Church:

The Secular Relevance of the Church Gayraud S Wilmore, 2012-05-01 [Secular Relevance of the Church](#) Gayraud S. Wilmore, 1962-01-01 **Secular and Sacred?** Rosemarie van den Breemer, Jose Casanova, Trygve Wyller, 2013-12-11 Shaped by five hundred years of Lutheran impact and with a strong influence of big majority churches Scandinavian secularity is a very interesting and fruitful material for the historical and contemporary theoretical debate on the secular It can be discussed for example whether the strong position of Human Rights and of the Scandinavian welfare state might be interpreted in continuity with the historical influence of Protestant traditions Is there something like a hidden sacrality implicit in the Scandinavian secular [Postsecular Catholicism](#) Michele Dillon, 2018 Postsecular Catholicism examines how secular realities and doctrinal ideas intersect in the lives of American Catholics in the Pope Francis era and in the Church's articulation of its teachings on sexual and family morality gender and economic and social inclusion **Sacred and Secular Tensions in Higher Education** Michael D. Waggoner, 2011-03 Sacred and secular worldviews have long held a place in U S higher education although non religious perspectives have usually been privileged in the modern era This book illustrates the importance of cultivating multiple worldviews **Religion and Secular Modernity in Russian Christianity, Judaism, and Atheism** Ana Siljak, 2024-11-15 Religion and Secular Modernity in Russian Christianity Judaism and Atheism is a multifaceted account of the engagement between religion and the secular in Russia's Christian Jewish and atheist traditions Ana Siljak brings together an interdisciplinary group of leading scholars to present unique perspectives on the secularization dynamic in Russia and the Soviet Union telling stories about theologians sects churches poets and artists From the Jewish Christian priest Alexander Men to the cross dressing poet Zinaida Gippius to the Soviet promoter of Yiddish theater Solomon Mikhoels Religion and Secular Modernity in Russian Christianity Judaism and Atheism gives a voice to a variety of actors who have grappled with the possibilities of faith and unbelief in an industrialized modern and seemingly secular world Now more than ever as one narrative of Russia's religious history dominates official Russian accounts alternative perspectives of the relationship between Russian religion and secularism should be highlighted and emphasized [Critical Essays on Edward Schillebeeckx's Theology](#) Corneliu C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world In Schillebeeckx's thoroughly

historical and truly immanent theology God is man's terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today's people understand their existence in a new relevant and meaningful way

The Divided Mind of the Black Church Raphael G Warnock, 2013-12-06 An altar call to action from the U S senator and senior pastor at Atlanta's Ebenezer Baptist Church Publishers Weekly What is the true nature and mission of the church Is its proper Christian purpose to save souls or to transform the social order This question is especially fraught when the church is one built by an enslaved people and formed from its beginning at the center of an oppressed community's fight for personhood and freedom Such is the central tension in the identity and mission of the Black church in the United States For decades the Black church and Black theology have held each other at arm's length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the Black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of white evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more pronounced This book traces the historical significance of the rise and development of Black theology as an important conversation partner for the Black church Calling for honest dialogue between Black and womanist theologians and Black pastors this fresh theological treatment demands a new look at the church's essential mission An informative work for historians theologians and humanities scholars interested in debating what the Black Church needs to be doing in the 21st century Journal of African American History As a person who is not Black reading this book provided a learning experience for me I could also see this book serving as a way to spark discussion involving all ethnic groups as to how we can all as fellow Christians blend the goals of saving lost people and moving the culture toward equality for everyone Ministry Well written and meticulously researched The Christian Century

Cinema, Black Suffering, and Theodicy Shayne Lee, 2022-01-26 This book explicates how many films intersect black suffering and God talk in ways that instantiate secular limitations to divine efficacy The book's concept of a modern God introduces a new method of analysis that reimagines theodical discourses as mechanisms of modern identities and filmmakers as skillful exegetes who recalibrate divine attributes to the sensemaking cadences of their contemporaries Shayne Lee demonstrates how cinematic theodicy navigates a happy medium between affirming divine benevolence and sidelining supernatural activity and that filmic characters like their real world counterparts are quite clever at triangulating rationality faith and tragedy In addition to positing synergistic links between theodicy and secularity Lee offers critical insights into cinema's relevance to the sociology of evil by specifying how films code and narrate malevolent actions and outcomes demarcate clear lines of distinction between victims and perpetrators clarify societal dynamics driving inequality and oppression and transform individual episodes of suffering into collective and memorialized identities of trauma This book

illuminates how filmic treatments of theodicy construct evil and suffering in calculated ways that connect specific acts effects and institutions to greater structures of meaning *Secularizing the Sacred* John E. Webster, Ronald S. Laura, 2016-04-26

This book explores one of the great paradoxes of our era Western culture has almost imperceptibly come to secularize the sacred while at the same time sacralizing the secular The authors endeavor to show the debilitating effects that this paradox has had on the foundations of Christian worship with special reference to the history of worship and in particular the Presbyterian Church in Australia The authors show how the theological predilection for minimization has become inextricably woven into the fabric of what we call the theory of transformative subjugation which drives the rationale for religious secularization The book argues that it is necessary to consider a serious reconstruction of theological education in which its framework is located in a specific Christian theory of knowledge which engenders the Lordship of Christ and encourages a spirit of transformative love and connectedness It is only in this context that the theology of worship and the beauty and usefulness of liturgical forms can be appreciated **Renewal** Mark Wild, 2019-03-21

In the decades following World War II a movement of clergy and laity sought to restore liberal Protestantism to the center of American urban life Chastened by their failure to avert war and the Holocaust and troubled by missionaries complicity with colonial regimes they redirected their energies back home *Renewal* explores the rise and fall of this movement which began as an effort to restore the church's standing but wound up as nothing less than an openhearted crusade to remake our nation's cities These campaigns reached beyond church walls to build or lend a hand to scores of organizations fighting for welfare social justice and community empowerment among the increasingly nonwhite urban working class Church leaders extended their efforts far beyond traditional evangelicalism often dovetailing with many of the contemporaneous social currents coursing through the nation including black freedom movements and the War on Poverty *Renewal* illuminates the overlooked story of how religious institutions both shaped and were shaped by postwar urban America *The Secular Northwest* Tina Block, 2016-07-22

The image of a rough frontier where working men were tempted away from church on Sundays by more profane concerns was perpetuated by postwar church leaders who decried the decline of religious involvement In this pioneering book Tina Block debunks the myth of a godless frontier revealing a Pacific Northwest that consciously rejected the trappings of organized religion but not necessarily spirituality and not necessarily God Secularism was not only the domain of the working man women families and middle class communities all helped to shape the region's secular identity But rejection of religion led to family gender and class tensions Drawing on oral histories census data newspapers and archival sources Block explores the dynamics of Northwest secularity grounded in the cultural permeability of the Canada United States border the independent spirit of those who called the region home and their openness to secular ways of experiencing the world *The Oxford Handbook of Secularism* Phil Zuckerman, John R. Shook, 2017

The *Oxford Handbook of Secularism* offers a wide ranging examination of secularism on a global scale bringing together an international collection of views from prominent experts in

a variety of fields This volume reflects the impressive level of academic attention now given to secularism across the humanities social sciences law and public policy and international relations Long reigning theories about the pace of secularization and ideal church state relations are here scrutinized by a new generation of scholars studying secularism with new questions better data and fresh perspectives

A History of the English Church: Hunt, W. The English church from its foundation to the Norman conquest (597-1066) William Richard Wood Stephens, William Hunt, 1901 *The Black Church Studies Reader* Alton B. Pollard, Carol B. Duncan, 2016-04-29 The Black Church Studies Reader addresses the depth and breadth of Black theological studies from Biblical studies and ethics to homiletics and pastoral care The book examines salient themes of social and religious significance such as gender sexuality race social class health care and public policy While the volume centers around African American experiences and studies it also attends to broader African continental and Diasporan religious contexts The contributors reflect an interdisciplinary blend of Black Church Studies scholars and practitioners from across the country The text seeks to address the following fundamental questions What constitutes Black Church Studies as a discipline or field of study What is the significance of Black Church Studies for theological education What is the relationship between Black Church Studies and the broader academic study of Black religions What is the relationship between Black Church Studies and local congregations as well as other faith based entities The book s search for the answers to these questions is compelling and illuminating

Religion and Political Theory Jonathan Seglow, Andrew Shorten, 2019-10-21 Religion and religious diversity now occupy a central place in several prominent debates in contemporary political theory such as those concerning the meaning s and relevance of secularism the place of religious reasons in political deliberation and whether religious beliefs and practices deserve special treatment by laws and public institutions That religion has once again become a divisive topic amongst political theorists is perhaps surprising given the widespread consensus about such staples of liberal political morality as the separation of church and state and the principle of religious freedom Featuring the work of both established and up and coming scholars this collection will take stock of the recent turn towards religion in political theory identify some of the major unresolved challenges and issues and suggest new avenues for theoretical inquiry Taken as a whole the collection showcases some cutting edge work by leading scholars of religion and political theory and demonstrates the vitality of religion and political theory as a research agenda

English Ministry Crisis in Chinese Canadian Churches Matthew Richard Sheldon Todd, 2015-03-26 In this book Dr Matthew Todd looks into the anecdotal reporting of high numbers of Canadian born Chinese leaving Western Canadian Chinese churches what is termed the silent exodus Some of the fastest growing Canadian churches are Chinese yet reportedly the highest dropout rates are among Chinese and Asian church adult ministries This book recommends solutions towards the retention of Canadian born Chinese adults in Chinese bicultural churches through empowerment To address retention the key factors that contribute to a silent exodus are established through qualitative

research with participants of diverse church affiliations Todd examines various models and proposed solutions the Chinese church has used to retain its English speaking congregants and gives attention to a theological basis for being inclusive in mission initiatives and for empowerment through passing the leadership baton Todd makes some recommendations on the new wave of an emerging congregational model that requires negotiation with Chinese church leadership to give power away to English ministry leaders and congregations He anticipates that this will permit transformational leadership practices that contribute to shalom community transformation and lasting congregations Encyclopedia of African American Religions Larry G. Murphy,J. Gordon Melton,Gary L. Ward,2013-11-20 Preceded by three introductory essays and a chronology of major events in black religious history from 1618 to 1991 this A Z encyclopedia includes three types of entries Biographical sketches of 773 African American religious leaders 341 entries on African American denominations and religious organizations including white churches with significant black memberships and educational institutions Topical articles on important aspects of African American religious life e g African American Christians during the Colonial Era Music in the African American Church **Black Churches and Local Politics** R Drew Smith,Fredrick C. Harris,2005-06-22 This book on black churches and urban politics uses case studies from various cities to examine the strategies and tactics of activist clergy and congregations These case studies illustrate how black activist clergy and congregations negotiate the political terrains of their respective cities The cases show that the political culture of a city whether that culture is shaped by machine politics a legacy of political protest racial and ethnic factionalism or a city whose power resides in the mayor s office rather than the city council chamber can influence the tactics of activist clergy and congregations These cases also show how strategies and tactics vary across congregations as well as within and across cities Not only do activist churches emphasize political empowerment or economic development their tactics to pursue their goals may take different forms They can form coalitions with other churches and or political organizations lobby public officials use personal appeals to persuade politicians or mobilize voters for candidates who support the congregation s agenda By taking stock of the strategies that activist black clergy and congregations adopt and the tactics they use to research their goals the cases in this book highlight nuances in black clergy and church activism that are captured beyond a single case or a focus on national politics The three sections of Black Churches and Local Politics examine the many ways that black activist clergy and congregations voice their concerns in urban politics The tactics explored are the use of personal influence by activist ministers the formation of coalitions with churches and community organizations and pressure groups that lobby government institutions and leaders on behalf of minority communities *Between Concept and Identity* Esteban Fernández-Cobián,2014-10-02 The identity of places of worship is one of the most difficult problems faced by religious architecture at the start of this new millennium Contemporary globalising experiences demand peremptorily a reflection both conceptual and situational on the origin of objects people and institutions Nevertheless the chance of these migration flows annihilating already existing religious

identities is perceived as a problem This problem is directly linked to the survival of architecture as a system carrying a material representation of the divine and constituting a self reference system for the community of believers Therefore it is important to define the extent to which the new religious architecture has given room to an abstract type of formal experimentation which is disconnected from social reality Does this architecture maintain its bridging sacramental value or on the contrary has it given way to the conceptualist trends still alive in the artistic world Is metaphor a valid concept for the Christian religion Is there an essential aspect linking this architecture to the centuries old tradition of the Catholic Church Different architectural pedagogical exhibition and formal initiatives have arisen in recent years and it is necessary to get to know them with the purpose of understanding where contemporary religious architecture is heading in its eternal search for a permanent identity
