Morgan, 1989 This two volume comprehensive guide is organized around the assumption that national and international security and arms control studies are interdisciplinary in nature Volume 2 clarifies and defines selected current issues and problems from an international perspective The chapters look at the scope of the emerging field of security and arms control studies as a serious field of systematic inquiry they serve as a critical review and evaluation of the most important literature within each sub field The chapters identify major problems key concepts methods disciplinary approaches intellectual styles and data sources Security and Arms Control Volume 2 is organized by sub field First contending contemporary perspectives on the international system itself as the source of conflict and war are presented The various facets of nuclear deterrence including implications for the possible use of nuclear weapons follow The focus then shifts to conventional military power in the system including arms transfers The incidence of subconventional or low intensity conflicts including the practice of and possible responses to terrorism is analyzed The book concludes with strategic arms control nuclear proliferation and the study of crisis decision making Security and Arms Control Volume 2 can be used as a text as well as serving as a valuable guide to the study of international and national security and arms control Interested students and policy makers will find valuable material for their studies and research

Security and Arms Control: A guide to national policymaking Edward A. Kolodziej, Patrick M. Morgan, 1989 This book the first in a two volume set is organized around the idea that national and international security and arms control studies are interdisciplinary fields of study Together the volumes give form and substance to these emerging fields This first volume is concerned with broad analytical perspectives that are relevant to the security and arms control considerations of any national government subfield to assist more in depth analysis by researchers and Volume 1 is divided into four parts The first identifies those characteristics of the international system that condition the use of or the threat to use force It also explores those aspects of the system that prompt the need for ways to control violence and to discipline it to the national purpose Twelve functions of national strategic policy are covered in parts two and three A final section reviews ways that might be used to go beyond violence or threats in coping with human conflict Through the topics selected for inclusion the guide attempts to define the scope of security and arms control studies as a serious field of systematic inquiry It identifies major problems key concepts methods disciplinary approaches intellectual styles and data sources associated with the principal subfields of the discipline It critically reviews and evaluates the most important literature associated with each subfield to assist more in depth analysis by researchers and policymakers

Parameters, 1989

Mutual Perceptions Of Long-range Goals Klaus Gottstein, 2019-03-04 This book investigates perceptions including strategic normative and imagined perceptions of long range political goals both in the East and in the West discussing the arguments which are used to support each of these perceptions
