Thomas, Gareth Curless, 2023 Beginning with Britain's 1948 declaration of a Malayan Emergency and ending with the 1973 withdrawal of US ground troops from Vietnam this Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires     **Creating Postwar Canada** Magda Fahrni, Robert Rutherford, 2008-07-01 Creating Postwar Canada showcases new research on this complex period exploring postwar Canada's diverse symbols and battlegrounds Contributors to the first half of the collection consider evolving definitions of the nation examining the ways in which Canada was reimagined to include both the Canadian North and landscapes structured by trade and commerce The essays in the latter half analyze debates on shopping hours professional striptease the provider role of fathers interracial adoption sexuality on campus and illegal drug use issues that shaped how the country defined itself in sociocultural and political terms This collection contributes to the historiography of nationalism gender and the family consumer cultures and countercultures

**Enemies Within** Scott Radnitz, 2022 The invocation of fifth columns in the political arena whether contrived or based on real fears has recurred periodically throughout history and is experiencing an upsurge in our era of democratic erosion and geopolitical uncertainty Fifth columns accusations can have baleful effects on governance and trust as they call into question the loyalty and belonging of the targeted populations They can cause human rights abuses political repression and even ethnic cleansing Enemies Within is the first book to systematically investigate the roots and implications of the politics of fifth columns In this volume a multidisciplinary group of leading scholars address several related questions When are actors likely to employ fifth column claims and against whom What accounts for changes in fifth column framing over time How do the claims and rhetoric of governments differ from those of societal groups How do accusations against ethnically or ideologically defined groups differ Finally how do actors labeled as fifth columns respond To answer these questions the contributors apply a common theoretical framework and work within the tradition of qualitative social science to analyze cases from three continents oftentimes challenging conventional wisdom Enemies Within offers a unique perspective to better understand contemporary challenges including the rise of populism and authoritarianism the return of chauvinistic nationalism the weakening of democratic norms and the persecution of ethnic or religious minorities and political dissidents

**Iron and Blood** Peter H. Wilson, 2023-02-14 From the author of the acclaimed The Thirty Years War and Heart of Europe a masterful landmark reappraisal of German military history and of the preconceptions about German militarism since before the rise of Prussia and the world wars German military history is typically viewed as an inexorable march to the rise of Prussia and the two world wars the road paved by militarism and the result a specifically German way of war Peter Wilson challenges this narrative Looking beyond Prussia to German speaking Europe across the last five centuries Wilson finds little

unique or preordained in German militarism or warfighting Iron and Blood takes as its starting point the consolidation of the Holy Roman Empire which created new mechanisms for raising troops but also for resolving disputes diplomatically Both the empire and the Swiss Confederation were largely defensive in orientation while German participation in foreign wars was most often in partnership with allies The primary aggressor in Central Europe was not Prussia but the Austrian Habsburg monarchy yet Austria's strength owed much to its ability to secure allies Prussia meanwhile invested in militarization but maintained a part time army well into the nineteenth century Alongside Switzerland which relied on traditional militia both states exemplify the longstanding civilian element within German military power Only after Prussia's unexpected victory over France in 1871 did Germans and outsiders come to believe in a German gift for warfare a special capacity for high speed high intensity combat that could overcome numerical disadvantage It took two world wars to expose the fallacy of German military genius Yet even today Wilson argues Germany's strategic position is misunderstood The country now seen as a bastion of peace spends heavily on defense in comparison to its peers and is deeply invested in less kinetic contemporary forms of coercive power
