Seeds From A Silent Tree:

Seeds from a Silent Tree Tonya Bishoff, Jo Rankin, 1997 *The American Child* Caroline Field Levander, Carol J. Singley, 2003 From the time that the infant colonies broke away from the parent country to the present day narratives of U S national identity are persistently configured in the language of childhood and family In *The American Child* A Cultural Studies Reader contributors address matters of race gender and family to chart the ways that representations of the child typify historical periods and conflicting ideas They build on the recent critical renaissance in childhood studies by bringing to their essays a wide range of critical practices and methodologies Although the volume is grounded heavily in the literary it draws on other disciplines revealing that representations of children and childhood are not isolated artifacts but cultural productions that in turn affect the social climates around them Essayists look at games pets adolescent sexuality death family relations and key texts such as *The Adventures of Huckleberry Finn* and the movie *Pocahontas* they reveal the ways in which the figure of the child operates as a rich vehicle for writers to consider evolving ideas of nation and the diverse role of citizens within it Claiming Others Mark C. Jerng, 2010 **Global Families** Catherine Ceniza Choy, 2013-10-11 In the last fifty years transnational adoption specifically the adoption of Asian children has exploded in popularity as an alternative path to family making Despite the cultural acceptance of this practice surprisingly little attention has been paid to the factors that allowed Asian international adoption to flourish In *Global Families* Catherine Ceniza Choy unearths the little known historical origins of Asian international adoption in the United States Beginning with the post World War II presence of the U S military in Asia she reveals how mixed race children born of Japanese Korean and Vietnamese women and U S servicemen comprised one of the earliest groups of adoptive children Based on extensive archival research *Global Families* moves beyond one dimensional portrayals of Asian international adoption as either a progressive form of U S multiculturalism or as an exploitative form of cultural and economic imperialism Rather Choy acknowledges the complexity of the phenomenon illuminating both its radical possibilities of a world united across national cultural and racial divides through family formation and its strong potential for reinforcing the very racial and cultural hierarchies it sought to challenge The Routledge Companion to Asian American and Pacific Islander Literature Rachel Lee, 2014-06-05 *The Routledge Companion to Asian American and Pacific Islander Literature* offers a general introduction as well as a range of critical approaches to this important and expanding field Divided into three sections the volume Introduces keywords connecting the theories themes and methodologies distinctive to Asian American Literature Addresses historical periods geographies and literary identities Looks at different genre form and interdisciplinarity With 41 essays from scholars in the field this collection is a comprehensive guide to a significant area of literary study for students and teachers of Ethnic American Asian diasporic and Pacific Islander Literature Contributors Christine Bacarez Balance Victor Bascara Leslie Bow Joshua Takano Chambers Letson Tina Chen Anne Anlin Cheng Mark Chiang Patricia P Chu Robert Diaz Pin chia Feng Tara Fickle Donald Goellnicht

McKee, 2019-03-02 Since the Korean War began Western families have adopted more than 200 000 Korean children Two thirds of these adoptees found homes in the United States The majority joined white families and in the

process forged a new kind of transnational and transracial kinship Kimberly D McKee examines the growth of the neocolonial multi million dollar global industry that shaped these families a system she identifies as the transnational adoption industrial complex As she shows an alliance of the South Korean welfare state orphanages adoption agencies and American immigration laws powered transnational adoption between the two countries Adoption became a tool to supplement an inadequate social safety net for South Korea s unwed mothers and low income families At the same time it commodified children building a market that allowed Americans to create families at the expense of loving biological ties between Koreans McKee also looks at how Christian Americanism South Korean welfare policy and other facets of adoption interact with and disrupt American perceptions of nation citizenship belonging family and ethnic identity

From Orphan to Adoptee SooJin Pate,2014-03-01 Since the 1950s more than 100 000 Korean children have been adopted by predominantly white Americans they were orphans of the Korean War or so the story went But begin the story earlier as SooJin Pate does and what has long been viewed as humanitarian rescue reveals itself as an exercise in expanding American empire during the Cold War Transnational adoption was virtually nonexistent in Korea until U S military intervention in the 1940s Currently it generates 35 million in revenue an economic miracle for South Korea and a social and political boon for the United States Rather than focusing on the families made whole by these adoptions this book identifies U S militarism as the condition by which displaced babies became orphans some of whom were groomed into desirable adoptees normalized for American audiences and detached from their past and culture Using archival research film and literary materials including the cultural work of adoptees Pate explores the various ways in which Korean children were employed by the U S nation state to promote the myth of American exceptionalism to expand U S empire during the burgeoning Cold War and to solidify notions of the American family In *From Orphan to Adoptee* we finally see how Korean adoption became the crucible in which technologies of the U S empire were invented and honed

Transnational Adoption Sara K. Dorow,2006-04-01 Each year thousands of Chinese children primarily abandoned infant girls are adopted by Americans Yet we know very little about the local and transnational processes that characterize this new migration *Transnational Adoption* is a unique ethnographic study of China U S adoption the largest contemporary intercountry adoption program Sara K Dorow begins by situating the popularity of the China U S adoption process within a broader history of immigration and adoption She then follows the path of the adoption process the institutions and bureaucracies in both China and the United States that prepare children and parents for each other the stories and practices that legitimate them coming together as transnational families the strains placed upon our common notions of what motherhood means and ways in which parents then construct the cultural and racial identities of adopted children Based on rich ethnographic evidence including interviews with and observation of people on both sides of the Pacific from orphanages government officials and adoption agencies to advocacy groups and adoptive families themselves this is a fascinating look at the latest chapter in Chinese American migration
