Humanity has always had a thirst for knowledge a need to know why we re here and what it all means Discover the Eternal You approaches human existence from a different perspective Using both scientific and religious texts to present some often misunderstood concepts this book helps to make sense of both the physical and metaphysical aspects of our lives There are different ways to attain God consciousness Life goes beyond our five senses It is possible to experience different dimensions These are just a few of the topics addressed in this book Catering to Christians but open to anyone looking to connect to their real self Discover the Eternal You demonstrates the importance prayer meditation and silence have on the evolution of the spirit and the health of the body The author discusses the different types of energy that exist in this universe and explains how our brain waves emotions and vibrations affect our lives Go inside yourself and explore who you are on a deeper level Gain a better understanding of your place on this Earth and in this universe Explore the ways in which you can better cope with your feelings If you want to learn how to achieve a higher level of consciousness and connect to the universal
