Seeing Writing :

Writing and Seeing Rui Manuel G. de Carvalho Homem, Maria de Fátima Lambert, 2006 The essays in this volume are informed by a variety of theoretical assumptions and of critical methodologies but they all share an interest in the intersections of word and image in a variety of media This unifying rationale secures the present collection's central position in the current critical context defined as it predominantly is by ways of reading that are based on a relational nexus The intertextual the intermedial the intersemiotic are indeed foregrounded and combined in these essays conceptually as much as in the critical practices favoured by the various contributions Studies of literature in its relation to pictorial genres enjoy a relative prominence in the volume but the range of media and of approaches considered is broad enough to include photography film video television comic strips animated film public art material culture The backgrounds of contributors are likewise diverse culturally academically linguistically The volume combines contributions by prominent scholars and critics with essays by younger scholars from a variety of backgrounds The resulting plurality of perspective is indeed a source of new insights into the relations between writing and seeing and it contributes to making this collection an exciting new contribution to word and image studies

Seeing Chekhov Michael C. Finke, 2005 Chekhov's keen powers of observation have been remarked by both memoirists who knew him well and scholars who approach him only through the written record and across the distance of many decades To apprehend Chekhov means seeing how Chekhov sees and the author's remarkable vision is understood as deriving from his occupational or professional training and identity But we have failed to register let alone understand just what a central concern for Chekhov himself and how deeply problematic were precisely issues of seeing and being seen from the Introduction Michael C. Finke explodes a century of critical truisms concerning Chekhov's objective eye and what being a physician gave him as a writer in a book that foregrounds the deeply subjective and self-reflexive aspects of his fiction and drama In exploring previously unrecognized seams between the author's life and his verbal art Finke profoundly alters and deepens our understanding of Chekhov's personality and behaviors provides startling new interpretations of a broad array of Chekhov's texts and fleshes out Chekhov's simultaneous pride in his identity as a physician and devastating critique of turn of the century medical practices and ideologies Seeing Chekhov is essential reading for students of Russian literature
