**Seeing and Consciousness** Gen Doy,1995-04-06 Through its provocative examination of feminist and Marxist approaches to women's art and female representations this book challenges the widespread belief that Marxism has nothing valuable to contribute to women's studies The author argues that from the French Revolution through to the present gender and class have shaped visual imagery She shows how Marxist theory can function to question some of the premises of feminist art histories and to provide a more accurate understanding of the meanings of visual imagery Seeing and Consciousness Gen Doy,2020-08-20 Through its provocative examination of feminist and Marxist approaches to women's art and female representations this book challenges the widespread belief that Marxism has nothing valuable to contribute to women's studies The author argues that from the French Revolution through to the present gender and class have shaped visual imagery She shows how Marxist theory can function to question some of the premises of feminist art histories and to provide a more accurate understanding of the meanings of visual imagery **"Women, Femininity and Public Space in European Visual Culture, 1789-1914"** Temma Balducci,2017-07-05 Focusing on images of or produced by well to do nineteenth century European women this volume explores genteel femininity as resistant to easy codification vis is the public Attending to various iterations of the public as space sphere and discourse sixteen essays challenge the false binary construct that has held the public as the sole preserve of prosperous men By contrast the essays collected in *Women Femininity and Public Space in European Visual Culture 1789-1914* demonstrate that definitions of both femininity and the public were mutually defining and constantly shifting In examining the relationship between affluent women femininity and the public the essays gathered here consider works by an array of artists that includes canonical ones such as Mary Cassatt and Frans G r d as well as understudied women artists including Louise Abb and Broncia Koller The essays also consider works in a range of media from fashion prints and paintings to private journals and architectural designs facilitating an analysis of femininity in public across the cultural production of the period Various European centers including Madrid Florence Paris Brittany Berlin and London emerge as crucial sites of production for genteel femininity providing a long overdue rethinking of modern femininity in the public sphere Women, Femininity and Public Space in European Visual Culture, 1789-1914 Dr Temma Balducci,Asst Prof Heather Belnap Jensen,2014-11-28 Focusing on images of or produced by nineteenth century European women this volume explores genteel femininity as resistant to easy codification vis vis the public Attending to various iterations of the public as space sphere and discourse sixteen essays challenge the false binary construct that has held the public as the sole preserve of prosperous men By considering works in a range of media by an array of canonical and understudied women artists they demonstrate that definitions of both femininity and the public were mutually defining and constantly shifting *Art and the Academy in the Nineteenth Century* Rafael Cardoso Denis,Colin Trodd,2000 Throughout the nineteenth century academies functioned as the main venues for the teaching promotion and display of art Contemporary

scholars have for the most part denigrated academic art calling it formulaic unoriginal and repetitious The contributors to *Art and the Academy in the Nineteenth Century* challenge this entrenched notion and consider how academies worldwide have represented an important system of artistic preservation and transmission Their essays eschew easy binaries that have reigned in academia for more than half a century and that simply oppose the avant garde to academicism

**Gender, Space, and the Gaze in Post-Haussmann Visual Culture** Temma Balducci, 2017-03-27 Relying on a range of visual and written sources *Gender Space and the Gaze* offers fresh ways of considering how masculinity and femininity were lived in late nineteenth century Paris The book moves beyond shopworn dichotomies rooted in Baudelaire's *The Painter of Modern Life* 1863 that have shaped scholarship on this period

*The Gender of Photography* Nicole Hudgins, 2020-09-02 It would be unthinkable now to omit early female pioneers from any survey of photography's history in the Western world Yet for many years the gendered language of American British and French photographic literature made it appear that women's interactions with early photography did not count as significant contributions Using French and English photo journals cartoons art criticism novels and early career guides aimed at women this volume will show why and how early photographic clubs journals exhibitions and studios insisted on masculine values and authority and how Victorian women engaged with photography despite that dominant trend Focusing on the period before 1890 when women were yet to develop the self assurance that would lead to broader recognition of the value of their work this study probes the mechanisms by which exclusion took place and explores how women practiced photography anyway both as amateurs and professionals Challenging the marginalization of women's work in the early history of photography this is essential reading for students and scholars of photography history and gender studies

*Professional Women Painters in Nineteenth-Century Scotland* Janice Helland, 2019-06-11 This title was first published in 2000 Women in the 19th century have long been presented as the angel in the house The author re writes this history by investigating the life and working conditions of a number of middle class women who sought to establish themselves as professional artists in Scotland Contrary to the orthodox view preoccupied with oppression and difficulty the author demonstrates that women artists of the period were independent producers teachers and travellers alert to changes in taste and fashion They derived great pleasure from their work and enjoyed the benefits of women working together forming their own and joining existing professional associations The book is not biographical but elaborates on the life and working conditions of middle class artists by discussing their work in terms of economic and social history
