## **Seeing The Light The Art Of Becoming Beautiful:**

**Seeing the Light** John Pepper,1994

**Hans Urs von Balthasar and the Phenomenology of Art** Brett David

Potter,2022-09-23 The work of the influential Jesuit theologian Hans Urs von Balthasar 1905 1988 has become a common point of reference in discussing the relationship of theology and the arts However the full significance of his theological aesthetics for both the emerging field of theology and the arts as well as for interdisciplinary conversation with contemporary art and theory remains to be unfolded This book explores the ways in which Balthasar s theo aesthetics when taken together with his theological dramatics and theo logic yield a theologically informed phenomenology of the work of art with rich implications for contemporary theologies of art By investigating the nature and disclosure of beauty and being through art Balthasar s theological re reading of Heidegger his theo dramatic relation of all forms to Christ and his phenomenology of truth Balthasar s philosophical and theological insights into the nature of art are presented as a resource for a constructive theology of art which springs from the depths of his theological aesthetics

## **The Incarnational Art of Flannery**

**O'Connor** Christina Bieber Lake,2005 The Incarnational Art of Flannery O Connor argues that O Connor designed a unique aesthetic to defy the Gnostic dualisms that characterize American intellectual and spiritual life Focusing on stories with artist figures objets d art child protagonists and embodied images Lake describes how O Connor s fiction actively resisted romantic theories of the imagination and religious life by highlighting the epistemological necessity of the body Ultimately O Connor challenges the romantic and modern notion of the artist as a fire stealing Prometheus and replaces it with a notion of the artist as a locally committed craftsman Drawing upon M M Bakhtin s early essays in Art and Answerability and Toward a Philosophy of the Act Lake illustrates O Connor s conviction that art deliberately assigns the highest value of transcendental beauty to those beings least valued by the modern world and challenges us to do the same The book culminates with an original reading of Parker s Back that shows how in art as in life true knowledge comes to us through our own grotesque bodies and those of others Unafraid of the mystery of being human art can be the place where we encounter anew the world as more than what the intellect can unravel
