from the inside museum workers and their voices especially as well as power held by people and institutions and DEIA without using those individual words as chapter headings On their own or in conjunction with the chapters in the previous sections of this book these chapters serve as vignettes that can help readers to understand where how and why we need to apply critical lenses to institutions and articulate how doing so helps us to understand this historical moment and ultimately how we can realize resiliency and sustainability for museums and those who make their existence possible *Catalogue of the Public Documents of the ...
