Seeks the Truth Susan Thomas Underwood, 1999-01-01 Hindi Christian Literature in Contemporary India Rakesh Peter-Dass, 2019-09-12 This is the first academic study of Christian literature in Hindi and its role in the politics of language and religion in contemporary India In public portrayals Hindi has been the language of Hindus and Urdu the language of Muslims but Christians have been usually associated with the English of the foreign West However this book shows how Christian writers in India have adopted Hindi in order to promote a form of Christianity that can be seen as Indian and rooted in the religio linguistic world of the Hindi belt Using three case studies the book demonstrates how Hindi Christian writing strategically presents Christianity as linguistically Hindi culturally Indian and theologically informed by other faiths These works are written to sway public perceptions by promoting particular forms of citizenship in the context of fostering the use of Hindi Examining the content and context of Christian attention to Hindi it is shown to have been deployed as a political and cultural tool by Christians in India This book gives an important insight into the link between language and religion in India As such it will be of great interest to scholars of Religion in India World Christianity Religion and Politics and Interreligious Dialogue as well as Religious Studies and South Asian Studies Indian Philosophy and the Consequences of Knowledge Chakravarthi Ram-Prasad, 2016-05-23 This book presents a collection of essays setting out both the special concern of classical Indian thought and some of its potential contributions to global philosophy It presents a number of key arguments made by different schools about this special concern the way in which attainment of knowledge of reality transforms human nature in a fundamentally liberating way It also looks in detail at two areas in contemporary global philosophy the ethics of difference and the metaphysics of consciousness where this classical Indian commitment to the spiritually transformative power of knowledge can lead to critical insights even for those who do not share its presuppositions Close reading of technical Indian texts is combined with wide ranging and often comparative analysis of philosophical issues to derive original arguments from the Indian material through an analytic method that is seldom mastered by philosophers of non western traditions Contemporary Practice and Method in the Philosophy of Religion David Cheetham, Rolfe King, 2008-05-27 An important collection of essays from a range of philosophers from different backgrounds focusing on the growing importance of the philosophy of religion in providing a multi perspective approach to the subject area **Seven Systems of Indian Philosophy** Rajmani Tigunait, 1983 A comprehensive outline of the major schools of Indian philosophy providing an overview of what comprises Indian philosophy Destructive Emotions Daniel Goleman, 2008-11-19 Why do seemingly rational intelligent people commit acts of cruelty and violence What are the root causes of destructive behavior How can we control the emotions that drive these impulses Can we learn to live at peace with ourselves and others Imagine sitting with the Dalai Lama in his private meeting room with a small group of world class scientists and philosophers The talk is lively and fascinating as these leading minds grapple with age old questions of

compelling contemporary urgency Daniel Goleman the internationally bestselling author of Emotional Intelligence provides the illuminating commentary and reports on the breakthrough research this historic gathering inspired Destructive Emotions Buddhist philosophy tells us that all personal unhappiness and interpersonal conflict lie in the three poisons craving anger and delusion It also provides antidotes of astonishing psychological sophistication which are now being confirmed by modern neuroscience With new high tech devices scientists can peer inside the brain centers that calm the inner storms of rage and fear They also can demonstrate that awareness training strategies such as meditation strengthen emotional stability and greatly enhance our positive moods The distinguished panel members report these recent findings and debate an exhilarating range of other topics What role do destructive emotions play in human evolution Are they hardwired in our bodies Are they universal or does culture determine how we feel How can we nurture the compassion that is also our birthright We learn how practices that reduce negativity have also been shown to bolster the immune system Here too is an enlightened proposal for a school based program of social and emotional learning that can help our children increase self awareness manage their anger and become more empathetic Throughout these provocative ideas are brought to life by the play of personalities by the Dalai Lama s probing questions and by his surprising sense of humor Although there are no easy answers the dialogues which are part of a series sponsored by the Mind and Life Institute chart an ultimately hopeful course They are sure to spark discussion among educators religious and political leaders parents and all people who seek peace for themselves and the world The Mind and Life Institute sponsors cross cultural dialogues that bring together the Dalai Lama and other Buddhist scholars with Western scientists and philosophers Mind and Life VIII on which this book is based took place in Dharamsala India in March 2000 The Methodist Review ,1927 **Methodist Magazine and Quarterly Review** ,1927

Ram-Prasad,2000-12-18 Classical Indian schools of philosophy undertake major debates on a variety of issues with the formal aim of attaining a supreme end to existence liberation from the cycle of lives This book looks at four conceptions of liberation and the way analytic inquiry and philosophical knowledge are held to lead in its attainment The central motivation of Indian philosophy the quest for the Highest Good is recognised but also situated in the rigorous and analytic philosophical activity of these thinkers **Classical Indian Philosophy** Peter Adamson,Jonardon Ganeri,2020-03-26 Peter Adamson and Jonardon Ganeri present a lively introduction to one of the world s richest intellectual traditions the philosophy of classical India They begin with the earliest extant literature the Vedas and the explanatory works that these inspired known as Upanishads They also discuss other famous texts of classical Vedic culture especially the Mahabharata and its most notable section the Bhagavad Gita alongside the rise of Buddhism and Jainism In this opening section Adamson and Ganeri emphasize the way that philosophy was practiced as a form of life in search of liberation from suffering Next the pair move on to the explosion of philosophical speculation devoted to foundational texts called sutras discussing such traditions as the logical and epistemological Nyaya school the monism of Advaita Vedanta and

the spiritual discipline of Yoga In the final section of the book they chart further developments within Buddhism highlighting Nagarjuna's radical critique of non dependent concepts and the no self philosophy of mind found in authors like Dignaga and within Jainism focusing especially on its standpoint epistemology Unlike other introductions that cover the main schools and positions in classical Indian philosophy Adamson and Ganeri's lively guide also pays attention to philosophical themes such as non violence political authority and the status of women while considering textual traditions typically left out of overviews of Indian thought like the C rvaka school Tantra and aesthetic theory as well Adamson and Ganeri conclude by focusing on the much debated question of whether Indian philosophy may have influenced ancient Greek philosophy and from there evaluate the impact that this area of philosophy had on later Western thought

Throughout this book follows three key themes that both tie the tradition together and are the focus for most critical dialogue the idea of anatman or no self the appearance reality distinction and the moral aim or ideal Indian Buddhist philosophy is shown to be a remarkably rich tradition that deserves much wider engagement from European philosophy Carpenter shows that while we should recognise the differences and distances between Indian and European philosophy its driving questions and key conceptions we must resist the temptation to find in Indian Buddhist philosophy some Other something foreign self contained and quite detached from anything familiar Indian Buddhism is shown to be a way of looking at the world that shares many of the features of European philosophy and considers themes central to philosophy understood in the European tradition
