Segen Der Erde:

Segen Der Erde Knut Hamsun, 1918 , 1895, 德國 德國 德國 Nordische Bibliographie , 1928 **Figures of Identity** Clark S. Muenzer, 1990-10-01 The question of coherence in Goethe's novels which like Faust compelled his attention throughout his creative life has only recently occupied a few critics Professor Muenzer's study offers the most comprehensive effort of this kind by examining the problematic nature of self definition through the four novels and its emergence as a discursive process of the imagination The self of these texts Muenzer suggests evolves as a symbolic construct that records a pattern of pursuit for each of their protagonists and orients the reader toward three basic goals of human aspiration Thus Werther aspires to purposefulness as a center of teleological fulfillment while the hero of Wilhelm Meister's Apprenticeship refers to an ideological center of participation in his social desire Eduard in The Elective Affinities presumes to occupy a center of archaeological power through his typically self assertive strategies In the last of his novels Wilhelm Meister's Journeymanhood Goethe articulates the need to balance all such self involved behavior with an attitude of self denial Apparently the mind can orient itself through centers of purpose order and power but it must also recognize the illusion of their attainment Identity does not involve a substantive presence and the result of self definition for Goethe is interpretive work Each of Professor Muenzer's interpretations has been guided by this premise The interests of all of Goethe's novelistic protagonists he concludes serve as orienting postures toward goals that cannot be literally achieved Consequently symbolic resolutions are proposed These then introduce new problems as points of departure in subsequent works The hidden agenda of Goethe's work as a novelist is a self that exists as a textual problem a series of interpretive moves that endlessly defer the attainment of self presence by supplementing each other in narrative fictions **Diutiska** Gustav Solling, 1863 **Die geistliche Dichtung von Luther bis Klopstock. Ausgewählt von P. Pressel ... Herausgegeben von ... Dr. Klaiber** Paul PRESSEL, 1864 **Deutscher Soziologentag** , 1929 **Oil Empire** Alison Fleig FRANK, 2009-06-30 At the beginning of the twentieth century the Austrian Empire ranked third among the world's oil producing states surpassed only by the United States and Russia and accounted for five percent of global oil production By 1918 the Central Powers did not have enough oil to maintain a modern military How and why did the promise of oil fail Galicia the province producing the oil and the Empire In a brilliantly conceived work Alison Frank traces the interaction of technology nationalist rhetoric social tensions provincial politics and entrepreneurial vision in shaping the Galician oil industry She portrays this often overlooked oil boom's transformation of the environment and its reorientation of religious and social divisions that had defined a previously agrarian population as surprising alliances among traditional foes sprang up among workers and entrepreneurs at the workplace and in the pubs and brothels of new oil towns Frank sets this complex story in a context of international finance technological exchange and Habsburg history as a sobering counterpoint to traditional modernization narratives As the oil ran out the economy the population and the environment returned largely to their former state reminding us that there is

The Postwar Antisemite Lisa

Silverman, 2025-08-15 In his influential *Anti Semite and Jew* French philosopher Jean Paul Sartre observed If the Jew did not exist the anti Semite would invent him In doing so he articulated the figure of an Antisemite responsible for imagining the Jew in a formulation that has lasted for decades This figure became an indispensable trope in the period immediately after the war It enabled Germans and Austrians to navigate a radically changed political and cultural landscape and reestablish lives upended by war by denying complicity in perpetuating antisemitic ideology The deeply ingrained cultural practices that formed the basis for age old prejudices against Jews persisted via coded references taking new forms and providing fertile ground for explicit eruptions Decades before the Nazi persecution of the Jews would emerge as a master moral paradigm of evil in popular culture the constructed Antisemite became part of a forceful narrative structure that allowed stereotypes about Jews to persist even as explicit antisemitism became taboo Lisa Silverman examines the crucial development and implications of the figural Antisemite in a range of trials films and texts during the first years after the end of the Second World War She argues that in their economically shattered emotionally exhausted and culturally impoverished postwar world Austrians Germans and others used the Antisemite as a way to come to terms with their altered circumstances and to shape new national self understandings A readily recognizable and easily adaptable figure of evil the Antisemite loomed large as a powerful and persistent trope in a wide range of artistic and cultural narratives As a figure onto which to project or imagine as a source of the hatred of Jews the Antisemite allowed audiences to avoid facing the implications of crimes committed by the Nazis and their accomplices and to deny the endurance of widespread and often coded antisemitic prejudices In postwar Europe where everyone looked to blame others for the murder and dispossession of the Jewish population the authority to define the Antisemite as a receptacle for explicit Jew hatred became a powerful force As *The Postwar Antisemite* argues antisemitism as a hidden code gained new force packing stronger more effective punches and affording its users more power This era is critical to understanding ongoing struggles over the authority to set the parameters of antisemitism and the power and persistence of this hatred in society
