**The Federalist Papers** Alexander Hamilton, James Madison, John Jay, 2012-08-28 A selection of nineteen essential essays from The Federalist Papers in their original lengths by James Madison, Alexander Hamilton, and John Jay with notes by Richard Beeman. Penguin presents a series of six portable, accessible, and above all, essential reads from American political history, selected by leading scholars. Series editor Richard Beeman, author of *The Penguin Guide to the U.S. Constitution*, draws together the great texts of American civic life to create a timely and informative mini-library of perennially vital issues. Whether readers are encountering these classic writings for the first time or brushing up in anticipation of the 50th anniversary of the Civil Rights Act, these slim volumes will serve as a powerful and illuminating resource for scholars, students, and civic-minded citizens. Written at a time when furious arguments were raging about the best way to govern America, The Federalist Papers had the immediate practical aim of persuading New Yorkers to accept the newly drafted Constitution in 1787. In this, they were supremely successful, but their influence also transcended contemporary debate to win them a lasting place in discussions of American political theory. The Federalist Papers make a powerful case for power sharing between State and Federal authorities and have only risen in legal influence over the last two centuries. Beeman's analysis helps clarify the goals, at once separate and in concert, of Madison, Hamilton, and Jay during their writing, and his selection of some of the most important papers shows the array of issues, both philosophical and policy specific, covered by this body of work. The best commentary on the principles of government which ever was written. Thomas Jefferson

**The Rhetorical Approach in the Federalist Papers No.10, No.54, No.84 and No.85** Jelena Vukadinovic, 2009-05 Seminar paper from the year 2008 in the subject American Studies Literature grade 1 7 RWTH Aachen University course American Non Fiction language English abstract The eighty five essays today commonly referred to as The Federalist Papers were written in 1787 and 1788 in order to help in securing the ratification of the proposed United States Constitution in the State of New York Although the essays were all signed Publius they were written by three men of different background and to some extent different political ideas John Jay Alexander Hamilton and James Madison have contributed to the Papers in different quantity Due to an illness Jay has contributed only five articles Hamilton s and Madison s contributions are not always easy to separate but most scholars ascribe twenty nine articles to Madison and fifty one to Hamilton The authorship of essays 18 20 49 58 and 62 63 was the subject of heated historical controversy for more than a century and a half because both Hamilton and Madison allegedly claimed authorship of these essays The object of this paper is to analyze the rhetorical approach of Madison and Hamilton in selected papers Also an attempt will be made to determine if and to what extent their rhetorical style and political ideas are distinguishable even under the joint guise of Publius The analysis will be undertaken on the examples of four selected papers No 10 54 84 and 85 which were chosen as representatives of the respective author s style since a detailed analysis of all 85 papers would be too extensive for a term paper Contributions by John Jay are deliberately left out since they consist of only 5 papers which are arguably among the less important ones Federalist No 10 was chosen as the most famous of Madison s contributions due to its prominence within the scholarly debate and the prevailing significance of the problem discussed in the essay the dangers or factions within a republic system No 54 was chosen

succeeded in his goal to eliminate parties during his presidency he intentionally made appointments designed to lessen partisanship and took tours of the nation that brought the country together Monroe developed relationships with every major political figure of the first half century of American history spanning two different generations yet all his relationships were defined by political parties In the end Poston explains how Monroe s successes in eliminating political parties ultimately brought them back with a vengeance under Andrew Jackson s presidency thus laying the foundations of the modern two party system of the American government
