Selected Essays And Dialogues:

Selected Essays and Dialogues by Gianni Celati Patrick Barron, 2024-03-21 Selected Essays and Dialogues is a collection of translations of Italian writer and filmmaker Gianni Celati's theoretical and musing work from the late 1960s to the present. Topics range from environmental perception and archaeological conceptions of historical knowledge to street theatre writing, photography, cinema, and translation. The book provides a framework of key literary, theoretical, and artistic movements of the last 50 years as well as a guide for English language readers to place Celati's work in historical, cultural, and biographical context, serving to illuminate his books available in English, namely *Towards the River's Mouth*, *Adventures in Africa*, *Voices from the Plains*, and *Appearances*. There are various paths to take, tempting readers to wander and become lost in webs of daring thought drawn ever on by Celati's fondness for the unexpected, the ordinary, and his bonhomie with others. Indeed, a genial adventurousness can be found within all of Celati's writings collected here, driven by an affectionate and light-hearted engagement with the surrounding world. Herein is a taste of a seemingly endless series of adventures of the mind and body, always tapped into a lithe sensitivity for an encompassing collective imagination, not restricted to the so-called high arts or letters, but very much also engaged with the everyday lives, places, and tales we all constantly share. Praise for *Selected Essays and Dialogues* by Gianni Celati: Barron's volume is a very welcome addition to the field. As the first collection of Gianni Celati's essays in English translation, the book makes accessible a wide selection of his critical work to an Anglophone audience. Marina Spunta, University of Leicester.

Selected Essays and Dialogues Plutarch, Donald Russell, 1993. This new translation of Plutarch's miscellaneous works, the *Moralia*, illuminates his thinking on religious, ethical, social, and political issues. Two genres are represented: the dialogue, which Plutarch wrote in a tradition nearer to Cicero than to Plato, and the informal treatise or essay, in which his personality is most clearly displayed. His diffuse and individual style conveys a character of great charm and authority. This edition includes an introduction, notes, sources of quotations, and a glossary of proper names.

To a rational being, there can be but one rule of conduct: justice, and one mode of ascertaining that rule: the exercise of his understanding. Godwin's *Political Justice* is the founding text of philosophical anarchism. Written in the immediate aftermath of the French Revolution, it exemplifies the political optimism felt by many writers and intellectuals. Godwin drew on enlightenment ideas and his background in religious dissent for the principles of justice, utility, and the sanctity of individual judgement that drove his powerful critique of all forms of secular and religious authority. He predicts the triumph of justice and equality over injustice and of mind over matter, and the eventual vanquishing of human

frailty and mortality He also foresees the gradual elimination of practices governing property punishment law and marriage and the displacement of politics by an expanded personal morality resulting from reasoned argument and candid discussion Political Justice raises deep philosophical questions about the nature of our duty to others that remain central to modern debates on ethics and politics This edition reprints the first edition text of 1793 and examines Godwin s evolving philosophy in the context of his life and work ABOUT THE SERIES For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more The World's Best Essays Francis Henry Pritchard,1929 Islam and Global Dialogue Roger Boase,2016-05-06 At a time when the world is becoming increasingly interdependent multi cultural and multi religious the concept of religious pluralism is under assault as a result of hatred prejudice and misunderstanding from both religious exclusivists and dogmatic secularists In this important and timely book twenty internationally acclaimed scholars and leading religious thinkers respond to contemporary challenges in different ways Some discuss the idea of a dialogue of civilisations others explore the interfaith principles and ethical resources of their own spiritual traditions All of them reject the notion that any single religion can claim a monopoly of wisdom all are committed to the ideal of a just and peaceful society in which people of different religions and cultures can happily coexist More space is here given to Islam than to Judaism and Christianity because as a result of negative stereotypes it is the most misunderstood of the major world religions HRH Prince Hassan bin Talal of Jordan contributes the Foreword Christian-Muslim Dialogue in Northern Nigeria Thaddeus Byimui Umaru,2013-08-14 Religion as a powerful impulse in human existence plays a paradoxical role in society as it both contributes significantly in shaping the spiritual socio political and economic lives of millions of people and also acts as a source of conflict The sad experience of interreligious conflict in Northern Nigeria challenges the claim of Islam and Christianity to be religions of peace However understood as closely intertwined with culture and custom of a people religion can be central in the establishment of peace and conflict resolution in and between communities This text using the model of dialogue Nostra Aetate explores and presents the socio political and theological resources available in Northern Nigeria the locality for a consistent peace building process **Foucault, Christianity and Interfaith Dialogue** Henrique Pinto,2020-11-25 Foucault Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas Michel Foucault The author argues that it is the injustice done to the Other by Roman Catholic Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault s de centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than

a nihilistic position while fostering a non unitary theology of religious pluralism and an open textured process of self transformation The author s original and imaginative application and expansion of Foucault s concept of the More from The Archaeology of Knowledge 1969 makes important and original contributions to academic work on Foucault and contemporary theology

The Power of Dialogue Hans-Herbert Kögler, 1999

Exemplifying a fruitful fusion of French and German approaches to social theory The Power of Dialogue transforms Jürgen Habermas s version of critical theory into a new critical hermeneutics that builds on both Hans Georg Gadamer s philosophical hermeneutics and Michel Foucault s studies of power and discourse At the book s core is the question of how social power shapes and influences meaning and how the process of interpretation while implicated in social forms of power can nevertheless achieve reflective distance and a critique of power It offers an original perspective on such issues as the impact of prejudice and cultural background on scientific interpretation the need to understand others without assimilating their otherness and the truth of interpretation

Dialogue and the New

Cosmopolitanism Fred Dallmayr, 2022-11-28 Dialogue and the New Cosmopolitanism Conversations with Edward

Demenchonok stands in opposition to the doctrine that might makes right and that the purpose of politics is to establish domination over others rather than justice and the good life for all. In the pursuit of the latter goal, the book stresses the importance of dialogue with participants who take seriously the views and interests of others and who seek to reach a fair solution. In this sense, the book supports the idea of cosmopolitanism, which, by contrast to empire, involves multi-lateral cooperation and thus the quest for a just cosmopolis. The international contributors to this volume, with their varied perspectives, are all committed to this same quest. Edited by Fred Dallmayr, the chapters take the form of conversations with Edward Demenchonok, a well-known practitioner of international and cross-cultural philosophy. The conversations are structured in parts that stress the philosophical, anthropological, cultural, and ethical dimensions of global dialogue. In our conflicted world, it is inspiring to find so many authors from different places agreeing on a shared vision.
