Britain's Naval and Political Reaction to the Illegal Immigration of Jews to Palestine, 1945-1949 Freddy Liebreich, 2004-10-07 This book provides an important shift in the analysis of Britain's policy towards the illegal postwar Jewish immigration into Palestine It charts the development of Britain's response to Zionist immigration from the initial sympathy as embodied in the Balfour Declaration through attempts at blockade refoulement and finally disengagement The book exposes differences in policy pursued by the great departments of state like the Foreign Colonial and War Offices and their legal advisors and those implemented by the Admiralty The book argues that the eventual failure of Britain's immigration policy was inevitable in view of the hostility shown by many European nations and America towards Britain's ambition to retain her position in the Middle East

Franckx (Ed.),2007 Between 2001 and 2002 the Maritime Institute of the Universiteit Gent and the Centre for International Law of the Vrije Universiteit Brussel joined efforts and hosted Emeritus Professor Dermott Devine as holder of the International Francqui Chair around the central themes of fisheries and coastal state jurisdiction with respect to marine pollution As Emeritus Director of the Institute of Marine and Environmental Law Professor Devine was available for discussion and participation in the scientific life of the different Belgian universities having similar fields of interest Within this context six classes of excellence were organized with the participation of interested Belgian colleagues across the board belonging to universities adhering to different basic philosophies and even forming part of different linguistic communities These classes culminated in a final symposium where Professor Devine gave a birds eye view of the general theme overarching and synthesizing the different subjects covered during the previous classes of excellence This book offers a reworked compilation of all the contributions of the key note speakers to the classes of excellence The Law of the Sea Laura Pineschi,Tullio Treves,2021-09-27 The United Nations Convention on the Law of the Sea of 10 December 1982 entered into force on 16 November 1994 Since this date a single binding instrument has regulated the rights and duties of States at sea and

regarding the sea New concepts such as the exclusive economic zone archipelagic waters transit passage through straits and the International Seabed Area are now fully recognized The fifteen member States of the European Union are a significant sample for analyzing the practice of States or at least that of the Western industrialized States as regards the law of the sea They include major and small maritime powers coastal and land locked States States with coasts on the Atlantic Ocean and States with coasts on semi enclosed seas such as the Baltic and the Mediterranean States with and without involvement in deep seabed mining and States with different interests as regards fisheries The fact that they all belong to the European Union is a very important common feature which amply justifies the choice made to study them together The book's aim is to give through essays prepared by well known specialists a detailed survey of the attitudes and practice concerning the law of the sea of the member States of the European Union and of the European Community as such The common positions of the member States and the results of their coordinated action also emerge from these essays The fact that the member States and the European Community are now actively engaged in the process of becoming parties to the Law of the Sea Convention is certainly a major contribution to the consolidation of the Convention as a universal instrument or at least as an instrument widely ratified by States of all continents and economic and political interests

Legal Status of Government Merchant Ships in International Law Thamarappallil Kochu Thommen, 2012-12-06 This book is devoted to an examination of the legal status of government merchant ships while on the high seas or in the waters of foreign states in time of peace The object of this examination is to ascertain whether there is any rule of international law which accords such a ship a higher status than that of private merchant ships Whether government merchant ships unlike private ships are entitled to certain immunities from the jurisdiction of foreign states is the question that we have set out to answer in this book A discussion of the rules concerning the nationality of such a ship or the jurisdiction of the flag state over her does not find a place in this work A government merchant ship may be defined as a merchant ship owned or operated by a state Immunity of a ship here means the exemption of a government ship from the jurisdiction of any state other than the flag state This term also connotes the immunity of the flag state from the jurisdiction of the tribunals of foreign states in respect of proceedings connected with such a ship Immunity of persons means the exemption of persons in the service of a government ship or other persons on board her from the jurisdiction of any state other than the flag state
