Curse of the Narrows Laura M. Mac Donald, 2009-05-26 In 1917 the port of Halifax Nova Scotia was crowded with ships leaving for war torn Europe On December 6th two of them the Mont Blanc and the Imo collided in the Narrows a hard to navigate stretch of the harbor Ablaze and with explosions on her deck filling the sky the

Mont Blanc grounded against the city's docks As thousands rushed to their windows and into the streets to watch she exploded with such force that the 3 121 tons of her iron hull vaporized in a cloud that shot up more than 2 000 feet the explosion was so unusual that Robert Oppenheimer would study its effects to predict the devastation of an atomic bomb The blast caused a giant wave that swept over parts of the city followed by a slick black rain that fell for ten minutes Much of the city was flattened and not one in 12 000 buildings within a 16 mile radius left undamaged More than 1 600 Halifaxians were killed and 6 000 injured and within twenty four hours a blizzard had isolated Halifax from the world Set vividly against the background of World War I *Curse of the Narrows* is the first major account of the world's largest pre atomic explosion the epic relief mission from Boston and the riveting trial of the Mont Blanc's captain and pilot Laura M Mac Donald is as adept at describing the dynamics of a chain reaction explosion as she is at chronicling unforgettable human dramas of miraculous survival unfathomable loss and the medical breakthroughs in pediatrics and eye surgery that followed the disaster Using primary sources many of which haven't been read in decades and with a wonderful feel for narrative history Mac Donald chronicles one of the most compelling and dramatic events of the 20th century

Hot Property Pat Choate,2007-12-18 The problem of pirating and counterfeiting has grown from small scale imitations of Levi's jeans and Zippo lighters to a phenomenon that costs the United States an estimated 200 billion dollars per year Pirated DVDs computer software designer clothes and machinery flood global markets inflicting heavy losses on U S businesses while counterfeit medicines auto and aircraft parts and baby formula regularly cause fatalities around the world The theft of artistic and scientific creation is draining our economy It is the great economic crime of the twenty first century Pat Choate the author of the best selling *Agents of Influence* examines the roots of conflicts over intellectual property and how the establishment of patent and copyright protections helped propel the American economy He interweaves the stories of Eli Whitney Alexander Graham Bell and Thomas Edison to illustrate how the United States transformed itself from a largely agricultural society into a manufacturing scientific and technological superpower giving rise to further copyright and patent protection laws He traces the emergence of Germany Japan and China as rivals to American primacy through copying counterfeiting and underpricing American products and media He reveals the shockingly meager effectiveness of current efforts to defend American businesses inventors and artists from corporate espionage And he sounds a powerfully convincing warning that the general indifference of our government toward the security of American intellectual property is already affecting job security and the economy in general an estimated 24 billion is lost each year to pirated films music recordings books and other merchandise in China alone *Hot Property* is an impassioned clear eyed and sound assessment of one of the most serious problems facing the American economy today certain to be one of the most widely discussed books of the year

The Galveston-Houston Packet: Steamboats on Buffalo Bayou Andrew W. Hall, 2012-10-30

Many imagine the settlement of the American West as signaled by the dust of the wagon train or the whistle of a locomotive During the middle decades of the nineteenth century though the growth of Texas and points west centered on the seventy mile water route between Galveston and Houston This single vital link stood between the agricultural riches of the interior and the mercantile enterprises of the coast with a round of operations that was as sophisticated and efficient as that of any large transport network today At the same time the packets on the overnight Houston Galveston run earned a reputation as colorful as their Mississippi counterparts complete with impromptu steamboat races makeshift naval gunboats during the Civil War professional gamblers and horrific accidents
