Library of Congress Catalogs Library of Congress, 1978 **The Open Shelf**, 1914 **Monographic Series** Library of Congress, 1982 **Reference Catalogue of Current Literature**, 1920 **Memory's Library** Jennifer Summit, 2008-11-15

In Jennifer Summit's account libraries are more than inert storehouses of written tradition they are volatile spaces that actively shape the meanings and uses of books reading and the past Considering the two hundred year period between 1431 which saw the foundation of Duke Humfrey's famous library and 1631 when the great antiquarian Sir Robert Cotton died Memory's Library revises the history of the modern library by focusing on its origins in medieval and early modern England Summit argues that the medieval sources that survive in English collections are the product of a Reformation and post Reformation struggle to redefine the past by redefining the cultural place function and identity of libraries By establishing the intellectual dynamism of English libraries during this crucial period of their development Memory's Library demonstrates how much current discussions about the future of libraries can gain by reexamining their past
