Urbicide Fernando Carrión Mena, Paulina Cepeda Pico, 2023-03-23 This book uses the reflection of academics specialized in the urban area of Latin America Europe and the United States to initiate a comparative debate of the different dynamics in which Urbicide expresses itself The field or focal point of analysis that this publication approaches is the city but under a new critical perspective of inverse methodology to that has been traditionally used It is about understanding the structural causes of self destruction to finally thinking better and then going from pessimism to optimism It is a deep look at the city from an unconventional entrance because it is about knowing and analyzing what the city loses by the action deployed by own urbanites both in the field of its production and in the field of its consumption This suppose that the city does not have an ascending linear sequential evolution in its development but neither in each of its parts in the improvement process showing the face that commonly not seen but others live The category used for this purpose is that of Urbicide or the death of the city which contributes theoretically and methodologically to the knowledge of the city as well as to the design of urban policies that neutralize it In addition it is worth mentioning that the book has an inclusive view of the authors For this reason gender parity territorial representation and the presence of age groups have been sought **Cómo gestionar el cambio**

 Furedi, 2022-03-16 Uno de los principales impulsores de la cultura del miedo es el desmantelamiento de la autoridad moral El
 miedo parece proporcionar una solución provisional a la incertidumbre moral y por esa razón es objeto de interés por parte de
 colectivos e individuos Furedi predice que hasta que la sociedad encuentre una orientación más positiva hacia la
 incertidumbre florecer la politización del miedo La sociedad es continuamente bombardeada con mensajes de amenazas
 incalculables e ingobernables que instauran la impotencia y la pasividad crece así la sensación de ansiedad y la constante búsqueda
 de nuevas formas de seguridad tanto física como ontológica Cules son los impulsores del miedo Cules es el papel de los

 Fazio, 2014-09-01 El eje temático que atraviesa mis intereses investigativos se ha desplegado alrededor de dos asuntos que se
 encuentran entrelazados por una parte el diseño de una propuesta de historización del presente contemporáneo y por la otra el
 análisis del carácter global del mundo actual O para decirlo en palabras más simples las preocupaciones por el presente y la
 globalidad representan dos facetas de una misma gran trama el entendimiento y la explicación de las coordenadas
 fundamentales del presente contemporáneo a la luz del desarrollo histórico Varios factores me han llevado a interesarme por
 este tema Uno de ellos se encuentra en el convencimiento al que he llegado en torno a la necesidad de comprender aquello
 que el filósofo Marcel Gauchet entendía como la condición histórica de la contemporaneidad que se representa como una
 conciencia de la condición humana que impone la necesidad de comprender el despliegue del presente desde su trasiego en
 el tiempo En efecto una observación crítica de ciertas situaciones conflictivas actuales el problema ruso ucraniano en torno a
 Crimea pone en evidencia que la contemporaneidad está sobrecargada de historia pues el presente no representa únicamente
 lo actual dado que el presente tiene un espesor que está conformado de variados estratos históricos **Negocios en**
