

5. HOLD CONTROL

If you're exercising proper breath control, this should be easy! As you pull the trigger, hold your entire body as still as possible. The most minor physical adjustment can affect the point of impact of your shots. Keeping as still as you can will help prevent that from occurring!

6. FOLLOW THROUGH

After you've fired a shot, keep your finger on the trigger while it's pulled to the rear.

While maintaining a good sight picture, slowly let off pressure on the trigger while keeping your finger on it. Allow the trigger to reset (you will feel a "click" when the trigger resets) and start pulling the trigger again if you need to fire additional shots.

Don't immediately release your finger and jerk the gun!
