**The Feeding of the Nine Billion** Alex Evans,2009 Global food prices have eased significantly from their record highs in the first part of 2008 As a worldwide economic downturn has gathered pace commodity markets have weakened significantly By October 2008 the UN Food and Agriculture Organization s Food Price Index stood at 164 the same level as in August 2007 and 25% lower than the Index s high of 219 in June 2008 However this does not mean that policy makers around the world can start to breathe a sigh of relief For one thing even at their somewhat diminished levels current prices remain acutely problematic for low income import dependent countries and for poor people all over the world The World Bank estimates that higher food prices have increased the number of undernourished people by as much as 100 million from its pre price spike level of 850 million

*The Electronic Church in the Digital Age* Mark Ward Sr.,2015-11-10 This two volume set investigates the evangelical presence in America as experienced through digital media examining current evangelical ideologies regarding education politics family and government Evangelical broadcasting has greatly expanded its footprint in the digital age This informative text acquaints readers with how the electronic church of today spreads its message through Internet podcasts social networking religious radio programs and televised sermons how mass media forms the institution s modern identity and what the future of the industry holds as mobile church apps Christian based video games and online worship become the norm The work split into two volumes reveals the ways that the Christian broadcast community affects evangelical traditions and influences American society in general Volume 1 explores how electronic media shapes today s Christian subculture while the second volume describes how the electronic church impacts

the wider American culture analyzing what key figures in evangelical mass media are saying about today's religious political economic and social issues The set concludes by addressing criticism about religious media and the prospects of American public discourse to accommodate both secular and religious voices

**The Saturday Review of Politics, Literature, Science and Art** ,1872      **The Moving Picture World** ,1913      **The Saturday Review of Politics, Literature, Science, Art, and Finance** ,1872      **New-York Observer** ,1911      *Under the Oak Tree* Ronald J. Allen, John S. McClure, O. Wesley Allen, 2013-11-06

Two trends in the early twenty first century intersect to give this volume immediate relevance 1 The emerging postmodern ethos in North America is calling into question many things we have taken for granted including the purposes of the church and 2 our time is increasingly fractious as groups with distinct worldviews become polarized and often antagonistic Eleven noted contributors join a growing current that sees conversation as an image to refresh our thinking about the nature and purpose of the church and as a process in which individuals and communities with different perspectives come together for real understanding *Under the Oak Tree* employs the image of Sarah and Abraham greeting three visitors under the Oaks of Mamre as an image for the church as a community of conversation a community that opens itself to the otherness of the Bible voices in history and tradition others in the contemporary social and ecological worlds Furthermore the book shows how conversation can lead the church to action The book takes a practical approach by exploring how conversation can shape key parts of the church's life Topics include preaching worship formation evangelism pastoral care mission and ecumenism social witness and the relationship of Christianity to other religions Foundational chapters consider God as conversational the church as community of conversation and the minister as conversation leader
