Shopping Place And Identity:

Shopping, Place and Identity Peter Jackson, Michael Rowlands, Daniel Miller, 2005-09-20 Engages in key debates in contemporary consumption and identity studies yet presents a firmly grounded study that will complement the more speculative writing about shopping place and identity that has developed in recent years **Shopping, Place, and Identity**, 1998 **Spaces of Consumption** Jon Stobart, Andrew Hann, Victoria Morgan, 2013-01-11 A key theme is eighteenth century studies Authors come from fresh urban studies geography perspective Fits with older titles e.g. by John Brewer that Routledge have historically been well known for **Consumer Culture, Branding and Identity in the New Russia** Graham H.J. Roberts, 2016-04-14 As shopping has been transformed from a chore into a major source of hedonistic pleasure a specifically Russian consumer culture has begun to emerge that is unlike any other This book examines the many different facets of consumption in today's Russia including retailing advertising and social networking Throughout emphasis is placed on the inherently visual not to say spectacular nature both of consumption generally and of Russian consumer culture in particular Particular attention is paid to the ways in which brands both Russian and foreign construct categories of identity in order to claim legitimacy for themselves What emerges is a fascinating picture of how consumer culture is being reinvented in Russia today in a society which has one nostalgic eye turned towards the past and the other utopian eye set firmly on the future Borrowing concepts from both marketing and cultural studies the approach throughout is interdisciplinary and will be of considerable interest to researchers students and practitioners wishing to gain invaluable insights into one of the most lucrative and exciting of today's emerging markets *Place, Identity and Everyday Life in a Globalizing World* Harvey Perkins, David C. Thorns, 2017-09-16 How do our everyday environments inform our activities routines and encounters In what way has globalization affected the sites in which we work relax and interact Is there still a place for local identity in a globalized age This book examines the ways in which we use local spaces and global processes to shape our identities Showing how enhanced tourism communication developments and increased diversity have effected the way we live every day the text also explains how individuals communities and cities react to such globalizing forces on a local level Each chapter unravels complex connections between place identity and global processes and carefully outlines what core theory can tell us about key contemporary debates including surveillance environmental change and sustainability Taking examples from urban and rural life shopping malls and virtual worlds the book encourages us to look at our immediate surroundings in a sociological light Highlighting the interdependence of space and society in a rapidly changing world this text is essential reading for those studying place and identity in Sociology Cultural Studies Geography Urban Studies and Rural Studies **Place Identity, Participation and Planning** Cliff Hague, Paul Jenkins, 2005 Can regional identities create a more sustainable alternative to the increasingly standardised environments in which we live Is bottom up rather than top down planning possible Children, Place and Identity Jonathan Scourfield, Bella Dicks, Mark

Drakeford, Andrew Davies, 2006-09-27 In this the first sociology book to consider the important issue of how children identify with place and nation the authors use original research and international case studies to explore this topic in depth The book is rooted in original qualitative research the authors conducted with a diverse sample of children aged eight to eleven across Wales but this data is also located in the context of existing international research on place identity The book features analysis of lively exchanges between children on their local national and global identities politics language and race It engages with important social and political questions such as whether cultural distinctiveness can be preserved in a context of globalization whether we are destined to passively receive dominant representations of the nation or can creatively construct our own versions and whether national identities are necessarily exclusive Most importantly the book focuses on what local and national identities mean to children in an era of cultural and economic globalization Including material on racialization language politics class and gender Children Place and Identity will be a valuable resource to students and researchers of childhood studies and the sociology of childhood

The Role of Place Identity in the Perception, Understanding, and Design of Built Environments Hernan Casakin, Fátima Bernardo, 2012 In an era of globalization where the progressive deterioration of local values is a dominating characteristic identity is seen as a fundamental need that encompasses all aspects of human life One of these identities relates to place and the physical environment
Contradictions of Consumption Tim Edwards, 2000 A critical introduction to the field that manages to be both considered and argumentative and stands out distinctly from the more culturalist alternatives available it should provide a strong text for undergraduate courses Don Slater Goldsmiths College University of London How has consumer society developed What are the social divisions politics and policies associated with consumption How do consumer practices have social significance This lively and accessible text shows how consumption is increasingly important in dominating our individual lives and indeed the entire development and direction of contemporary society nationally and internationally Consumption is inherently contradictory in its nature and meaning The most rapturous form of shopping for example clothes purchasing on unlimited plastic in a shopping mall may turn into the most tortuous as the shopper tires the clothes don't fit and the car park is cramped Tim Edwards argues that the practice of consumption itself and consumer society more widely is often socially divisive and iniquitous and examines the extent to which consumer power is real or illusory He provides a thorough analysis and critique of the theories practices and politics of consumer society In particular this book addresses the social divisions of consumption through topics such as fashion advertising and marketing as well as more classical and contemporary theories of consumer society It will appeal to a wide range of students in sociology cultural studies social policy and the politics of identity

psychoanalytic and feminist approaches are drawn together and critically appraised and there are substantive sections looking at racial ethnic gendered queer consumerist virtual and global identities The Handbook also makes an essential contribution to the debate now opening up over identity politics and its cultural consequences From anti globalization protestors to new ecological warriors from devotees of therapy culture to defenders of international human rights the culture of identity politics is fast redefining the public political sphere What future for politics is there after the turn to identity Throughout there is a strong emphasis on interdisciplinarity with essays covering sociology psychology politics cultural studies and history The Handbook's clear and direct style will appeal to a wide undergraduate audience in the social sciences and humanities
