and institutional changes      *China's War in Korea* Xiaobing Li, 2019-11-05 This book revisits the history of the Korean War of 1950-1953 from a Chinese perspective examining Chinese strategy and exploring why China sent three million troops to Korea in Mao's words to defend the homeland and safeguard the country giving rise to what became the war's common name in China. It also looks into the relatively neglected historical factors which have redefined China's security concerns and strategic culture. Using newly available sources from China and the former Soviet Union the book considers how interactive the parameters of defense changes were in a foreign war against Western powers how flexible Chinese strategy was in the context of its intervention and how expansive its strategic cultural repertoire was at the crucial moment to defend the country. Providing a re-examination of China's military decisions and strategy evolution this text narrates the story of successive generations of Chinese leaders and provides a key insight into security issues in China and Northeast Asia today.

**Darwinian Social Evolution and Social Change** William Kerr, 2021-07-29 This book introduces the value of a Darwinian social evolutionary approach to understanding social change. The chapters discuss several different perspectives on social evolutionary theory and go on to link these with comparative and historical sociological theory and two case studies. Kerr brings together social change theory and theories on nationalism whilst also providing concrete examples of the theories at work. The book offers a vision of rapprochement between these different areas of theory and study and to where this could lead future studies of comparative history and sociology. As such it should be useful to scholars and students of nationalism and social change sociologists political scientists and historians.

**The Cold War in East Asia** Xiaobing Li, 2017-09-13 This textbook provides a survey of East Asia during the Cold War from 1945 to 1991. Focusing on the persistence and flexibility of its culture and tradition when confronted by the West and the US this book investigates how they intermesh to establish the nations that have entered the modern world. Through the use of newly declassified Communist sources the narrative helps students form a better understanding of the origins and development of post WWII East Asia. The analysis demonstrates how East Asia's position in the Cold War was not peripheral but in many key senses central. The active role that East Asia played ultimately turned this main Cold War battlefield into a buffer between the United States and the Soviet Union. Covering a range of countries this textbook explores numerous events which took place in East Asia during the Cold War including The occupation of Japan Civil war in China and the establishment of Taiwan The Korean War The Vietnam War China's Reforming Movement. Moving away from Euro American centric approaches and illuminating the larger themes and patterns in the development of East Asian modernity *The Cold War in East Asia* is an essential resource for students of Asian History the Cold War and World History.
