Short History Of Wwii:

World War II Michael J. Lyons, 2016-07-01 Highly regarded for its concise clarification of the complexities of World War II this book illuminates the origins course and long range effects of the war It provides a balanced account that analyzes both the European and Pacific theaters of operations and the connections between them The Fifth Edition incorporates new material based on the latest scholarship offering updated conclusions on key topics and expanded coverage throughout A *Short History of World War II* James L. Stokesbury, 2009-10-13 A Short History of World War II is essentially a military history but it reaches from the peace settlements of World War I to the drastically altered postwar world of the late 1940s Lucidly written and eminently readable it is factual and accurate enough to satisfy professional historians A Short History of World War II will appeal equally to the general reader the veteran who fought in the War and the student interested in understanding the contemporary political world World War Two Norman Stone, 2013-01-08 A pacy compelling and penetrating account from Wolfson Prize winning author Norman Stone that shows World War Two in a fresh new light The Second World War is the nightmare that sits at the heart of the modern era a total refutation of any notion of human progress and a conflict which still haunts us seventy years on Norman Stone's gripping new book aims to tell the narrative of the war in as brief a compass as possible making a sometimes familiar story utterly fresh and arresting As with his highly acclaimed World War One A Short History there is a compelling sense of a terrible story unfolding of a sceptical and humorous intelligence at work and a wish to convey to an audience who may well have no memory of the conflict just how high the stakes were This is a beautifully written clever and imaginative attempt to convey what can almost not be conveyed About the author Norman Stone is one of Britain's greatest historians His major works include The Eastern Front 1914-1917 winner of the Wolfson Prize and published by Penguin Europe Transformed and The Atlantic and Its Enemies published by Penguin He has taught at the universities of Cambridge Oxford and Bilkent where he is now Director of the Turkish Russian Centre He lives in Ankara Reviews Professor Norman Stone has achieved the impossible he has somehow written a comprehensive history of the Second World War in just under 200 pages summarising the entire conflict while leaving out nothing of importance and bringing his lifetime of study of the subject to bear in a witty incisive and immensely readable way Norman Stone has proved yet again that he is one of the most original witty and powerful British historians writing today Andrew Roberts Standpoint The joy and strength of this compact history besides its trenchancy and in the publishers words the sceptical and humorous intelligence at work is its narrative clarity a book to clear the mind after the grand tour of the big volumes Allan Mallinson The Times Novices will receive a painless introduction but educated readers should not pass up the highly opinionated prologue and epilogue and the author's trademark acerbic commentary throughout Readers of all stripes will find plenty to ponder Kirkus Reviews **A Brief History of the U.S. Army in World War II: Campaigns of World War II (Pamphlet)** Center of Military History (U S Army), **A Short History of World War I** James L.

Stokesbury,2024-03-19 A concise history covering the causes and the battles of the world s first global conflict the war to end all wars World War I was a bloodletting so vast and unprecedented that for a generation it was known simply as the Great War Casualty lists reached unimagined proportions as the same ground places like Ypres and the Somme was fought over again and again Other major bloody battles remain vivid in memory to this day Gallipoli and the Battle of Jutland are but two examples Europe was at war with itself and the effect on Western civilization was profound its repercussions felt even today World War I saw the introduction of modern technology into the military arena The tank airplane machine gun submarine and most lethal of all poison gas all received their first widespread use Professor James L Stokesbury analyzes these technological innovations and the war s complex military campaigns in lucid detail At the same time he discusses the great political events that unfolded during the war such as the Russian Revolution and the end of the Hapsburg dynasty putting the social and political side of the war into the context of modern European history Includes Maps [World War II in Literature for Youth](#) Patricia Hachten Wee,Robert James Wee,2004 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource [The Real History of World War II](#) Alan Axelrod,2008 Traces the causes of World War II explores the motivations of important people involved with it presents the events of the war grouped by the theater in which they took place and examines its aftermath **World War II ,** **With Courage: The U.S. Army Air Forces In WWII** Bernard C. Nalty,Alfred M. Beck,2015-11-06 The four years between 1941 and 1945 were years in which the nation raised and trained an air armada and committed it to operations on a scale unknown to that time With Courage The U S Army Air Forces in World War II retells the story of sacrifice valor and achievements in air campaigns against tough determined adversaries It describes the development of a uniquely American doctrine for the application of air power against an opponent s key industries and centers of national life a doctrine whose legacy today is the Global Reach Global Power strategic planning framework of the modern U S Air Force The narrative integrates aspects of strategic intelligence logistics technology and leadership to offer a full yet concise account of the contributions of American air power to victory in that war Print Ed **The United States Coast Guard in World War II** Thomas P. Ostrom,2009-08-11 At home and overseas the United States Coast Guard served a variety of vital functions in World War II providing service that has been too little recognized in histories of the war Teaming up with other international forces the Coast Guard provided crewmembers for Navy and Army vessels as well as its own carried troops food and military supplies overseas and landed Marine and Army units on distant and dangerous shores This thorough history details those and other important missions which included combat engagement with submarines and kamikaze planes and typhoons On the

home front port security missions involving search and rescue fire fighting explosives espionage and sabotage presented their own unique dangers and challenges Evansville in World War II James Lachlan MacLeod,2015-11-02 During World War II the city of Evansville manufactured vast amounts of armaments that were vital to the Allied victory The Evansville Ordnance Plant made 96 percent of all 45 caliber ammunition used in the war while the Republic Aviation Plant produced more than 6 500 P 47 Thunderbolts almost half of all P 47s built during the war At its peak the local shipyard employed upward of eighteen thousand men and women who forged 167 of the iconic Landing Ship Tank vessels In this captivating and fast paced account University of Evansville historian James Lachlan MacLeod reveals the enormous influence these wartime industries had on the social economic and cultural life of the city *World War II in Global Perspective, 1931-1953* Andrew N. Buchanan,2019-02-05 A comprehensive review of World War II that offers a global level analysis Written for academics and students of history World War II in Global Perspective 1931 1953 presents a dynamic and global account of the historical events prior to during and after World War II The author a noted expert on the topic explores the main theaters of the war and discusses the connections between them He also examines the impact of the war on areas of the world that are often neglected in historical accounts including Latin America sub Saharan Africa and the so called neutral countries This comprehensive text clearly shows how in the struggle against the Axis powers the United States replaced Britain as the global superpower The author discusses the Japanese invasion of Manchuria in 1931 and the Korean War 1950 1953 and argues that the core years of the war 1939 1945 cannot be understood without considering the turbulent events that framed them The text puts World War II in context as a series of large regional conflicts that intersected and overlapped finally emerging as a genuine world war with the formal entry of the United States in late 1941 This vital text Offers a comprehensive review of World War II that frames it in a global context Gives weight to the economic and political developments of the war Provides a robust account of the main military campaigns Contains illustrations and maps that themselves highlight little known aspects of the global war **An Illustrated History of World War II** Harris Andrews,Oxmoor House,2002-09 With this volume Time Life Books publisher of numerous highly acclaimed volumes on World War II tells the history of mankind s greatest catastrophe in 23 insightful essays and more than 800 compelling photographs of the war s key figures the unknown soldiers who fought the battles and the unfortunate civilians who lived amongst the carnage The Wars of Myron King James L. McDonough,2009 This book offers an engrossing account of King s early life and wartime service as a part of the 401st Bombardment Group U S Eighth Air Force Based on a wide array of published and primary sources including trial transcripts and interviews with King the book offers a unique view of the experience of air combat the intertwining of politics and military justice and the complex circumstances that inaugurated the Cold War Jacket *The Emergence of American Amphibious Warfare, 1898—1945* David Nasca,2020-05-15 The Emergence of American Amphibious Warfare 1898 1945 examines how the United States became a military superpower through the use

of amphibious operations While other major world powers pursued and embraced different weapons and technologies to create different means of waging war the United States was one of the few countries that spent decades training developing and employing amphibious warfare to pursue its national interests Commonly seen as dangerous and costly amphibious warfare was carefully modernized refined and promoted within American political and military circles for years by a small motley group of military mavericks intellectuals innovators and crackpots This generational cast of underdogs and unlikely heroes were able to do the impossible by predicting and convincing America s leadership how the United States should fight World War II David Nasca reveals that despite the new ways that states have to project military power today as seen with airpower nuclear weapons cyber warfare and special operators amphibious warfare has proven to be the most important element in transforming the theater of battle In understanding how amphibious warfare allowed the United States to achieve geopolitical supremacy competitor states are now looking at America s amphibious past for clues in how to challenge the United States global leadership and expand its power and influence in the world

A History of the Laws of War: Volume 1
Alexander Gillespie, 2011-09-06 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and regulating the treatment of captives This first book on warfare deals with the broad question of whether the patterns of dealing with combatants and captives have changed over the last 5 000 years and if so how In terms of context the first part of the book is about combatants and those who can lawfully take part in combat In many regards this part of the first volume is a series of less than ideal pathways This is because in an ideal world there would be no combatants because there would be no fighting Yet as a species we do not live in such a place or even anywhere near it either historically or in contemporary times This being so a second best alternative has been to attempt to control the size of military forces and therefore the bloodshed This is also not the case by which humanity has worked over the previous centuries Rather the clear assumption for thousands of years has been that authorities are allowed to build the size of their armed forces as large as they wish The restraints that have been applied are in terms of the quality and methods by which combatants are taken The considerations pertain to questions of biology such as age and sex geographical considerations such as nationality and the multiple nuances of informal or formal combatants These questions have also overlapped with ones of compulsion and whether citizens within a country can be compelled to fight without their consent Accordingly for the previous 3 000 years the question has not been whether there should be a limit on the number of soldiers but rather who is or is not a lawful combatant It has rarely been a question of numbers It has been and remains one of type The second part of this book is about people typically combatants captured in battle It is about what happens to their status as prisoners about

the possibilities of torture assistance if they are wounded and what happens to their remains should they be killed and their bodies fall into enemy hands The theme that ties all of these considerations together is that all of the acts befall those who are to one degree or another captives of their enemies As such they are no longer masters of their own fate As a work of reference this first volume as part of a set of three is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself **World War II: Northwest Europe 1944-1945** Russell

Hart, Stephen Hart, 2010-01-15 Outlines Allied activities in Western Europe from D Day in 1944 to the German capitulation in 1945 *Brown Faces, White Spaces* Latasha Morrison, 2025-06-03 ECPA CHRISTIAN BOOK AWARD FINALIST The New York Times bestselling author of *Be the Bridge* calls people of faith to be a part of lasting change and help heal the racial disparity in our country together A journey that encourages us to love our neighbors in real time as we understand the history that has shaped us Terence Lester PhD founder of Love Beyond Walls We might think of systemic racism as an unfortunate part of American history something that happened back in the day But the systems were never truly dismantled in our country leaving artifacts of injustice that continue to affect every aspect of life for Black and Brown Americans Many of us feel overwhelmed by the problem unsure how we can make a difference Yet God calls the church to stand firmly committed to racial reconciliation and for each one of us to make choices that lead to healing In *Brown Faces White Spaces* Latasha Morrison a speaker bridge builder and champion for unity explores nine aspects of American life where systemic racism still flourishes including education healthcare the justice system entertainment and the church Through story historical context and present realities Morrison looks at what it means to recognize and confess the truth about inequities in the system preparation commit ourselves to changing the system dedication and move into true freedom as a society liberation Drawing on rich sociological insights as well as experiences of family and friends and from her own life Morrison asks How does knowing our country's history make a difference in how we live today How does Jesus's divine act of reconciliation on the cross lead to human liberation from oppression How might we create systems for all to flourish This honest hope filled book shows us how we can reform historically white spaces and create systems that work for the good of all Join the bridge building movement that is listening learning and working together for equity in every aspect of our lives Includes questions for personal reflection and group discussion *The 10th Mountain Division* Dennis P.

Chapman, 2023-03-28 The storied history of the US Army's elite 10th Mountain Division is presented here in precise detail by Dennis Chapman a former officer in the division The reader will first learn of the outfit's 1943 activation then the dramatic story of their famous WWII Italian campaign After successfully storming the near vertical slope of Riva Ridge thought unclimbable by their German opponents and then seizing the strategic heights of the Mount Belvedere massif the men of the 10th Mountain Division battered their way through the Apennine Mountains Breaking out into the Po Valley the 10th

Mountain Division raced across the lowlands to the foot of the Austrian Alps slamming the door shut on thousands of retreating Axis troops The reader will also learn about the heroism of the 10th Mountain Division troops at the Battle of the Black Sea in Mogadishu the famous story of Black Hawk Down as well as its exploits during the early years of the global war on terror Unlike most books of its kind this book goes beyond those famous exploits bringing together all the threads of the division s history Chapman also recounts the history of the 10th Mountain Division in its Cold War incarnations at Fort Riley Kansas and in Germany He also tells the story of the 87th Infantry Regiment the last remaining of the division s three original regiments and the only element of the division to continue in existence from the division s deactivation in 1958 until its reactivation in 1985

Little Minnesota in World War II Jill A. Johnson, Deane L. Johnson, 2017-09-05 During World War II a total of 165 men from Minnesota s smallest towns gave their lives for our country Several were awarded the Distinguished Service Cross Distinguished Flying Cross Silver Star and Bronze Star All received the award no one wanted the Purple Heart Most of their stories have never been told publicly Little Minnesota in World War II by Jill A Johnson and Deane L Johnson honors these brave men from the smallest rural towns From John Emery who died December 7 1941 on board the USS Arizona to Herman Thelander who was lost in the Bermuda Triangle a mystery unsolved to this day this unique book allows you to experience the war through personal accounts of the men and their families With photos from the war scans of actual letters journal excerpts and family memories this one of a kind book brings history to life and will make you feel prouder than ever to be Minnesotan
