Down the Amur to the Pacific, 1856-1857. A New Edition of A Voyage Down the Amoor ... Edited with an Introduction by Charles Vevier. [With a Portrait.]** Perry MacDonough COLLINS,Charles Vevier,1962 *Siberian Journey. Down the Amur to the Pacific, 1856-1857. New Ed. of A Voyage Down the Amoor. D., Introd. by Charles Vevier* Perry MacDonough Collins,Charles Vevier,1962 *Beyond the Amur* Victor Zatsepin,2017-03-09 *Beyond the Amur* describes the distinctive frontier society that emerged in the Amur a river region that shifted between Qing China and Imperial Russia as the two empires competed for resources Official histories depict the Amur as a distant battleground caught between rival empires Zatsepin by contrast views it as a unified natural economy populated by Chinese Russian Indigenous Japanese Korean Manchu and Mongol people who crossed the border in search of work or trade and who came together to survive a harsh physical environment This colourful account of a region

and its people highlights the often overlooked influence of frontier developments on state politics and imperial policies and histories Constructing Industrial Pasts Stefan Berger,2019-09-01 Since the 1960s nations across the developed world have been profoundly shaped by deindustrialization In regions in which previously dominant industries faced crises or have disappeared altogether industrial heritage offers a fascinating window into the phenomenon s cultural dimensions As the contributions to this volume demonstrate even as forms of industrial heritage provide anchors of identity for local populations their meanings remain deeply contested as both radical and conservative varieties of nostalgia intermingle with critical approaches and straightforward apologies for a past that was often full of pain exploitation and struggle

Shamans, Lamas, and Evangelicals C R BAWDEN Fba,2024-11-01 First published in 1985 Shamans Lamas and Evangelicals tells the little known yet fascinating story of a missionary venture to Eastern Siberia in the year 1818 Two missionaries one English one Swedish with the tiresome voyage across the Baltic behind them set out with their wives to face the daunting prospect of a 3000 mile journey by sledge across the rough snow roads of Siberia in the depths of winter The mission was unusual in its conception Established by the London Missionary Society and the backing of the Tsar Alexander I its aim was to bring the Christian gospel to the Buryats and once that was accomplished to cross into China evangelize the Mongols there and then set about the conversion of the Chinese The mission failed but it was nonetheless an extraordinary episode It is the story of men who first had to learn Russian in order to teach themselves Mongolian who brought up their families founded schools treated the sick and translated the entire Bible into Mongolian printing the Old Testament on their own local press This is an interesting historical reference work for scholars and researchers of Russian history and Mongolian history *Between Heaven and Hell* G. Diment,Y. Slezkine,2016-04-30 Siberia has no history of independent political existence no claim to a separate ethnic identity and no clear borders Yet it could be said that the elusive country behind the Urals is the most real and the most durable part of the Russian landscape For centuries Siberia has been represented as Russia s alter ego as the heavenly or infernal antithesis to the perceived complexity or shallowness of Russian life It has been both the frightening heart of darkness and a fabulous land of plenty the House of the Dead and the realm of utter freedom a frozen wasteland and a colourful frontier a dumping ground for Russia s rejects and the last refuge of its lost innocence The contributors to *Between Heaven and Hell* examine the origin nature and implications of these images from historical literary geographical anthropological and linguistic perspectives They create a striking fascinating picture of this enormous and mysterious land Vestal Fire Stephen J. Pyne,2012-04-01 Stephen Pyne has been described as having a consciousness composed of equal parts historian ecologist philosopher critic poet and sociologist At this time in history when many people are trying to understand their true relationship with the natural environment this book offers a remarkable contribution breathtaking in the scope of its research and exhilarating to read Pyne takes the reader on a journey through time exploring the terrain of Europe and the uses and abuses of its lands as well as through migration and conquest many

parts of the rest of the world Whether he is discussing the Mediterranean region Russia Scandinavia the British Isles central Europe or colonized islands whether he is considering the impact of agriculture forestry or Enlightenment thinking the author brings an unmatched insight to his subject Vestal Fire takes its title from Vesta Roman goddess of the hearth and keeper of the sacred fire on Mount Olympus But the book s title also suggests the strengths and limitations of Europe s peculiar conception of fire and through fire of its relationship to nature Between the untamed fire of the wilderness and the tended fire of the hearth lies a never ending dialectic in which human beings struggle to control natural forces and processes that in fact can sometimes be directed but never wholly dominated or contained **Feeding the Russian Fur Trade** James

R. Gibson,2011-11-18 James R Gibson offers a detailed study that is both an account of this chapter of Russian history and a full examination of the changing geography of the Okhotsk Seaboard and the Kamchatka Peninsula over the course of two centuries **The Other Great Game** Sheila Miyoshi Jager,2023-05-16 Sheila Miyoshi Jager returns to the three cornered

contest among imperial Russia China and Japan over the Korean Peninsula The battle to colonize Korea upended East Asian geopolitics set great power conflicts of the twentieth century in motion and seeded internal rivalries that persist in the peninsula s division between North and South *Beginnings of Russian Industrialization, 1800-1860* William L.

Blackwell,2015-12-08 Since Russian tradition and institutions resemble those of Asia and Africa as much if not more than the patterns of Western societies the pre 1917 industrial history of Russia as the last part of the tsarist regime provides one of the most important examples of early industrialization in world history In this broad ambitious reconstruction of the early stages of Russia s industrial development English Professor Blackwell shows that the period from 1800 to 1860 was one of necessary preparation for the rapid industrialization of the later 19th century The book is based upon a wide variety of primary and secondary sources in the Russian language Originally published in 1968 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Shaman's Coat* Anna Reid,2009-05-26 The fascinating history of an unknown people A vivid mixture of history and reporting The Shaman s Coat tells the story of some of the world s least known peoples the indigenous tribes of Siberia Russia s equivalent to the Native Americans or Australian Aborigines they divide into two dozen different and ancient nationalities among them Buryat Tuvans Sakha and Chukchi Though they number more than one million and have begun to demand land rights and political autonomy since the fall of communism most Westerners are not even aware that they exist Journalist and historian Anna Reid traveled the length and breadth of Siberia one twelfth of the world s land surface larger than the United States and Western Europe combined to tell the story of its people Drawing on sources ranging from folktales to KGB reports

and on interviews with shamans and Buddhist monks reindeer herders and whale hunters camp survivors and Party apparatchiks The Shaman's Coat travels through four hundred years of history from the Cossacks campaigns against the last of the Tatar khans to native rights activists against oil development The result is a moving group portrait of extraordinary and threatened peoples and a unique and intrepid travel chronicle *Imperial Visions* Mark Bassin, 1999-06-24 In the middle of the nineteenth century the Russian empire made a dramatic advance on the Pacific by annexing the vast regions of the Amur and Ussuri rivers Although this remote realm was a virtual terra incognita for the Russian educated public the acquisition of an Asian Mississippi attracted great attention nonetheless even stirring the dreams of Russia's most outstanding visionaries Within a decade of its acquisition however the dreams were gone and the Amur region largely abandoned and forgotten In an innovative examination of Russia's perceptions of the new territories in the Far East Mark Bassin sets the Amur enigma squarely in the context of the Zeitgeist in Russia at the time *Imperial Visions* demonstrates the fundamental importance of geographical imagination in the mentality of imperial Russia This 1999 work offers a truly novel perspective on the complex and ambivalent ideological relationship between Russian nationalism geographical identity and imperial expansion *The Development of Siberia* R A French, Alan Wood, 1990-01-12 *We Shall Be Masters* Chris Miller, 2021-06-08 An illuminating account of Russia's attempts and failures to achieve great power status in Asia Since Peter the Great Russian leaders have been lured by opportunity to the East Under the tsars Russians colonized Alaska California and Hawaii The Trans Siberian Railway linked Moscow to Vladivostok And Stalin looked to Asia as a sphere of influence hospitable to the spread of Soviet Communism In Asia and the Pacific lay territory markets security and glory But all these expansionist dreams amounted to little In *We Shall Be Masters* Chris Miller explores why arguing that Russia's ambitions have repeatedly outstripped its capacity With the core of the nation concentrated thousands of miles away in the European borderlands Russia's would-be pioneers have always struggled to project power into Asia and to maintain public and elite interest in their far-flung pursuits Even when the wider population professed faith in Asia's promise few Russians were willing to pay the steep price Among leaders too dreams of empire have always been tempered by fears of cost Most of Russia's pivots to Asia have therefore been halfhearted and fleeting Today the Kremlin talks up the importance of strategic partnership with Xi Jinping's China and Vladimir Putin's government is at pains to emphasize Russian activities across Eurasia But while distance is covered with relative ease in the age of air travel and digital communication the East remains far off in the ways that matter most Miller finds that Russia's Asian dreams are still restrained by the country's firm rooting in Europe *Arctic Mirrors* Yuri Slezkine, 2016-11-01 For over five hundred years the Russians wondered what kind of people their Arctic and sub-Arctic subjects were They have mouths between their shoulders and eyes in their chests reported a fifteenth-century tale They rove around live of their own free will and beat the Russian people complained a seventeenth-century Cossack Their actions are exceedingly rude They do not take off their hats and do not bow to each other huffed an

eighteenth century scholar They are children of nature and guardians of ecological balance rhapsodized early nineteenth century and late twentieth century romantics Even the Bolsheviks who categorized the circumpolar foragers as authentic proletarians were repeatedly puzzled by the peoples from the late Neolithic period who by virtue of their extreme backwardness cannot keep up either economically or culturally with the furious speed of the emerging socialist society Whether described as brutes aliens or endangered indigenous populations the so called small peoples of the north have consistently remained a point of contrast for speculations on Russian identity and a convenient testing ground for policies and images that grew out of these speculations In *Arctic Mirrors* a vividly rendered history of circumpolar peoples in the Russian empire and the Russian mind Yuri Slezkine offers the first in depth interpretation of this relationship No other book in any language links the history of a colonized non Russian people to the full sweep of Russian intellectual and cultural history Enhancing his account with vintage prints and photographs Slezkine reenacts the procession of Russian fur traders missionaries tsarist bureaucrats radical intellectuals professional ethnographers and commissars who struggled to reform and conceptualize this most alien of their subject populations Slezkine reconstructs from a vast range of sources the successive official policies and prevailing attitudes toward the northern peoples interweaving the resonant narratives of Russian and indigenous contemporaries with the extravagant images of popular Russian fiction As he examines the many ironies and ambivalences involved in successive Russian attempts to overcome northern and hence their own otherness Slezkine explores the wider issues of ethnic identity cultural change nationalist rhetoric and not so European colonialism

The Sixth Extinction Terry Glavin, 2025-08-22 *The Sixth Extinction* is a haunting account of the age in which we live Ecologists are calling it the Sixth Great Extinction and the world isn't losing just its ecological legacy also vanishing is a vast human legacy of languages and our ways of living seeing and knowing Terry Glavin confirms that we are in the midst of a nearly unprecedented catastrophic vanishing of animals plants and human cultures He argues that the language of environmentalism is inadequate in describing the unraveling of the vast system in which all these extinctions are actually related And he writes that we're no longer gaining knowledge with every generation We're losing it In the face of what he describes as a dark and gathering sameness upon the Earth Glavin embarks on a global journey to meet the very things we're losing a distinct species every ten minutes a unique vegetable variety every six hours an entire language every two weeks and on the way encounters some of the world's wonderful rare things a human sized salmon in Russia a mysterious Sino Tibetan song language a Malayan tiger the last of its kind and a strange tomato that tastes just like black cherry ice cream And he finds hope in the most unlikely places a macaw roost in Costa Rica a small village in Ireland a relic community of Norse whalers in the North Atlantic the vault beneath the Royal Botanical Garden at Kew and the throne room of the Angh of Longwa in the eastern Himalayas A fresh narrative take on the usual doom and gloom environmentalism *The Sixth Extinction* draws upon zoology biology ecology anthropology and mythology to share the joys hidden within the long human struggle to

conserve the world's living things Here we find hope in what's left the absolute and stunning beauty in the Earth's last cultures and creatures
