Around the World Robert Frothingham, 1925 **Sailor Talk** Mary K. Bercaw Edwards, 2021-03-01 This book investigates the highly engaging topic of the literary and cultural significance of sailor talk. The central argument is that sailor talk offers a way of rethinking the figure of the nineteenth century sailor and sailor writer whose language articulated the rich layered and complex culture of sailors in port and at sea. From this argument many other compelling threads emerge including questions relating to the seafarer's multifaceted identity, maritime labor, questions of performativity, the ship as theater, the varied and multiple registers of sailor talk and the foundational role of maritime language in the lives and works of Herman Melville, Joseph Conrad and Jack London. The book also includes nods to James Fenimore Cooper, Rudyard Kipling and Robert Louis Stevenson. Meticulous scholarly research underpins the close readings of literary texts and the scrupulously detailed biographical accounts of three major sailor writers. The author's own lived experience as a seafarer adds a refreshingly materialist dimension to the subtle literary readings. The book represents a valuable addition to a growing scholarly and political interest in the sea and sea literature. By taking the sailor's viewpoint and listening to sailors' voices, the book also marks a clear intervention in this developing field.

Henry James: The Mature Master Sheldon M. Novick, 2020-04-14 The New York Times compared Sheldon M. Novick's *Henry James: The Young Master* to a movie of James's life as it unfolds moment to moment, lending the book a powerful immediacy. Now in *Henry James: The Mature Master*, Novick completes his super-revelatory two-volume account of one of the world's most gifted and least understood authors and of a vanished world of aristocrats and commoners. Using hundreds of letters only recently made available and taking a fresh look at primary materials, Novick reveals a man utterly unlike the passive, repressed and privileged observer painted by other biographers. Henry James is seen anew as a passionate and engaged man of his times, driven to achieve greatness and fame, drawn to the company of other men able to write with sensitivity about women as he shared their experiences of love and family responsibility. James, age thirty-eight as the volume begins, basking in the success of his first major novel *The Portrait of a Lady*, is a literary lion in danger of being submerged by celebrity. As his finances ebb and flow, he turns to the more lucrative world of the stage, with far more success than he has generally been credited with. Ironically, while struggling to excel in the theatre, James writes such prose masterpieces as *The Wings of the Dove* and *The Golden Bowl*. Through an astonishingly prolific life, James still finds time for profound friendships and intense rivalries. *Henry James: The Mature Master* features vivid new portraits of James's famous peers including Edith Wharton, Oscar Wilde and Robert Louis Stevenson, his close and loving siblings Alice and William, and the many compelling young men among them, Hugh Walpole and Howard Sturgis, with whom James exchanges professions of love and among whom he thrives. We see a master converting the materials of an active life into great art. Here too, as one century ends and another begins, is James's participation in the public events of his native America and adopted England. As the still feudal European world is shaken by democracy and as America sees itself

endangered by a wave of Jewish and Italian immigrants a troubled James wrestles with his own racial prejudices and his desire for justice With the coming of world war all other considerations are set aside and James enlists in the cause of civilization leaving his greatest final works unwritten Hailed as a genius and a warm and charitable man and derided by enemies as false effeminate and self infatuated Henry James emerges here as a major and complex figure a determined and ambitious artist who was planning a new novel even on his deathbed In Henry James The Mature Master he is at last seen in full along with its predecessor volume this book is bound to become the definitive biography NOTE This edition does not include a photo insert

Sons of the Empire Robert Macdonald, 2011-11-01 In Sons of the Empire Robert MacDonald explores popular ideas and myths in Edwardian Britain their use by Baden Powell and their influence on the Boy Scout

movement In particular he analyses the model of masculinity provided by the imperial frontier the view that life in younger far flung parts of the empire was stronger less degenerate than in Britain The stereotypical adventurer the frontiersman provided an alternative ethic to British society The best known example of it at the time was Baden Powell himself a war scout the Hero of Mafeking in the South African war and one of the first cult heroes to be created by the modern media When Baden Powell founded the Boy Scouts in 1908 he used both the power of the frontier myth and his own legend as a hero to galvanize the movement The glamour of war scouting was hard to resist its adventures a seductive invitation to the first recruits But Baden Powell had a serious educational program in mind Boy Scouts were to be trained in good citizenship MacDonald documents his study with a wide range of contemporary sources from newspapers to military memoirs Exploring the genesis of an imperial institution through its own texts he brings new insight into the Edwardian age **Modern**

Metrical Technique George R. Stewart,1922 **Language in Literature** Geoffrey Leech,2014-07-15 Over a period of over forty years Geoffrey Leech has made notable contributions to the field of literary stylistics using the interplay between linguistic form and literary function as a key to the mystery of how a text comes to be invested with artistic potential In this book seven earlier papers and articles read previously only by a restricted audience have been brought together with four new chapters the whole volume showing a continuity of approach across a period when all too often literary and linguistic studies have appeared to drift further apart Leech sets the concept of foregrounding also known as defamiliarization at the heart of the interplay between form and interpretation Through practical and insightful examination of how poems plays and prose works produce special meaning he counteracts the flight from the text that has characterized thinking about language and literature in the last thirty years when the response of the reader rather than the characteristics and meaning potential of the text itself have been given undue prominence The book provides an enlightening analysis of well known as well as less well known texts of great writers of the past including Keats Shelley Samuel Johnson Shaw Dylan Thomas and Virginia Woolf

reader into Charmian's private and public worlds underscoring her literary achievements and the significant role she played in promoting her husband's legacy. Her life as Dunkle emphasizes required fortitude and bravery and in many ways it paralleled the history of the American West. Born on the mudflats of what would become Los Angeles's harbor, Charmian became an orphan at age fourteen. Raised by her aunt Netta Wiley Ames, a noted writer and editor for the *Overland Monthly*, Charmian attended college, became an expert equestrian and concert pianist, and had a successful career as a stenographer. But her life shifted when in 1905 she married Jack London, already a bestselling author. For the rest of Jack's life until his untimely death at the age of forty, reporters would follow the couple's every move. Charmian and Jack traveled the world exploring and writing together. In addition to collaborating with Jack on many of his projects, Charmian wrote three books about her travels as well as countless articles. After Jack's death in 1916, she remained a celebrity, continuing to travel and write and seek adventure. She also wrote a biography about her late husband and managed his estate, influencing how Jack's literary legacy was remembered. Charmian Kittredge London is a central figure in California cultural history. Now thanks to Dunkle's riveting portrait, readers have the opportunity to embark on the grand adventure that was her life. **Ballad**

Theory and Technique, 1913. *Imagining the Forest*. John R. Knott, 2011-11-30. Forests have always been more than just their trees. The forests in Michigan and similar forests in other Great Lakes states such as Wisconsin and Minnesota played a role in the American cultural imagination from the beginnings of European settlement in the early nineteenth century to the present. Our relationships with those forests have been shaped by the cultural attitudes of the times and people have invested in them both moral and spiritual meanings. Author John Knott draws upon such works as Simon Schama's *Landscape and Memory* and Robert Pogue Harrison's *Forests: The Shadow of Civilization* in exploring ways in which our relationships with forests have been shaped using Michigan's history of settlement, popular literature, and forest management controversies as an exemplary case. Knott looks at such well-known figures as William Bradford, James Fenimore Cooper, John Muir, John Burroughs, and Teddy Roosevelt. Ojibwa conceptions of the forest and natural world, including how Longfellow mythologized them, early explorer accounts, and contemporary literature set in the Upper Peninsula, including Jim Harrison's *True North* and Philip Caputo's *Indian Country*. Two competing metaphors evolved over time. Knott shows the forest as howling wilderness, impeding the progress of civilization and in need of subjugation, and the forest as temple or cathedral worthy of reverence and protection. *Imagining the Forest* shows the origin and development of both.
