Wish-fulfilment in Philosophy and Psychoanalysis Tamas Pataki, 2014-04-24 Wish fulfilment as a singular means of satisfying ineluctable desire is a pivotal concept in classical psychoanalysis Freud argued that it was the thread that united dreams daydreams phantasy omnipotent thinking neurotic and some psychotic symptoms such as hallucinations and delusions art myth and religious illusions The concept's theoretical exploration has been largely neglected within psychoanalysis since but contemporary philosophers have recognised it as providing an explanatory model for much of the kind of irrational behaviour so problematic for psychiatry social psychology and the philosophy of mind Although critically neglected in contemporary psychological and psychoanalytic thought the concept remains clinically fundamental under different labels it encompasses the processes of omnipotent phantasy symbolic or substitutive satisfaction actualisation in transference and acting out symptom formation and defenses such as projective identification Wish fulfilment can be shown to be a specifically psychoanalytic compartment of a common sense psychological theory of action that illuminates not just clinical material but also the paradoxes of irrationality such as weakness of will and self deception that preoccupy philosophers The first half of this book develops a comprehensive and novel theory of wish fulfilment explores its radical implications for the structure of mind and locates it against the backdrop of both contemporary psychoanalytic and philosophical thought In the second half the book applies the theory to illuminate important features of self deception and delusion religion insanity defences creative writing and the exclusion of mind and intention in the biological drift of modern psychiatry The book will be essential to philosophers of mind psychoanalysts psychiatrists psychologists social theorists and students in these disciplines as well as readers interested in understanding how the mind works in mental illness self deception religion and creative writing Hungry for Love , A Concordance to the Poems of W.B. Gale reinterprets the classic Arthurian legend with a focus on the emotional and psychological complexities of love and desire. Through her lyrical prose, Gale weaves a narrative that explores themes of longing, sacrifice, and the ephemeral nature of affection set against a richly imagined medieval landscape. The book's style is imbued with vivid imagery and a poignant examination of the human condition, positioning it within the early 20th-century movement that challenged traditional narratives and sought deeper explorations of character and emotion.

Zona Gale, an acclaimed author and a prominent figure in the early feminist literary movement, undoubtedly drew from her own experiences and societal observations when crafting this tale. Born in Wisconsin in 1874, she was exposed to the literary movement of her time, which encouraged women to voice their own stories. Gale's writing often reflects her deep understanding of human emotions and relationships, making her a notable figure in literature for her attempts to bridge the gap between romantic idealism and tangible reality.

Readers seeking a thought-provoking exploration of love that eschews conventional tropes will find *The Loves of Pelleas and Ettarre* to be a captivating addition to their literary journey. Gale's nuanced understanding of her characters renders this work both timeless and relevant, making it a must-read for those interested in the intersections of love, identity, and the intricacies of human connection.
