The Bilingual LSP Dictionary Sandro Nielsen,1994

Manual of Specialised Lexicography Henning Bergenholtz,Sven Tarp,1995-01-01

From 1990 1994 the Danish Research Council for the Humanities granted a research project entitled translation of LSP texts which was initially split up into five part projects one of which has been concerned with LSP lexicography The Manual of Specialised Lexicography is one of the results of the research undertaken by this project The primary purpose of the Manual is to contribute towards an improved basis for practical specialised lexicography which has so far had but a small share in the explosive development that has taken place in general language lexicography since the early 1970s One implication of this is that only to a limited extent has it been possible to build upon existing findings The Manual thus has the twofold aim of offering guidance and direction to authors of specialised dictionaries as well as contributing towards the further development of lexicographical theories

APPROACH TO ACCOUNTING FOR SCHOOLS AND TECHNICAL STUDIES Dr. N. VISWANADHAM,Mr. OTTO MATERN MUBA,Mr. ERICK SYLVESTER NGWEGA,2019-08-19 It is very easy to control and manage business when a business is very small Hence the entire double entry account is kept in one book called a ledger As the business grows and expand it would be impossible just to use one book as the large number of pages needed for a lot of transactions could be very difficult to handle To solve this problem of getting difficulties in handling the bookkeeper should use more books Through this all similar types of transactions are handling together and have a book for each type Remember not to mix together transactions which are different from one another Therefore the books which are used to record all similar transactions on a first time before posting to the ledger account are called books of original entry **(5 th International Conference on Lifelong**
