Corn, Brian Horrigan, 1996-05-15 From Jules Verne to the Jetsons from a 500 passenger flying wing to an anti aircraft flying buzz saw the vision of the future as seen through the eyes of the past demonstrates the play of the American imagination on the canvas of the future Atlantic Coast Line News , 1920 *Limited Scientific and Technical Aerospace Reports* , 1977 **Doing Pragmatics** Peter Grundy, 2013-11-26 Doing Pragmatics achieved success through its unparalleled capacity to render pragmatics truly accessible to students Embracing the comprehensive and engaging style which characterised the previous editions the third edition is fully revised and expanded Grundy consolidates the strengths of the original version reinforcing its unique combination of theory and practice with new theory exercises and up to date real data and examples New chapters include pragmatic inference and language evolution and intercultural pragmatics Doing Pragmatics is designed for pragmatics courses both at an introductory and a more advanced level It extends beyond theory to promote an applied understanding of empirical data and to provide students with the opportunity to do pragmatics themselves providing the ideal foundation for all those studying linguistics and ELT **No One at the Wheel** Samuel I Schwartz, 2018-11-20 The country s leading transport expert describes how the driverless vehicle revolution will transform highways cities workplaces and laws not just here but across the globe Our time at the wheel is done Driving will become

illegal as human drivers will be demonstrably more dangerous than cars that pilot themselves Is this an impossible future or a revolution just around the corner Sam Schwartz America s most celebrated transportation guru describes in this book the revolution in self driving cars The ramifications will be dramatic and the transition will be far from seamless It will overturn the job market for the one in seven Americans who work in the trucking industry It will cause us to grapple with new ethical dilemmas if a car will hit a person or a building endangering the lives of its passengers who will decide what it does It will further erode our privacy since the vehicle can relay our location at any moment And like every other computer controlled device it can be vulnerable to hacking Right now every major car maker here and abroad is working on bringing autonomous vehicles to consumers The fleets are getting ready to roll and nothing will ever be the same and this book shows us what the future has in store Catalog of Copyright Entries.
