Johnson, Paul Kusserow, 2024-11-13 Expert review of how the antiquated United States healthcare system is transforming The Coming

Healthcare Revolution The 10 Forces that Will Cure America's Health Crisis identifies and describes five top down macro forces and five bottom up market forces that have sufficient strength to transform the U S healthcare industry from the outside in. The powerful macro forces are demographic determinants, funding fatigue, chronic pandemics, technological imperatives, and pro consumer market reforms. The equally powerful market forces are whole health care redesign, care migration, aggregators advantage, and empowered caregivers. Written by David Johnson and Paul Kusserow, professional healthcare advisors operating at the intersection of healthcare economics, policy, strategy, and capital formation, this book provides expert insight on how the U S healthcare system is becoming cheaper, better, more balanced between prevention and treatment, easier to access, and more empowering for both frontline caregivers and consumers. In this book, readers will learn about factors leading to rising healthcare costs, including an aging population, perverse economic incentives, armies of middlemen, and expensive breakthrough therapies. U S healthcare in comparison to other high income countries, twice as expensive per capita and inferior in terms of health status metrics. Similarities between the U S automobile industry crisis in the 1980s and today's adapt or die situation for healthcare providers and suppliers. How the healthcare industry is reorganizing to decentralize delivery of whole person health in ways that will improve health outcomes and overall societal health. **The Coming Healthcare Revolution** is a must read for professionals and organizations seeking to understand and react to the paradigm shifting forces revolutionizing the healthcare ecosystem. [History of Critical Care Medicine \(2023 = 70th anniversary\), An Issue of Critical Care Clinics, E-Book](#) Hannah Wunsch, 2023-05-30. In this issue of Critical Care Clinics, guest editor Dr. Hannah Wunsch brings her considerable expertise to the topic of History of Critical Care Medicine. The term Critical Care Medicine was first introduced in the 1950s at the University of Southern California, making 2023 the 70th anniversary of this subspecialty. This issue provides a fascinating look at important aspects of the history of the field, which originated with the concept that immediately life endangered patients, the critically ill and injured, may have substantially better chances of survival if provided with professionally advanced, minute to minute, objective measurements. Contains 10 practice oriented topics, including early pediatric ICU care, mechanical ventilation, negative to positive and back again airway management over the last 100 years, critical care nursing from the 1950s to the 2020s, from strict bedrest to early mobilization, a history of physiotherapy in the ICU, visiting hours, and the changing place of family in the ICU, and more.

History of Western Society Since 1300 for Advanced Placement John P. McKay, Bennett D. Hill, John Buckler, Clare Haru Crowston, Merry E. Wiesner-Hanks, Joe Perry, 2010-10-13. A History of Western Society continues to capture the attention of AP European history students because it recreates the lives of ordinary people and makes history memorable. Brought to you by the highly regarded editors at Bedford St. Martin's, every element of the text has been rethought, reconsidered, and revised to bring the original vision to a new generation of students. The tenth edition continues to tie social history to the broad sweep of politics and culture, heightening its attention to daily life and strengthening the treatment of
