lag between world structures that favor increased multinational peacekeeping forces and individual nations that supply token resources to support such efforts This volume provides a sophisticated and thought provoking perspective on the future role of the military in the coming decades It is sure to enrich the vigorous debate surrounding these issues The Good Life Chronicles D. Breaking the Fear Barrier Tom Rieger,2011-08-23 This book takes the reader through a journey of how fear of loss progressively creates barriers and bureaucracy that inevitably cause companies to fail and what leaders need to do to overcome these seemingly impenetrable walls The greatest threat to an organization s success is not always the competition Often it is what a company does to itself Because of fear companies become plagued with barriers and bureaucracy that limit success crush employees and infuse frustration and a sense of futility across the enterprise It starts with a narrowing of focus which leads to the first level of bureaucracy parochialism Parochialism exists when managers and departments begin to view the world through the filter of their own little silo and build walls made of rules and policies to protect their turf As businesses grow and become more complex the second level of bureaucracy is reached territorialism While parochialism is about protecting a department from outsiders territorialism is about controlling those inside the silo The third and final level of bureaucracy is empire building which is a response to perceived threats to a department s ability to be self sufficient These barriers cost organizations a fortune in inefficiency turnover waste and demoralization Tearing down these barriers is difficult but it can be done Parochialism can be eliminated by resetting rules and policies and refocusing on the ultimate mission of the organization Territorialism can be eliminated by creating true empowerment along with appropriate levels of accountability Empire building can be addressed through shared goals and a set of guiding principles that help act as a referee in decision making But that s not enough Managers must also create a culture of courage to enable employees to take advantage of these new freedoms and accountabilities Courage killers must be rooted out and dealt with swiftly and strongly Finally leaders must refocus on mission success rather than just checking off their part of the process manage reference points and engage employees By doing all these things an organization can become fearless and unstoppable *Along the Domestic-Foreign Frontier* James N.
