Copyright Office, 1908 **Catalogue of Copyright Entries: Books, Dramatic Compositions, Maps and Charts** Copyright Office, 1908 *Movies Made for Television* Alvin H. Marill, 2010-10-11 In 2005 Scarecrow published *Movies Made for Television 1964-2004*, a five volume reference set commemorating 40 years of every movie made for TV film since *See How They Run* debuted in 1964. These books provided a comprehensive listing of every television film and mini series detailing each film's original network, airdate, and length of broadcast. In this latest volume Marill adds another five years of television films providing information for an additional 400 works produced between 2005 and 2009. Along with a brief summary, entries also include extensive production credits: director, writer, producer, composer, director of photography, and editor, and a complete cast and character listing. With a chronology of the films, an appendix of movies adapted from other sources, and separate indexes for actors and directors, *Movies Made for Television 2005-2009* is a welcome addition to a resource highly regarded by scholars and historians of television and popular culture. **Catalogue of Copyright Entries**, 1908 **Texas Takes Wing** Barbara Ganson, 2014-01-01 A history of aviation in Texas that brilliantly demonstrates the evolution of flight technology as a harbinger of social change. Technology and Culture In this book pilot and historian Barbara Ganson brings to life the colorful personalities that shaped the phenomenally successful development of the aviation industry in the Lone Star state. Weaving stories and profiles of aviators, designers, manufacturers, and those in related services, *Texas Takes Wing* covers the major trends that propelled Texas to the forefront of the field. Covering institutions from San Antonio's Randolph Air Force Base, the West Point of this branch of service, to Brownsville's airport with its Pan American Airlines instrument flight school, which served as an international gateway to Latin America as early as the 1920s, to Houston's Johnson Space Center, home of Mission Control for the US space program, the book provides an exhilarating timeline and engaging history of dozens of unsung pioneers as well as their more widely celebrated peers. Drawn from personal interviews as well as major archives and the collections of several commercial airlines including American, Southwest, Braniff, Pan American Airways, and Continental, this sweeping history captures the story of powered flight in Texas since 1910. With its generally favorable flying weather, flat terrain, and wide open spaces, Texas has more airports than any other state and is often considered one of America's most aviation friendly places. *Texas Takes Wing* also explores the men and women who made the region pivotal in military training, aircraft manufacturing during wartime, general aviation, and air servicing of the

agricultural industry The result is a soaring history that will delight aviators and passengers alike Includes photos
