Baby Loves Gravity! Ruth Spiro, 2018-05-01 Big brainy science for the littlest listeners Accurate enough to satisfy an expert yet simple enough for baby this clever board book explores the ups and downs of gravity When baby drops food from a high chair why does it fall Beautiful visually stimulating illustrations complement age appropriate language to encourage baby's sense of wonder Parents and caregivers may learn a thing or two as well With tongue firmly in cheek the Baby Loves Science series is a fun filled introduction to STEM concepts for babies toddlers and their grown ups *The Stone Loves the World* Brian Hall, 2022-06-14 A warm inventive and multilayered novel about two families one made up largely of scientists and the other of artists and mystics whose worlds collide in pursuit of a lost daughter Mette a twenty year old programmer of visual effects for video games lives with her mother Saskia an aspiring playwright in Brooklyn Mette is a private and socially awkward young woman who finds something consoling in repetitive mathematical calculations But she has been recently rejected in love and feels stuck in an endless loop no longer certain of her place in the world As Brian Hall's new novel opens Mette has gone missing Her disappearance forces Saskia to reunite with Mette's father Mark an emotionally distant astronomy professor in Ithaca to embark on a journey together to find her Mette's path will take her across America and then to a fateful visit with her charismatic grandfather Thomas who formerly ran the commune north of Ithaca where Saskia was raised and who now lives as a hermit in a windmill on a remote Danish island Playing out over nine decades and three generations and stitching together a dazzling array of subjects from cosmology and classical music to number theory and medieval mystery plays *The Stone Loves the World* is a story of love longing and scientific wonder It offers a moving reflection on the human search for truth meaning and connection in an often incomprehensible universe and on the genuine surprises that the real world and human society can offer Love Disconsoled Timothy P. Jackson, 1999-11-25 Few concepts are more central to ethics than love but none is more subject to false consolation This 1999 book explores several theological philosophical and literary accounts of love focusing on how it relates to matters such as self interest and self sacrifice and invulnerability and immortality Timothy Jackson first considers key aspects of what the Bible says about love then he further examines the meaning of love and sacrifice through a close reading of novels by Fitzgerald and Hemingway Lastly he evaluates how love constrains and is constrained by other traditional moral concepts Throughout Jackson defends the moral priority of what the Christian tradition calls agape He argues that a proper understanding of agapic love rejects both moral relativism and the comfort of believing that good people cannot be harmed or that God causally necessitates every historical action and event When love is thus disconsoled it neither fears death nor despises life **Baby Loves Political Science: Congress!** Ruth Spiro, 2021-04-13 Is your future voter election day ready This cute and clever addition to the best selling Baby Loves series offers an accurate and simple introduction to political science and the US government perfect for babies Baby learns that just as there are rules in daycare there are rules in our society And who makes the rules or laws Congress A

directors These 358 passages from the Summa have helped Kreeft in his own struggles to grow closer to the Lord His practical personal and livable advice is the fruit of his labors to apply the insights of Aquinas to his own quest for sanctity happiness and union with God

Selfless Love and Human Flourishing in Paul Tillich and Iris Murdoch Julia T. Meszaros, 2016-03-03 In an age of self affirmation and self assertion selfless love can appear as a threat to the lover's personal well being This perception jars with the Biblical promise that we gain our life through losing it and therefore calls for a theological response In conversation with the Protestant theologian Paul Tillich and the atheistic moral philosopher and novelist Iris Murdoch Selfless Love and Human Flourishing in Paul Tillich and Iris Murdoch enquires into the anthropological grounds on which selfless love can be said to build up rather than undermine the lover's self It proposes that while the implausibility of selfless love was furthered by the modern deconstruction of the self both Tillich and Murdoch utilize this very deconstruction towards explicating and restoring the link between selfless love and human flourishing Julia T Meszaros shows that they use the modern diagnosis of the human being's lack of a stable and independent self as manifest in Sartre's existentialism in support of an understanding of the self as relational and fallen This leads them to view a loving orientation away from self and a surrender to the other as critical to the full flourishing of human selfhood In arguing that Tillich and Murdoch defend the link between selfless love and human flourishing through reference to the human being's ontological selflessness Meszaros closely engages Søren Kierkegaard's earlier attempt to keep selfless love and human flourishing in a productive dialectical tension She also examines the breakdown of this tension in the later figures of Anders Nygren Simone Weil and Jean Paul Sartre and addresses the pitfalls of this breakdown Her examination concludes by arguing that the link between selfless love and human flourishing would be strengthened by a more resolute endorsement of a personal God and of the reciprocal nature of selfless love

The Equation of Love José Tiberius, 2020-09-01 Love poems and thoughts about relativity of time metaphysics and the Equation of Love Definition and concept of time Gravity and a new theory of everything In this book perspectives of modern science and metaphysics are combined besides the introduction about the relativity of love there are two titles dedicated to time and the Love Equation and gravity respectively In title II the different definitions of time are discussed emphasizing the subjective origin of the concept and the never ending attempts to obtain its common and objective idea There is a brief discussion about the new concept used by the physics science and more thoroughly the personal conception of metaphysical time and the time line as something real and subjective in contrast to the imaginary nature of time in Modern Physics Title III focuses on the Equation of Love Newton's gravity and its interrelations with Modern Physics and in particular with Einstein's equation of the mass energy equivalence In other words the new theory attempts to replace the correct duality of subjective and objective reality in the realm of philosophy separating them from other let's say imaginary realities It is not to say that imaginary realities are completely incorrect but they do not correspond to the standard common and simpler form of the operation of human logic and as a epistemological result of the scientific
