

EQUITY VS EQUALITY

EQUITY

Equity refers to fairness and justice in the distribution of resources, opportunities, and privileges, taking into account the unique circumstances and needs of individuals or groups. It recognizes that different individuals or groups may require different levels of support or accommodations to achieve a level playing field. Equity aims to address historical and systemic disadvantages and achieve 'equality of opportunity'.

EQUALITY

Equality refers to the principle of treating everyone the same or providing the exact same opportunities and resources to all individuals or groups regardless of need. It focuses on uniformity and equal treatment without necessarily considering the specific needs, circumstances, or historical disadvantages that certain individuals or groups may face.
