Antonia C Johns,2013-02 The physician patient bond is a significant relationship intended to effect healing in our patient but is it the patient alone who benefits We are all patients at some point As a patient how well do we know our self how clearly do we communicate what troubles us to our doctor to others Even when we are feeling healthy we remain aware of some aspects of our lives that need healing For many of us it is our relationships that need healing This book is an essential exploration into the challenges inherent in the physician patient dynamic and extends the findings to other important encounters The reason it is appropriate for everyone physician or not is because the principles adhered to in its writing are universal in reach and eternally relevant Its sole purpose is to promote healing in our world individually and collectively Whatever our vocation we are each called to be an essential effective healer in some way that is natural to us our gift to the world Here we are reminded that when we promote conditions for healing in our relationships we manifest miracles naturally
