Kaufman, 2019-08 2019 Choice Outstanding Academic Title Published through the Recovering Languages and Literacies of  
the Americas initiative supported by the Andrew W Mellon Foundation In Clues to Lower Mississippi Valley Histories David V  
Kaufman offers a stunning relational analysis of social cultural and linguistic change in the Lower Mississippi Valley from 500  
to 1700 He charts how linguistic evidence aids the understanding of earlier cultural and social patterns traces the diaspora of  
indigenous peoples and uncovers instances of human migration Historical linguistics establishes evidence of contact between  
indigenous peoples in the linguistic record where other disciplinary approaches have obscured these connections The  
Mississippi Valley is the heartland of early North American civilizations The region is a rich and diversified center of  
transportation for every part of eastern North America and to Mesoamerica The Lower Mississippi Valley region emerged as  
the home of the earliest mound building societies in the Americas and was home to some of the most impressive kingdoms  
encountered by Spanish and French explorers The languages of the region provide the key to the realities experienced by  
these indigenous peoples their histories and their relationships Clues to Lower Mississippi Valley Histories focuses on  
relationships that constitute what linguists call a sprachbund language union or language area Kaufman illuminates and  
articulates these linguistic relationships through a skillful examination of archaeological and ethnohistorical data Clues to  
Lower Mississippi Valley Histories examines the relationship between linguistics and archaeology to elucidate the early

the mouth of the Ohio River to Vicksburg This area covers about 350 miles and had been long regarded as one of the principal hot spots in eastern North American archaeology Phillips Ford and Griffin surveyed over 12 000 square miles identified 382 archaeological sites and analyzed over 350 000 potsherds in order to define ceramic typologies and establish a number of cultural periods The commitment of these scholars to developing a coherent understanding of the archaeology of the area as well as their mutual respect for one another enabled the publication of what is now commonly considered the bible of southeastern archaeology Originally published in 1951 as volume 25 of the Papers of the Peabody Museum of American Archaeology and Ethnology this work has been long out of print Because Stephen Williams served for 35 years as director of the LMS at Harvard succeeding Phillips and was closely associated with the authors during their lifetimes his new introduction offers a broad overview of the work s influence and value placing it in a contemporary context *Geological Investigation of Faulting in the Lower Mississippi Valley* E.
