Lucy Of The Trail Of Tears:

Lucy of the Trail of Tears James D. Yoder, 2006-06 **Of Life and Love** Freddy Fynn, 2010 *Of Life and Love* Eight Moral Tales is a collection of short stories written within the African tradition of storytelling. As the subtitle suggests, all eight tales have a strong moralistic twist and a range of settings. Written to offer insight into how life's choices are influenced by life experience and to show a range of different perspectives on moral issues, this collection is also a refreshing take on the short story genre. Author Freddy Fynn was born in Ghana, West Africa. Growing up in a community of storytellers had a big impact upon him and has helped him to create his unique writing voice. The eight tales contained within this collection are all influenced by African themes and a touch of Christian ideology. The collection includes tales such as *A King's Lullaby* in a small African village, a wise King's sayings are chronicled. In *The Tenderness of Love*, a housewife must choose forgiveness or divorce after discovering her husband's infidelity. **St. Lucy's Home for Girls Raised by Wolves** Karen Russell, 2007-08-14

Here is the debut short story collection from the author of the Pulitzer Prize finalist *Swamplandia!* and the New York Times bestselling *Vampires in the Lemon Grove*. In these ten glittering stories, the award-winning bestselling author Orange World and Other Stories takes us to the ghostly and magical swamps of the Florida Everglades. Here, wolf-like girls are reformed by nuns, a family makes their living wrestling alligators in a theme park, and little girls sail away on crab shells. Filled with inventiveness and heart, *St. Lucy's Home for Girls Raised by Wolves* is the dazzling debut of a blazingly original voice. *More Than Petticoats: Remarkable Oklahoma Women* Deborah Bouziden, 2013-02-05

More Than Petticoats: Remarkable Oklahoma Women celebrates the women who shaped the Sooner State. Short, illuminating biographies and archival photographs and paintings tell the stories of women from across the state who served as teachers, writers, entrepreneurs, and artists.

Masters of Health Christopher Willoughby,2022-10-06 Medical science in antebellum America was organized around a paradox it presumed African Americans to be less than human yet still human enough to be viable as experimental subjects as cadavers and for use in the training of medical students By taking a hard look at the racial ideas of both northern and southern medical schools Christopher D E Willoughby reveals that racist ideas were not external to the medical profession but fundamental to medical knowledge In this history of racial thinking and slavery in American medical schools the founders and early faculty of these schools emerge as singularly influential proponents of white supremacist racial science They pushed an understanding of race influenced by the theory of polygenesis that each race was created separately and as different species which they supported by training students to collect and measure human skulls from around the world Medical students came to see themselves as masters of Black people s bodies through stealing Black people s corpses experimenting on enslaved people and practicing distinctive therapeutics on Black patients In documenting these practices Masters of Health charts the rise of racist theories in U S medical schools throwing new light on the extensive legacies of slavery in modern medicine

Native Removal Writing Sabine N. Meyer,2022-01-27 During the Standing Rock Sioux protest against the Dakota Access Pipeline an activist observed Forced removal isn t just in the history books Sabine N Meyer concurs noting the prominence of Indian Removal the nineteenth century policy of expelling Native peoples from their land in Native American aesthetic and political praxis across the centuries Removal has functioned both as a specific set of historical events and a synecdoche for settler colonial dispossession of Indigenous communities across hemispheres and generations It has generated a plethora of Native American writings that negotiate forms of belonging the identities of Native collectives their proprietary relationships and their most intimate relations among one another By analyzing these writings in light of

domestic settler colonial international and tribal law Meyer reveals their coherence as a distinct genre of Native literature that has played a significant role in negotiating Indigenous identity Critically engaging with Native Removal writings across the centuries Meyer s work shows how these texts need to be viewed as articulations of Native identity that respond to immediate political concerns and that take up the question of how Native peoples can define and assert their own social cultural and legal political forms of living being and belonging within the settler colonial order Placing novels in conversation with nonfiction writings Native Removal Writing ranges from texts produced in response to the legal and political struggle over Cherokee Removal in the late 1820s and 1830s to works written by African Native writers dealing with the freedmen disenrollment crisis to contemporary speculative fiction that links the appropriation of Native intangible property culture with the earlier dispossession of their real property land In close contextualized readings of John Rollin Ridge John Milton Oskison Robert J Conley Diane Glancy Sharon Ewell Foster Zelda Lockhart and Gerald Vizenor as well as politicians and scholars such as John Ross Elias Boudinot and Rachel Caroline Eaton Meyer identifies the links these writers create between historical past narrated present and political future Native Removal Writing thus testifies to both the ongoing power of Native Removal writing and its significance as a critical practice of resistance

Voices in the Drum R. David Edmunds, 2023-10-24 The history of indigenous peoples in North America is long and complex Many scholarly accounts now rely on statistical data to reconstruct this past but amid all the facts and figures it is easy to lose sight of the human side of the story How did Native people express their thoughts and feelings and what sources of strength did they rely on to persevere through centuries of change In this engaging narrative acclaimed historian R David Edmunds combines careful research with creative storytelling to give voice to indigenous individuals and families and to illustrate the impact of pivotal events on their lives A nonfiction account accompanies each narrative to provide necessary historical and cultural context Voices in the Drum features nine stories each of which focuses on a fictional character who is a composite or representation of historical people This series of portrayals takes the reader on an epic journey through time beginning in the early 1400s with the Mound Builder cultures and ending with the modern day urbanization of Native people Along the way we observe fictional characters interacting with real historical figures such as Anthony Wayne Tecumseh and John Sutter and taking part in actual events such as the Battle of Fallen Timbers the Trail of Tears the California gold rush and the forced removal of Native children to off reservation boarding schools The people portrayed in these pages belong to various tribes including Potawatomis Lakotas Oneidas and Cherokees Their individual stories ranging from humorous to tragic give readers a palpable sense of how tribal peoples reacted to the disruptive changes forced on them by European colonizers and U S government policies Both entertaining and insightful the stories in this volume traverse a range of time periods events themes and genres As such they reverberate like voices in the drum inviting readers of all backgrounds to engage anew with
