The Occult in Medieval Europe P. G. Maxwell-Stuart, 2005-01-20 Of all the epithets popularly attached to the Middle Ages superstitious is perhaps the most common and most misleading The eighteenth century view that the era was represented by the Catholic Church and therefore backward and dark in contrast to

their own times which were forward looking rational and scientific has created a myth which successive centuries have perpetuated This fascinating study challenges the assumption that the medieval period was an age of superstition offering students a varied collection of documents surveying what people throughout Europe actually thought and believed about the occult sciences at the time Using translated extracts many of which appear in English for the first time from religious legal medical and scientific documents P G Maxwell Stuart presents and explores the various branches of magic divination astrology and alchemy which helped people to make sense of their world **Male Witchcraft in Early Modern Europe**,2013 The Mystery of the Central Sun Peryt Shou,2010-10-27 This is a first ever English language translation of Peryt Shou s profoundly influential treatise Das Mysterium der Zentralsonne 1912 A direct line can be drawn between Shou s observations in this volume about the mysterious Central Sun of Theosophy and the later writings of Nazi occultists who have actively promoted the increasingly popular Black Sun mythos The hidden wellspring of post war Nazi occultism is revealed here for the first time An informative preface numerous explanatory footnotes and a detailed appendix on the Central Sun concept in Theosophy round out the book and render its text accessible to modern readers
