Me, Myself, and Us Brian R Little, 2014-10-14 How does your personality shape your life and what if anything can you do about it Are you hardwired for happiness or born to brood Do you think you're in charge of your future or do you surf the waves of unknowable fate Would you be happier or just less socially adept if you were less concerned about what other people thought of you And what about your Type A spouse is he or she destined to have a heart attack or just drive you to drink In the past few decades new scientific research has transformed old ideas about the nature of human personality Neuroscientists biologists and psychological scientists have reexamined the theories of Freud and Jung as well as the humanistic psychologies of the 1960s upending the simplistic categorizations of personality types and developing new tools and methods for exploring who we are Renowned professor and pioneering research psychologist Brian R Little has been at the leading edge of this new science In this wise and witty book he shares a wealth of new data and provocative insights about who we are why we act the way we do what we can and can't change and how we can best thrive in light of our nature Me Myself and Us explores questions that are rooted in the origins of human consciousness but are as commonplace as yesterday's breakfast conversation such as whether our personality traits are set by age thirty or whether our brains and selves are more plastic He considers what our personalities portend for our health and success and the extent to which our well being depends on the personal projects we pursue Through stories studies personal experiences and entertaining interactive assessments Me Myself and Us provides a lively thought provoking and ultimately optimistic look at the possibilities and perils of being uniquely ourselves while illuminating the selves of the familiar strangers we encounter work with and love      Untying the Knot David L Kaufman, MD, David L. **Odagahodhes** Gae Ho Hwako Norma Jacobs,The Circles of Odagahodhes,2022-07-15 In the words of Cayuga Elder Gae Ho Hwako Norma Jacobs We have forgotten about that sacred meeting space between the Settler ship and the Indigenous canoe odagahodhes where we originally agreed on the Two Row

and where today we need to return to talk about the impacts of its violation Odagahodhes highlights the Indigenous values that brought us to the sacred meeting place in the original treaties of Turtle Island particularly the Two Row Wampum and the sharing process that was meant to foster good relations from the beginning of the colonial era The book follows a series of Indigenous sharing circles relaying teachings by Gae Ho Hwako and the responses of participants scholars authors and community activists who bring their diverse experiences and knowledge into reflective relation with the teachings Through this practice the book itself resembles a teaching circle and illustrates the important ways tradition and culture are passed down by Elders and Knowledge Keepers The aim of this process is to bring clarity to the challenges of truth and reconciliation Each circle ends by inviting the reader into this sacred space of Odagahodhes to reflect on personal experiences stories knowledge gifts and responsibilities By renewing our place in the network of spiritual obligations of these lands Odagahodhes invites transformations in how we live to enrich our communities nations planet and future generations

*Kierkegaard's Journals and Notebooks, Volume 5* Søren Kierkegaard, 2012-01-29 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Volume 5 of this 11 volume series includes five of Kierkegaard's important NB journals Journals NB6 through NB10 covering the months from summer 1848 through early May 1849 This was a turbulent period both in the history of Denmark which was experiencing the immediate aftermath of revolution and the fall of absolutism a continuing war with the German states and the replacement of the State Church with the Danish People's Church and for Kierkegaard personally The journals in the present volume include Kierkegaard's reactions to the political upheaval a retrospective account of his audiences with King Christian VIII deliberations about publishing an autobiographical explanation of his writings and an increasingly harsh critique of the Danish Church These journals also reflect Kierkegaard's deep concern over his collision with the satirical journal Corsair an experience that helped radicalize his view of essential Christianity and caused him to ponder the meaning

of martyrdom Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced

**George Eliot's Life - Letters and Journals II** George Eliot,2016-08-31 With the materials in my hands I have endeavored to form an autobiography if the term may be permitted of George Eliot The life has been allowed to write itself in extracts from her letters and journals Free from the obtrusion of any mind but her own this method serves I think better than any other open to me to show the development of her intellect and character In dealing with the correspondence I have been influenced by the desire to make known the woman as well as the author through the presentation of her daily life On the intellectual side there remains little to be learned by those who already know George Eliot s books In the twenty volumes which she wrote and published in her lifetime will be found her best and ripest thoughts The letters now published throw light on another side of her nature not less important but hitherto unknown to the public the side of the affections The intimate life was the core of the root from which sprung the fairest flowers of her inspiration Fame came to her late in life and when it presented itself was so weighted with the sense of responsibility that it was in truth a rose with many thorns for George Eliot had the temperament that shrinks from the position of a public character The belief in the wide and I may add in the beneficent effect of her writing was no doubt the highest happiness the reward of the artist which she greatly cherished but the joys of the hearthside the delight in the love of

her friends were the supreme pleasures in her life      I Mattered a Teacher'S Story Dr. Frankie J. Monroe-Moore, 2012-02-21

In *The New Meaning of Educational Change* Fullen wrote Low morale depressed feeling unfairly blamed for the ills of society

You must be a teacher This quote spoke volumes to me as I watched politicians jockeying for position by spewing their recycled political rhetoric and then launch an all out attack against public school teachers In years past these attacks had been levied against those receiving social security Medicare and Medicaid which mainly affected the poor disabled and elderly Dont get me wrong these issues are still on the table but I guess politicians felt they had beaten them with a dead horse and needed another soft target to spark the publics interest so public school teachers was it They struck with a vengeance firing public school teachers by the thousands throughout the country In an attempt to reduce the collective bargaining power of teacher unions such as American Federation of Teacher AFT in Texas they claimed the only way they knew to help balance the state and district school budget shortfalls was to rescind some of the benefits they had agreed too It hurts when the profession Ive dedicated over half of my adult life 25 yrs to is under attack by politicians and others that have no true concept of whats involved in being a public school teacher We have absolutely nothing to do with the decision making process First were told to do one thing and then were told to do something entirely different Its almost schizophrenic To all of my colleagues that remain on the frontlines of public education and those that are planning to take up the banner This books for you You might not have control over the decisions being made outside your classroom but you can control those things going on inside I provide ways to control student behavior by the design of your classroom to the use of a simple yellow tablet
