Confidential Documents United States. Army Air Forces, 1940      The Most Dangerous Enemy Stephen Bungay, 2010-09-25 Stephen Bungay's magisterial history is acclaimed as the account of the Battle of Britain Unrivalled for its synthesis of all previous historical accounts for the quality of its strategic analysis and its truly compulsive narrative this is a book ultimately distinguished by its conclusions that it was the British in the Battle who displayed all the virtues of efficiency organisation and even ruthlessness we habitually attribute to the Germans and they who fell short in their amateurism ill preparedness poor engineering and even in their old fashioned notions of gallantry An engrossing read for the military scholar and the general reader alike this is a classic of military history that looks beyond the mythology to explore all the tragedy and comedy the brutality and compassion of war      *Informational Intelligence Summary*, 1944      **Unflinching Zeal** Robin Higham, 2012-09-15 This consequential work by a pioneer aviation historian fills a significant lacuna in the story of the defeat of France in May June 1940 and more fully explains the Battle of Britain of July October of that year and the influence it had on the Luftwaffe in the 1941 invasion of the USSR Robin Higham approaches the subject by sketching the story and status of the three air forces the Armée de l'Air the Luftwaffe and the Royal Air Force their organization and preparation for their battles He then dissects the campaigns their losses and replacement policies and abilities He paints the struggles of France and Britain from both the background provided by his recent *Two Roads to War From Versailles to Dunkirk* NIP 2012 and from the details of losses tabulated by *After the Battle's The Battle of Britain* 1982 2nd ed and Peter Cornwell's *The Battle of France Then and Now* 2007 as well as in Paul Martin's *Invisible Vainqueurs* 1990 and from the Luftwaffe summaries in the British National Archives Cabinet papers One important finding is that the consumption and wastage was not nearly as high as claimed The three air forces actually shot down only 19 percent of the number claimed In the RAF case in the summer of 1940 44 percent of those shot down were readily repairable thanks to the salvage and repair organizations This contrasted with the much lower 8 percent for the Germans and zero for the French Brave as the aircrews may have been the inescapable conclusion is that awareness of consumption wastage and sustainability were intimately connected to survival      The Boardgamer Volume 4 Bruce A. Monnin, The Boardgamer magazine was a quarterly magazine devoted primarily but not exclusively to the coverage of Avalon Hill Victory Games titles and to other aspects of the boardgaming hobby Initially The Boardgamer's publication ran concurrently with Avalon Hill's house magazine *The General* but instead of focusing on new releases it devoted coverage to those classic Avalon Hill games which no longer graced the pages of *The General* Following the cessation of *The General* in June 1998 The Boardgamer was the primary periodical dedicated to the titles from AH VG until its final issue in 2004 The contents of this volume consists of Home Fleet Team Variants Short Scenario For Atlantic Storm Here Come The Rebels Scenario 6 From Frederick To Sharpsburg Guns Of August A West Front 1914 Scenario Sideshows Diversions Article 3 In The Third Reich Workshop Series The British Receding

**The "German Spirit" in the Ottoman and Turkish Army, 1908-1938** Gerhard Grüßhaber, 2018-04-09 The study focuses on the mutual transfer of military knowledge between the German and the Ottoman Turkish army between the 1908 Young Turk revolution and the death of Atatürk in 1938 Whereas the Ottoman and later the Turkish army were the main beneficiaries of this selective appropriation the German armed forces evaluated their prospective ally s military experiences to a lesser extent Through the analysis of archival and published sources and memoir literature the study provides evidence for the impact of this exchange on the armies of both countries and on the Turkish civil society Indeed the officer corps in both countries was a small but influential group of the society for the further development of their nations Courtesies of the Heart Kenneth Breaux, 2006-02 On 11 September 1944 US Army Air Corps Lt William Lewis departed for a combat mission over Germany Sometime during that mission he vanished and was presumed dead His disappearance remained a mystery for 58 years Courtesies of the Heart is the story of the mission and the long search for Lt Lewis Complete with personal letters official correspondence and bureaucratic tangles this is an intensely personal account of the grief of a young widow and the mother of the fallen airman The modern search began in 2001 initiated by the daughter he saw only once before departing for combat It reveals the details of an investigation that takes place in three countries by different groups of people all of which eventually lead to a successful recovery and the solution to the mystery that spanned six decades It involves a

confidential file recently discovered in the archives of a US military base in Germany reports of the East German secret police and the remarkable discovery of an old German man with a beautiful sense of honor It details how the internet acted as a bridge and facilitator for the searchers as they attempted to piece the puzzle parts into a coherent whole Finally it is about the closure of a long suffering daughter      Luftwaffe Mistel Composite Bomber Units Robert Forsyth,2015-09-20 The striking appearance of Luftwaffe s Mistel Composite attack aircraft might seem ridiculous to modern eyes but employed correctly these original fire and forget weapons were devastatingly effective as Allied sources testify This book draws on a wealth of first hand reports and revealing contemporary photographs to tell the full strange story of the Mistel units They were the product of a remarkable mix of desperation and innovation and were actually grounded in a pre war non military practise the mounting of one aircraft atop another was initially conceived to extend the ranges of passenger and mail carrying aircraft But as early as 1942 German planners saw the potential for use as a guided missile and by the end of the war the sight of a Ju 88 lashed to a BF 109 or FW 190 fighter bearing down on an Allied target was not as rare as one might expect This is a comprehensive account of the Mistel units from their design and development through the first deployments at D Day to the last desperate missions against key bridges on the Oder and the Neisse in the final weeks of the war
