Sociology and Interpretation Charles A. Pressler,Fabio B. Dasilva,Fabio B.. Da Silva,1996-01-01

Interpretive sociology involves the consideration of not only sense evidence but also of meanings affects and other subjective phenomena Sociologists and social philosophers have attempted to understand social behavior through observable interaction and wellsprings of behavior This book is dedicated to a critical analysis of these approaches from the positivist hermeneutics of Emilio Betti to the non rational ethics of Max Scheler Guided by a general model of social scientific activity developed in the introduction it carefully explores the rich diversity of interpretive positions

The Social Production of Art Janet

Wolff,1993-10-13 This book has been a standard text for cultural studies and the sociology of art since its first appearance in

1981 It provides a clear and useful overview of theories and studies which contribute to the project of a sociology of art ranging from sociology to art history literary theory feminism and media studies The author also bridges the gap between European approaches and the American production of culture approach and addresses the key questions of the role of the reader viewer the nature of authorship and the possibility of cultural politics The new edition contains an Afterword by the author

Musical ontology Lisa Giombini, 2018-01-25T00:00:00+01:00 What is musical ontology Why should we as philosophers address it if ever These questions constitute the Ariadne's thread running throughout this whole work The number of papers volumes and essays that have recently been dedicated to the topic of art and musical ontology is so vast that trying to get a grip on the debate seems like trying to find one's bearings without a compass This book is a guide to help hapless readers find their way through this philosophical jungle It is constructed on three levels the presentation of the debate on musical ontology a meta ontological inquiry and a sort of meta meta ontological overview in which both the ontological and the meta ontological are examined It does not contain any apology for musical ontology nor any attempt to definitively get it off the hook The approach is aporetic in the spirit of an open investigation in which more questions than answers are posited But this is the whole point If this study manages to provide the readers with the necessary theoretical tools to answer these questions for themselves it could be considered a success

Lawrence Alloway Lucy Bradnock, Courtney J. Martin, Rebecca Peabody, 2015-07-01 Lawrence Alloway 1926 1990 was a key figure in the development of modern art in Europe and America from the 1950s to the 1980s He is credited with coining the term pop art and with championing conceptual art and feminist artists in America His interests as a critic and as a curator at the Solomon R Guggenheim Museum in New York were wide ranging however and included architecture design earthworks film neorealism science fiction and public sculpture Early in his career he was associated with the Independent Group in London and although he was largely self taught he was a noted educator and lecturer A prolific writer Alloway sought to escape the conventions of art historical discourse This volume illuminates how he often shaped the field and anticipated approaches such as social art history and visual and cultural studies Lawrence Alloway Critic and Curator provides the first critical analysis of the multiple facets of Alloway's life and career exploring his formative influence on the disciplines of art history art criticism and museum studies The nine essays in this volume depend on primary archival research much of it conducted in the Lawrence Alloway Papers held by the Getty Research Institute Each author addresses a distinct aspect of Alloway's eclectic professional interests and endeavors

Music in Society Ivo Supićić, 1987 The subject of this study has two distinct but not unrelated aspects first an investigation into the sociology of music as an autonomous and specialized discipline and second an examination of certain fundamental facts that may be considered within the purview of the sociology of music itself If an analysis and study even a preliminary one of these facts is to be properly focused and fruitful we must first try to determine the subject and methods of the sociology of music its position and boundaries in respect to musicology and most

especially its relation to the aesthetics of music and music history It is equally indispensable to ascertain what the sociology of music as a separate scholarly discipline embraces where its investigation leads and finally to establish its position vis a vis sociology in general From the Author's Introduction For Dirk Struik Robert S. Cohen, J.J. Stachel, Marx W.

Wartofsky, 2012-12-06 It is fitting that Professor Dirk Jan Struik be greeted with this melange of mathematical scientific historical sociological and political essays The authors are also appropriately varied different countries outlooks religions generations and we suppose of course we did not as different politics too Many more would have joined us we know but the good friends in this book make a fine and representative assembly of the intersection of two mathematical classes affectionately respectful admirers of Dirk Struik and the best thinkers of this troubled century Struik has been among the most steadfast supporters of the Boston Colloquium for the Philosophy of Science that discussion group which we have been holding at Boston University since 1960 but his luminous collaboration has been welcome in Boston and Cambridge for nearly five decades among mathematicians physicists philosophical and political thinkers and especially among the students It has not mattered whether they have been his own students or not whether at MIT or elsewhere whether scholars or dropouts nature lovers or book worms anarchists or Republicans Catholics or Unitarians Communists or communists prim or liberated No doubt he has his preferences But the main thing for Struik has been to educate and respect the other person
