Meanings Of Love:

The Meanings of Love Robert E. Wagoner,1997-05-21 This introductory text offers a clear concise look at the philosophy of love The author's presentation assumes no previous knowledge of philosophy providing the humanities student with an insightful introduction to some of the most prominent writers and philosophers both ancient and modern From the dialogues of Plato to the writings of feminist philosopher Luce Irigaray Wagoner presents six major ideas of love erotic love Christian love romantic love moral love love as power and mutual love This study asserts that even though we have only one word for love six fundamentally different meanings can be distinguished erotic love Christian love romantic love moral love love as power and mutual love Wagoner identifies each of these ideas of love in terms of the special meaning it brings to experience No one meaning is comprehensive Each is shown to have a logic and legitimacy of its own Why each view seems real and compelling is the focus of separate discussions as well as the price that may be exacted by each idea The extent to which these ideas throw light on actual experience is striking but the book is not an empirical or psychological inquiry How one self finds itself in another is first defined and then explored further to see how this shapes the rational and sexual aspects of life

The Meanings of Love Alan Storkey, 1994 The Meanings of Love Bob Wagoner, 1997-05-21 This introductory text offers a clear concise look at the philosophy of love The author's presentation assumes no previous knowledge of philosophy providing the humanities student with an insightful introduction to some of the most prominent writers and philosophers both ancient and modern From the dialogues of Plato to the writings of feminist philosopher Luce Irigaray Wagoner presents six major ideas of love erotic love Christian love romantic love moral love love as power and mutual love This study asserts that even though we have only one word for love six fundamentally different meanings can be distinguished erotic love Christian love romantic love moral love love as power and mutual love Wagoner identifies each of these ideas of love in terms of the special meaning it brings to experience No one meaning is comprehensive Each is shown to have a logic and legitimacy of its own Why each view seems real and compelling is the focus of separate discussions as well as the price that may be exacted by each idea. The extent to which these ideas throw light on actual experience is striking but the book is not an empirical or psychological inquiry How one self finds itself in another is first defined and then explored further to see how this shapes the rational and sexual aspects of life **Cultural Typologies of Love** Victor Karandashev, 2022-09-01 This timely volume offers an integrative approach and a culturally diverse view of love conceptions experiences and expressions building on both individual and cultural typologies of love It comprehensively presents cultural and cross cultural studies on how culture affects love and offers a systematic description of types and cultural models of love The comprehensive reviews of methodology and findings provide a solid empirical basis for the creation of formal typologies This book will be useful for researchers interested in cross cultural studies of love across many disciplines Its accessible language also makes it ideal for undergraduate and graduate students Readers will gain a comprehensive understanding of Cultural conceptions of love and

methods for their research Multiple perspectives in the studies of love across world cultures Cultural models and typologies in an international perspective Cultural models and typologies from an interdisciplinary scientific perspective Meaning of Love Vladimir S. Solov'ëv, Jane Marshall, 1945 The Meaning of Love Vladimir Solovyov, 1985-10 Written in 1894 CW 4 Materialism can never provide a satisfactory explanation of the world For every attempt at an explanation must begin with one s forming thoughts for oneself about the phenomena of the world Materialism therefore takes its start with the thought of matter or of material processes. Thus it already has two different realms of facts before it the material world and thoughts about it It seeks to understand the latter by grasping them as a purely material process It believes that thinking takes place in the brain in about the same way as digestion does in the animal organs Just as it attributes to matter mechanical and organic effects so it also ascribes to it the capability under specific conditions to think It forgets that it has now only transferred the problem to another place It attributes the capability of thinking not to itself but to matter An in doing so it is back again at its starting point The materialistic view is not able to solve the problem but only to shift it pp 18 19 Of all of his works The Philosophy of Spiritual Activity is the one that Steiner himself believed would have the longest life and the greatest spiritual and cultural consequences It was written as a phenomenological account of the results of observing the human soul according to the methods of natural science This seminal work asserts that free spiritual activity understood as the human ability to think and act independently of physical nature is the suitable path for human beings today to gain true knowledge of themselves and of the universe This is not merely a philosophical volume but rather a warm heart oriented guide to the practice and experience of living thinking Readers will not find abstract philosophy here but a step by step account of how a person may come to experience living intuitive thinking the conscious experience of a purely spiritual content During the past hundred years since it was written many have tried to discover this new thinking that could help us understand the various spiritual ecological social political and philosophical issues facing us But only Rudolf Steiner laid out a path that leads from ordinary thinking to the level of pure spiritual activity intuitive thinking in which we become co creators and co redeemers of the world This volume is arguably the most essential of Steiner's works The thoughts in this book establish the foundation for all of Anthroposophy The Philosophy of Spiritual Activity is a translation from German of Die Philosophie der Freiheit GA 4 Love Anna G. Jónasdóttir, Ann Ferguson, 2013-11-12 This unique timely book of original essays sets the stage for a new materialist feminist debate on the analysis ethics and politics of love The contributors raise questions about social power and domination situating their research in a materialist feminist perspective that investigates love historically in order to understand changing ideologies representations and practices The essays range from studies of particular representations and examples of love feminist translation mass media images and internet love blogs to feminist theories of love and marriage to ethical and political theories describing critiquing or advocating the use of love in groups as a radical force They break new ground in bringing together questions of gendered interests in love temporal dimensions of

loving practices and the politics of love in radical transformations of society

Love and Emotions in Traditional Chinese Literature Halvor Eifring, 2021-09-13 Do all cultures and historical

periods have a concept corresponding to the English word emotion This collection of essays is concerned with the closest candidate within the Chinese language namely the term q ng What is the meaning of this term in different periods and genres What are the types of discourse in which it is typically found This volume contains two essays on the notion of q ng in classical sources two on Chan Buddhist usage and two on fiction and drama from the Ming and Qing dynasties An introductory essay discusses the complex historical development of the term Together the essays may be read as a first step towards a conceptual history of one of the key terms in traditional Chinese culture Looking for Love in the Legal **Discourse of Marriage** Renata Grossi, 2014-09-01 This book examines the in visibility of romantic love in the legal discourse surrounding modern Australian marriage It looks at how romantic love has become a core part of modernity and a dominant part of the Western marriage discourse and considers how the ideologies of romantic love are or are not replicated in the legal meaning of marriage This examination raises two key issues If love has become central to people s understanding of marriage then it is important for the legitimacy of law that love is reflected in both the content and application of the law More fundamentally it requires us to reconsider how we understand law and to ask whether it is engaged with emotions or separate from them Along the way this book also considers the meaning of love itself in contemporary society and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage or whether it simply mirrors them This book will be of interest to everyone working on love marriage and sexuality in the disciplines of law sociology and philosophy In the Name of Love Heather Fraser, 2008-10-07 Although love is the hallmark of humanity it is not widely discussed in social work and other related professions with respect to its potential connection to abuse In this groundbreaking book the author argues that while love and abuse should not co exist they often do Using a feminist narrative approach stories about love abuse and social work are told with the purpose of understanding domestic violence and other forms of abuse Based on interviews with 84 women of varying ages in Canada and Australia the author shows how the pain and shame of intimate abuse can leave its mark on the bodies minds and souls of victims survivors long after abusive episodes have ended Additionally Fraser also discusses the importance of hope enlightened witnesses income support and educational opportunities for women who refuse to renounce love relationships altogether but are instead trying to foster relationships that are respectful as well as erotic **The Meaning of Love** Vladimir Sergeyevich Solovyov, 1980

<u>Three Faces of Power</u> Kenneth Ewart Boulding,1990-05 Defining power as the ability to get what we want this volume identifies three major types of power threat power economic power and integrative power It argues that threat power should not be seen as fundamental since it is not effective unless reinforced by economic and integrative power <u>Thomas Merton</u> and the Noonday Demon Donald Grayston,2015-05-19 How did Thomas Merton become Thomas Merton Starting out from

any one of his earlier major life moments wealthy orphan boy big man on campus fervent Roman Catholic convert new and obedient monk we find ourselves asking how by his life s end he had grown from who he was then into a transcultural and transreligious spiritual teacher read by millions This book takes another such starting point his attempt in the mid 1950s to move from his abbey of Gethsemani in Kentucky a place that had become in his view noisy beyond bearing to an Italian monastery Camaldoli which he idealized as a place of monastic peace The ultimate irony Camaldoli at that time bucolic and peaceful outwardly was inwardly riven by a pre Vatican II culture war whereas Gethsemani which he tried so hard to leave became when he was given his hermitage there in 1965 his place to recover Eden In walking with Merton on this journey and reading the letters he wrote and received at the time we find ourselves asking as he did with so much energy and honesty the deep guestions that we may well need to answer in our own lives God's Radical Love in Missio Dei Edward Kim, 2024-12-30 Although missio Dei the mission of God has been a burning theme in missiology since the end of the twentieth century a key verse John 3 16 has been widely neglected in missiology until today Yet John 3 16 reveals missio Dei as the triune God's salvific activities in the world and shows us the very motivation for missio Dei God's Radical Love a love so vast transcultural and universal that no English words can translate the Hebrew Three questions are explored herein How does God's Radical Love in John 3 16 justify God's motivation for missio Dei as the work of the triune God in the Old Testament What does God really plan to achieve in missio Dei And how can missio Dei be applied by Christians in the twenty first century Based on his own experiences the author specifically explores how Messianic Jewish congregations in Israel could respond to and participate in missio Dei with the hope that thoughtful readers may apply this study to their own contexts to engage their own congregations with a deeper understanding of God's Radical Love in missio Dei The Moral Psychology of Love Arina Pismenny, Berit Brogaard, 2022-03-28 Under what circumstances can love generate moral reasons for action Are there morally appropriate ways to love Can an occurrence of love or a failure to love constitute a moral failure Is it better to love morally good people This volume explores the moral dimensions of love through the lenses of political philosophy psychology and neuroscience It attempts to discern how various social norms affect our experience and understanding of love how love relates to other affective states such as emotions and desires and how love influences and is influenced by reason What love is affects what love ought to be Conversely our ideas of what love ought to be partly The Conservator ,1910 determined by our conception of what love is **Past The Pages Of Love Stories** Rithika Sundhari Balasubramanian, 2025-07-31 Past the Pages Of Love Stories is a heartfelt anthology that explores love in all its diverse and beautiful forms Through stories poetry and reflections this collection invites you to go beyond familiar tales of romance and discover the deeper quieter and often overlooked expressions of love that shape who we are Compiled by Rithika Sundhari Balasubramanian this book brings together voices that celebrate love s many faces comforting complex and transformative Whether you ve loved deeply grown through loss or are still seeking connection these pages remind you that

love is all around us in every moment every bond and every heartbeat In Love with Life Osho, 2015-01-13 In his preface to Ecce Homo Friedrich Nietzsche says this With Thus Spoke Zarathustra I have given mankind the greatest present that has ever been made to it so far This book with a voice bridging centuries is not only the highest book there is the book that is truly characterized by the air of the heights the whole fact of man lies beneath it at a tremendous distance it is also the deepest born out of the innermost wealth of truth an inexhaustible well to which no pail descends without coming up again filled with gold and goodness Perhaps only a contemporary mystic like Osho could truly understand what Nietzsche meant by this statement In Love with Life shares Osho's understanding of both Nietzsche the man and of his seminal work with extraordinary clarity and relevance to readers in the 21st century Ten chapters have been selected from a series of 43 talks given by Osho first published as two volumes Zarathustra A God that Can Dance and Zarathustra The Laughing Prophet Here Nietzsche is rescued from any remaining taint brought on by the Nazi misunderstanding and appropriation of his work and we also learn much about the mysterious and revolutionary Persian mystic Zarathustra Zoroaster whom Nietzsche chose as a spokesperson The result is an enchanting journey through a world where life is celebrated not renounced and where timeless truths prevail over the lies and distortions that continue to cripple our efforts to become healthy and whole Chinese Affairs ..., 1921
