Meanings Of Death:

The Meanings of Death John Westerdale Bowker,1991 **The Meanings of Death** John Bowker,1993-03-26 A major contribution to debates about the value of death and its place in Western and Eastern religions is presented by this work s belief that religious and secular attitudes can support and reinforce one another through their attitudes towards death

The Meaning of Death ,1959 **New Meanings of Death** Herman Feifel,1977 A collection of articles by scientists clinicians and educators discussing clinical and empirical findings and new perspectives on death **Meanings of Life** Roy F. Baumeister,1991-01-01 Who among us has not at some point asked what is the meaning of life In this extraordinary book an eminent social scientist looks at the big picture and explores what empirical studies from diverse fields tell us about the human condition **MEANINGS OF LIFE** draws together evidence from psychology history anthropology and sociology integrating copious research findings into a clear and conclusive discussion of how people attempt to make sense of their lives In a lively and accessible style emphasizing facts over theories Baumeister explores why people desire meaning in their lives how these meanings function what forms they take and what happens when life loses meaning It is the most comprehensive examination of the topic to date **Older Adults' Views on Death** Victor G. Cicirelli, PhD,2006-05-26 This empirically based study of older adults ranging in age from 70 90 years examines the influence of family relations religious beliefs age related health changes culture and more on personal meanings of death fears of death and views of the dying process Gerontologists will gain a more realistic understanding of all of the factors influencing an older individual s view of death and the dying process These views impact the development of both effective interventions to provide appropriate emotional support and coping strategies to help persons deal with fears of approaching death **The Spiritual**

Significance; Or, Death as an Event in Life Lilian Whiting,1900 **The Definition of Death** Stuart J. Youngner,Robert M. Arnold,Renie Schapiro,2002-10-15 In the 1980s following the recommendation of a presidential commission all fifty states replaced previous cardiopulmonary definitions of death with one that also included total and irreversible cessation of brain function **The Definition of Death Contemporary Controversies** is the first comprehensive review of the clinical philosophical and public policy implications of our effort to redefine the change in status from living person to corpse Edited by Stuart J Youngner Robert M Arnold and Renie Schapiro the book is the result of a collaboration among internationally recognized scholars from the fields of medicine philosophy social science law and religious studies Throughout the contributors struggle to reconcile inconsistencies and gaps in our traditional understanding of death and to respond to the public s concern that in the determination of death under current policies patients interests may be compromised by the demand for organ retrieval Their questions about the philosophical and scientific bases for determining death lead inevitably to more profound questions of social policy Acknowledging that the definition of death is as much a social construct as a scientific one the authors in their analysis of these issues provide a comprehensive and provocative source of information for students and scholars alike

Handbook of Death and Dying Clifton D. Bryant, 2003-10 Dying is a social as well as physiological phenomenon. Each society characterizes and consequently treats death and dying in its own individual ways, ways that differ markedly. These particular patterns of death and dying engender modal cultural responses, and such institutionalized behavior has familiar economical, educational, religious, and political implications. The Handbook of Death and Dying takes stock of the vast literature in the field of thanatology, arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work. This two-volume handbook will provide direction and momentum to the study of death-related behavior for many years to come. Key Features: More than 100 contributors representing authoritative expertise in a diverse array of disciplines: Anthropology, Family Studies, History, Law, Medicine, Mortuary Science, Philosophy, Psychology, Social Work, Sociology, Theology. A distinguished editorial board of leading scholars and researchers in the field. More than 100 definitive essays covering almost every dimension of death-related behavior. Comprehensive and inclusive, exploring concepts and social patterns within the larger topical concern. Journal article length essays that address topics with appropriate detail. Multidisciplinary and cross-cultural coverage.

Death and the Quest for Meaning Stephen Strack, Herman Feifel, 1997 Essays in tribute to pioneering researcher Herman Feifel cover all aspects of thanatology: the study of death and dying and the care of the dying and bereaved. Topics include the role of the caregiver, the process of grief, religious and spiritual perspectives, how children cope with death, and assisted death. Of interest to social workers, nurses, psychotherapists, physicians, clergy, and educators. Annotation copyrighted by Book News, Inc., Portland, OR.

Meanings of Life and Death for Children in Japan Miharu Sagara, 2003

Families Making Sense of Death Janice Winchester Nadeau, 1998 Through interviews and analysis, Janice Winchester Nadeau takes a look at the dynamics at work in families in which a member has died. She shares stories which show how families gradually come to terms with their grief and make sense of the death.

"The" Social Meaning of Death Renée Claire Fox, 1980

The Human Quest for Meaning Paul T. P. Wong, 2013-06-19 The first edition of *The Human Quest for Meaning* was a major publication on the empirical research of meaning in life and its vital role in well-being, resilience, and psychotherapy. This new edition continues that quest and seeks to answer the questions: what is the meaning of life? How do we explain what constitutes meaningful relationships, work, and living? The answers, as the eminent scholars and practitioners who contributed to this text find, are neither simple nor straightforward. While seeking to clarify subjective vs. objective meaning in 21 new and 7 revised chapters, the authors also address the differences in cultural contexts and identify 8 different sources of meaning, as well as at least 6 different stages in the process of the search for meaning. They also address different perspectives, including positive psychology, self-determination, integrative narrative, and relational perspectives, to ensure that readers obtain the most thorough information possible. Mental health practitioners will find the numerous meaning-centered interventions, such as the PURE and ABCDE methods, highly useful in their own work with facilitating healing and personal growth in their clients. *The Human Quest for*
