

A photograph of a man standing inside a small, open-sided telephone booth. The booth is made of metal and has a large, circular, green-tinted sign on top. The man is wearing a dark jacket and light-colored pants, and is holding a telephone receiver to his ear. He is looking down. The background is a vast, flat, arid landscape under a clear sky. A tall, dark pole with some equipment is visible to the right of the booth.

At the Brink of Infinity James E. von der Heydt, 2008-04 From popular culture to politics to classic novels quintessentially American texts take their inspiration from the idea of infinity In the extraordinary literary century inaugurated by Ralph Waldo Emerson the lyric too seemed to encounter possibilities as limitless as the U.S. imagination This raises the question What happens when boundlessness is more than just a figure of speech Exploring new horizons is one thing but actually looking at the horizon itself is something altogether different In this carefully crafted analysis James von der Heydt shines a new light on the lyric craft of Emily Dickinson Robert Frost Elizabeth Bishop and James Merrill and considers how their seascape vision redefines poetry's purpose Emerson famously freed U.S. literature from its past and opened it up to vastness in the following century a succession of brilliant rigorous poets took the philosophical challenges of such freedom all too seriously Facing the unmarked horizon Emersonian poets capture and are captured by a stark astringent version of human beauty Their uncompromising visions of limitlessness reclaim infinity's proper legacy and give American poetry its edge Von der Heydt's book recovers the mystery of their world **The Vocation of Writing** Marc Crépon, 2018-04-01 Explores how violence structures language and the writing of literature and philosophy Within the violence our societies must confront today exists a dimension proper to language Anyone who has been through the educational system for example recognizes how language not only shapes and models us but also imposes itself upon us During the twentieth century this system revealed how language can condemn one to a certain death In The Vocation of Writing philosopher Marc Crépon explores this dimension of language convinced that the node of all violence pertains first to language and how we make use of it Crépon focuses on Kafka Levinas Singer and Derrida not only because each rose against commandeering language in order to warn against the next massacres but also because their work affirms the vocation of writing that which makes literature and philosophy the final weapon for unmasking the violence and hatred that language bears at its heart To affirm the vocation of writing is to turn language against itself to defuse its murderous potentialities by opening it toward exchange responsibility and humanity when the latter fixes the other and the world as its goals **The Extraterrestrial Life Debate, 1750-1900** Michael J. Crowe, 2012-05-04 Detailed scholarly study examines the ideas that

developed between 1750 and 1900 regarding the existence of intelligent extraterrestrial life including those of Kant Herschel Voltaire Lowell many others 16 illustrations **General essay on Milton's English and versification and notes to the poems** John Milton,1890 **Yeats The Poet** Edward Larrissy,2014-07-15 This work addresses Yeats s antinomies seeing their origin and structure in his divided Anglo Irish inheritance and examining the notion of measure It then explores how this relates to freemasonry Celticism and Orientalism and looks at the Blakean esoteric language of contrariety and outline which provided Yeats with the vocabulary of self understanding John Donne: Collected Poetry John Donne,2012-10-04 Regarded by many as the greatest of the Metaphysical poets John Donne 1572 1631 was also among the most intriguing figures of the Elizabethan age A sensualist who composed erotic and playful love poetry in his youth he was raised a Catholic but later became one of the most admired Protestant preachers of his time The Collected Poetry reflects this wide diversity and includes his youthful songs and sonnets epigrams elegies letters satires and the profoundly moving Divine Poems composed towards the end of his life From joyful poems such as The Flea which transforms the image of a louse into something marvellous to the intimate and intense Holy Sonnets Donne breathed new vigour into poetry by drawing lucid and often startling metaphors from the world in which he lived His poems remain among the most passionate profound and spiritual in the English language Essay on Milton's English and versification. Notes to the poems John Milton,1890
